

Consult Toolbox
Software Version 1.9.0054
User Guide

December 2019
Department of Veterans Affairs
Office of Information and Technology (OIT)

Revision History

NOTE: The revision history cycle begins once changes or enhancements are requested after the document has been baselined.

Date	Revision	Description	Author
12/04/2019	11	Release of version 1.9.0054. Updates include: <ul style="list-style-type: none"> • Updated screen captures to reflect version number 1.9.0050. • Updated Specific Eligibility Verified menu options under MSA Elig. Verification tab. • Updated Forward to Community Care options. • HSRM Forwarding Consults 	AbleVets
6/04/2019	10.1	Update of version 1.9.0004. CAN Score API updates include: <ul style="list-style-type: none"> • Updated CAN Score description. • Updated name from National Service Desk to Enterprise Service Desk. 	AbleVets
5/07/2019	10.0	Release of version 1.9.0004. Updates include: <ul style="list-style-type: none"> • Updated screen captures to reflect version number 1.9.0004. • Added CAN Score note. • Updated SEOC from optional to mandatory. • Removed Care Coordination from Community Care Functions • Updated SAR tab to Secondary Authorization Request (SAR)/Request for Service (RFS). • Added Launch DST section. • Added additional SEOC warning message. 	AbleVets

Date	Revision	Description	Author
11/06/2018	9.2	Updated the Other User Settings screen capture. Added the Preferred Client Cert: content to the document. Software released to field as 1.9.002B.	AbleVets
8/28/2018	9.1	Added Appendix A: Consult Factor Types and Definitions.	AbleVets
06/15/18	9.0	Community Care SEOC functionality modified to utilize the SEOC DB, CAN Score functionality modified to utilize the CAN Score API when available, other functionality refined. v1.9.02	AbleVets
6/4/2018	8.0	Community Care SEOC interim functionality expanded to include additional SEOCs, other functionality refined. V1.8.01	AbleVets
01/19/18	7.0	Community Care SEOC interim functionality added, other functionality refined v1.7.01	AbleVets
06/15/17	6.0	Community Care Functions section, Enable/Disable functionality refined v1.0.6051	Charles S. Demosthenes, MD
05/04/17	5.1	Enable and Disable functionality added v1.0.0505	Charles S. Demosthenes, MD
10/05/16	5.0	Rework of community care Refinements of other modules v1.0.5	Charles S. Demosthenes, MD
04/05/16	4.0	Deployment Version v1.0.4	Charles S. Demosthenes, MD
01/21/15	3.0	Revisions to Discontinue consult v1.0.3	Charles S. Demosthenes, MD
01/05/15	2.0	Conversion to dialog boxes v1.0.2	Charles S. Demosthenes, MD
11/27/15	1.0	Initial Version v1.0	Charles S. Demosthenes, MD

Artifact Rationale

Per the Veteran-focused Integrated Process (VIP) Guide, the User's Guide is required to be completed prior to Critical Decision Point #2 (CD2), with the expectation that it will be updated as needed. A User Guide is a technical communication document intended to give assistance to people using a particular system, such as VistA end users. It is usually written by a technical writer, although it can also be written by programmers, product or project managers, or other technical staff. Most user guides contain both a written guide and the associated images. In the case of computer applications, it is usual to include screenshots of the human-machine interfaces, and hardware manuals often include clear, simplified diagrams. The language used is matched to the intended audience, with jargon kept to a minimum or explained thoroughly. The User Guide is a mandatory, build-level document, and should be updated to reflect the contents of the most recently deployed build. The sections documented herein are required if applicable to your product.

1. Introduction

The Consult Toolbox software was created by the Atlanta VA Medical Center (VAMC) in response to a need to manage the process of consult management. During the life of a consult, there are steps of actions to be taken, and there is a need to be able to track these steps at an individual patient level. Additionally, there is a need to be able to understand the overall status of consult management at a macro level, and identify specific services needing attention or resources. Without opening and reading a patient medical record, it is difficult to identify which Veterans have had which scheduling steps completed.

This software does several things. First, it makes it very easy for staff to document actions completed quickly and consistently. Second, it uses consistent verbiage to document these steps. Third, it eliminates the need to take a second action or make a separate entry to track scheduling steps. Fourth, this consistent verbiage allows software analysis of records without needing to have software changes to Veterans Health Information Systems and Technology Architecture (VistA) or Computerized Patient Record System (CPRS).

