Introduction

The REACH VET program is a new Office for Suicide Prevention program that uses predictive analytics to identify Veterans at high statistical risk for suicide and other adverse outcomes. Each VHA facility is required to have a REACH VET Coordinator who accesses a dashboard to see which Veterans are in the top .1% tier of highest risk Veterans at that site. The Coordinator then identifies a REACH VET Provider for reach Veteran. This provider is required to review the Veteran's medical record, re-evaluate care, consider care enhancement strategies and outreach the Veteran. The two reminder dialogs contained in this update are to be used by the REACH VET provider and REACH VET COORDINATOR

Two reminder dialogs are being distributed with this update:

- VA-REACH VET COORDINATOR TEMPLATE
- VA-REACH VET PROVIDER TEMPLATE

UPDATE_2_0_31 contains 1 Reminder Exchange entry:

2. Setup of Note title

You will need to create two new note titles for the dialogs included in this update if you do not currently have these note titles available in your system.

The new note titles that need to be created are:

REACH VET COORDINATOR NOTE

REACH VET PROVIDER NOTE

These note titles are both to be mapped to the following VHA Enterprise Standard Title:

SUICIDE PREVENTION NOTE

Comprehensive information on Creating Document Definitions can be found beginning on page 47 of the [TIU/ASU Implementation Guide](#)

Note: If your facility created local REACH VET note titles, inactivate those existing note titles.

3. Associate the reminder dialogs with the note title in CPRS.

To do this, go to Template Editor, then Document Titles, select the appropriate folder (if applicable), and choose New Template (top right-hand corner).

In the Dialog/Progress Note text, replace **[Facility Name]** with your facility name (*if you are an integrated facility, you can replace with a TIU template text field or a locally created TIU template field with a choice of facility names*). Replace **[Veteran Name]** with your local data object that represent Veteran or Patient name.
