QUASAR	CLINIC IEN
PROSTHETICS	FORM REQUESTED ON
CLINIC	CLINIC IEN

3.5. DSS Extract Field Modifications

Extract	Field Modifications

EVENT CAPTURE LOCAL	PLACEHOLDER (Renamed from NUTRITION DIAGNOSIS) PLACEHOLDER (Renamed from CLINIC IEN)
QUASAR	PLACEHOLDER (Renamed from NUTRITION DIAGNOSIS) PLACEHOLDER (Renamed from CLINIC IEN)
CLINIC	PLACEHOLDER (Renamed from CLINIC NAME)

3.6. Disabled EDIT CLINIC STOP CODE NAME option

- The Edit Clinic Stop Code Name - Local Entries Only option [SD EDIT LOCAL STOP CODE NAME] has been removed from the Supervisor Menu [SDSUP]. ** NOTE PART OF PATCH SD SD*5.3*633 **

3.7. Change all references from “DSS Identifiers” to “Stop Code”

- The term “DSS Identifiers” has been removed from Menu Options, and report headers and has been replaced by the term “Stop Code”

3.8. Modify Clinics & DSS Stop Codes Print Report

- The DSS Stop Code and DSS Credit Stop Code columns have been removed from all versions of the report.

3.9. Modify ECS extract logic

- The extract logic has been updated so that certain chaplain workload can be entered for patients with 5 leading zeroes.
- The cost center conversion logic has been removed from the ECS extract.
- A report will be generated as part of the patch installation (post) that will list DSS units that meet the following requirement.

  It is an active DSS Units with a 'Send no records' PCE setting and without an associated completed stop code.
- The extract logic has been updated so that all records, regardless of stop code value will be stored. Any invalid stop codes will be recorded in the extract and the encounter number will show "ECS" to identify records with an invalid stop code.

3.10. Populate Camp Lejeune Patient Status

- Related extracts have been updated to include Camp Lejeune patient status information. This is subject to the release of Camp Lejeune-related patches which will be released at a future date.

3.11. Modify the CREATE DSS CLINIC STOP CODE FILE option.

- The logic for the option has been updated so that the DSS STOP CODE and DSS CREDIT STOP CODE fields in the CLINICS AND STOP CODES file #728.44 are populated from the

STOP CODE and CREDIT STOP CODE fields from the corresponding entry in the HOSPITAL LOCATION file #44.

3.12. Modify the ENTER/EDIT DSS STOP CODES FOR CLINICS option

- The option has been modified so that the DSS STOP CODE and DSS CREDIT STOP CODE fields can no longer be changed. The option will also be renamed ENTER/EDIT CLINIC PARAMETERS.

3.13. Modify the DSS IDENTIFIER NON-CONFORMING CLINICS REPORT

- The option has been updated to remove the DSS STOP CODE and DSS CREDIT STOP CODE fields from the report. The option will also be renamed STOP CODE NON-CONFORMING CLINICS REPORT.

3.14. Modify the DSS CLINIC & STOP CODES VALIDITY REPORT

- The report has been updated to remove the DSS STOP CODE and DSS CREDIT STOP CODE fields from the report. The option will also be renamed CLINIC & STOP CODES VALIDITY REPORT.

3.15. Modify all extract related audit reports

- All extract audit reports have been updated so that an extract can be started from within the extract audit report.

3.16. Add BCM to pharmacy options

- Under the Pharmacy Maintenance Menu, BCM has been added to the Pharmacy Volume Edit and Pharmacy Volume Edit Log options.

3.17. Review all ACTION TO SEND values

- All of the ACTION TO SEND values in the CLINICS AND STOP CODES file #728.44 will be evaluated and any that are 3 or 7 will be changed to 5. Values 3 and 7 were previously removed but existing data was not updated.

3.18. Modify UDP extract

- The logic has been updated so that clinic orders don't report a ward.

3.19. Modify ACTION TO SEND choices

- The field ACTION TO SEND in the CLINICS AND STOP CODES file #728.44 has been updated so that for values 4 and 5, the word NATIONAL has been replaced by CHAR4.

3.20. Modify the ECS and ECQ extracts

- The extract logic has been updated so that DSS Units that send no records will get the stop code, credit stop code and the CHAR4 code from the DSS unit.

3.21. Modify the NATIONAL CLINIC CODES FOR DSS LIST option

- The option has been renamed to CHAR4 CODES LIST.

3.22. Modify the ENTER/EDIT CLINIC PARAMETERS option **Note formerly - Enter/Edit DSS Stop Codes for Clinics

- The option has been updated to allow the user to modify the DSS PRODUCT DEPARTMENT without causing the Clinic to become unreviewed.

3.23. Modify the PRO extract

- The logic has been updated so that the cost field is populated when the form requested on is either stock issue or inventory issue.
- The feeder key logic has been modified so that a value of "S" (stock issue) or "I" (inventory issue) is appended if the form requested on is either stock issue or inventory issue.
- A new field FORM REQUESTED ON has been added to the extract.

3.24. Implement ICD-10 fields

- The ADM, CLI, ECS, ECQ and SUR extracts logic have been updated to store ICD-10 fields in anticipation of the 10/1/15 implementation date.

3.25. Modify the BCM extract

- The extract logic has been updated to only count the first administration of a medication not counted by the UDP or IVP extracts. This will apply to medications determined to be multi-dose containers.

3.26. Add the new field FORM REQUESTED ON to reports

- This new field has been added to the printed and exported versions of the COST BY PSAS HCPC REPORT and the PROSTHETIC EXTRACT UNUSUAL COST REPORT.

3.27. Modify the LAB RESULTS EXTRACT UNTRANSLATABLE RESULTS REPORT

- The report logic was changed to indicate (by terminating the field with a plus sign '+') when the RESULT field contains more than 20 characters. The exported version will contain the entire field value.

3.28. Modify the PRE extract

- The extract logic has been updated to include a new field called REMARKS. This field will identify any prescriptions filled under the Veteran's Choice program.

3.29. Modify the PHARMACY EXTRACTS UNUSUAL COST REPORT

- The report logic has been updated so that BCM is no longer a selectable option for the report.

3.30. Exportability of DSS Reports

The following report has been modified so that it can be exported into Excel spreadsheets.

- Laboratory Blood Bank (LBB) Comparative Report