A separate process using Corporate Data Warehouse (CDW) queries and reports allows creation of views showing such things as Veterans who have not had first call, second call, scheduling letter sent or how much time has passed between these events.

Together, these allow tracking and managing consults without the need to keep a separate list or other workflow to know which consults need attention.

1.1. Purpose

The purpose of this document is to provide instruction for utilizing the Consult Toolbox to standardize and streamline consult management for Community Care.

1.2. Document Orientation

The *One Consult Toolbox v1.9.0054 User Guide* will provide explanations of each screen and of all user interface options within the context of an easy to understand demonstration data scenario.

This document is also designed to provide the user with screen-by-screen “how to” information on the usage of Consult Toolbox.

1.2.1. Organization of the Manual

Section 1: Introduction

The Introduction section provides the purpose of this manual, an overview of the Consult Toolbox software, an overview of the software used, project references, contact information for the user to seek additional information, and an acronyms and abbreviations list for this manual.

Section 2: System Summary

The System Summary section provides a graphical representation of the equipment, communication, and networks used by the system, user access levels, how the software will be accessed, and contingencies and alternative modes of operation.

Section 3: Getting Started

Information for the Getting Started section provides a general walk-through of the system from initiation through exit, enabling the user to understand the sequence and flow of the system.

Section 4: Using the Software

This section gives the user the “how to” information to use Consult Toolbox, including many step-by-step procedures.

Section 5: Troubleshooting

This section provides troubleshooting for the Consult Toolbox user.

Section 6: Acronyms and Abbreviations

This section provides a list of acronyms and abbreviations found in this document.

1.2.2. Assumptions

The user must have login credentials for CPRS.

1.2.3. Coordination

N/A

1.2.4. Disclaimers

1.2.4.1. Software Disclaimer

This software was developed at the Department of Veterans Affairs (VA) by employees of the Federal Government in the course of their official duties. Pursuant to title 17 Section 105 of the United States Code this software is not subject to copyright protection and is in the public domain. VA assumes no responsibility whatsoever for its use by other parties, and makes no guarantees, expressed or implied, about its quality, reliability, or any other characteristic. We would appreciate acknowledgement if the software is used. This software can be redistributed and/or modified freely provided that any derivative works bear some notice that they are derived from it, and any modified versions bear some notice that they have been modified.

1.2.4.2. Documentation Disclaimer

The appearance of external hyperlink references in this manual does not constitute endorsement by the Department of Veterans Affairs (VA) of this Web site or the information, products, or services contained therein. The VA does not exercise any editorial control over the information you may find at these locations. Such links are provided and are consistent with the stated purpose of the VA.

1.2.5. Documentation Conventions

This manual uses several methods to highlight different aspects of the material.

Table 1. Documentation Symbols and Descriptions

Symbol	Description
	CAUTION: Used to caution the reader to take special notice of critical information.

NOTE: Notes are used to inform the reader of general information including references to additional reading material.

1.2.6. References and Resources

Readers who wish to learn more about CPRS and Consult Toolbox should consult the following:

- CPRS: Consult/Request Tracking in the VDL:
<https://www.va.gov/vdl/application.asp?appid=62>
- <http://www.vehu.va.gov/vehu/Resources.cfm>

1.3. Enterprise Service Desk and Organizational Contacts

For issues related to the Consult Toolbox that cannot be resolved by this manual or the site administrator, please contact the Enterprise Service Desk at 855-NSD-HELP (673-4357).

2. System Summary

2.1. System Configuration

The Consult Toolbox software installs at the Windows level and resides in the system tray. It watches keyboard and mouse activity and comes to life when certain conditions occur. The first is it only activates when the currently active windows title **Add Comment to Consult, Forward Consult, Discontinue Consult, Administratively Complete, Receive Consult, Update Significant Findings**, or WIN+V. Otherwise it does nothing.

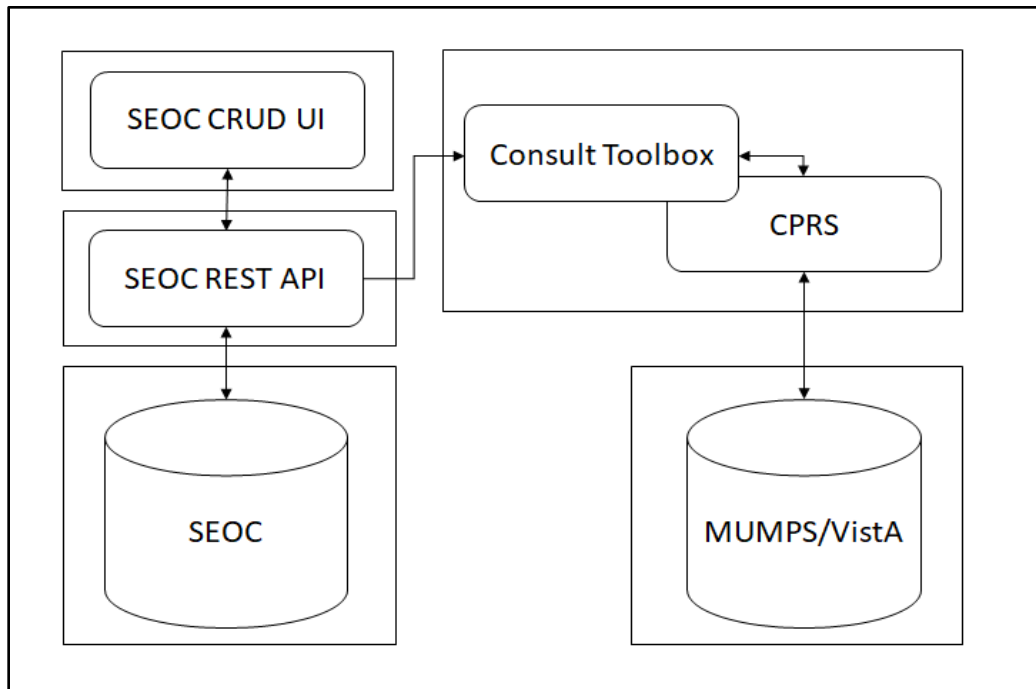

The second is when the user initiates a trigger event when either of these windows have the focus, then depending on the open window a menu appears for the user to select the appropriate action, then the software inserts the appropriate text into the comment box.

The defined trigger is a right mouse click in the supported CPRS consult actions.

2.2. Data Flows

The figure below displays the Consult Toolbox data flow between CPRS and SEOC.

Figure 1: Consult Toolbox Data Flow

2.3. User Access Levels

The User must have access to CPRS to access Consult Toolbox.

2.4. Continuity of Operation

Consult Toolbox falls under the VistA Continuity of Operations Plan.

3. Getting Started

This section provides a general walkthrough of Consult Toolbox from initiation through exit.

3.1. Accessing Consult Toolbox

NOTE: If you are unable to access/use Consult Toolbox, see the Troubleshooting section in this document or contact the National Service Desk at 855-NSD-HELP (673-4357).

3.1.1. Enabling Consult Toolbox

NOTE: Before enabling Consult Toolbox in CPRS, you will need to run the ConsultToolbox.exe file. The file can be found in the following location: <C:\Program Files\ConsultToolBox\ConsultToolbox.exe>.

Consult Toolbox is part of the CPRS system which requires both a user name and password. On the first use, Consult Toolbox will be disabled until you enable through the CPRS Tools menu. Once enabled, you'll want to set your preferences.

The Consult Toolbox should be enabled on the applicable computer (this only needs to be done once on a given computer for each person).

When installed on the PC, it will be installed on the workstation as an installed program, but it will need to be enabled. This should be set up on the CPRS Tools menu. Below is an example of how it might, look, but depending on how the station Clinical Application Coordinators (CAC) set-up the tool, the enable link may be in some other location on the tool bar, so each station may look different.

Figure 2: Enable Consult Toolbox Menu Option

Selecting **Enable Consult Toolbox** will activate the Toolbox so it will open automatically each time Windows is opened. It only needs to be done once for a given PC and enabled; the Consult Toolbox will be active each time you log into this computer.

When changing computers, the user will need to enable it on the new computer. It will remain enabled from then on, until it is disabled. In the event the Consult Toolbox seems to not be working correctly, enable it again and it will reset.

NOTE: *If SEOC database is unavailable the following warning displays. SEOCs previously downloaded will still be available on the **Authorization** tab. Contact the NSD if no SEOCs are available.*

Figure 3: SEOC Database Unreachable Message

3.1.2. Setting Consult Toolbox Preferences

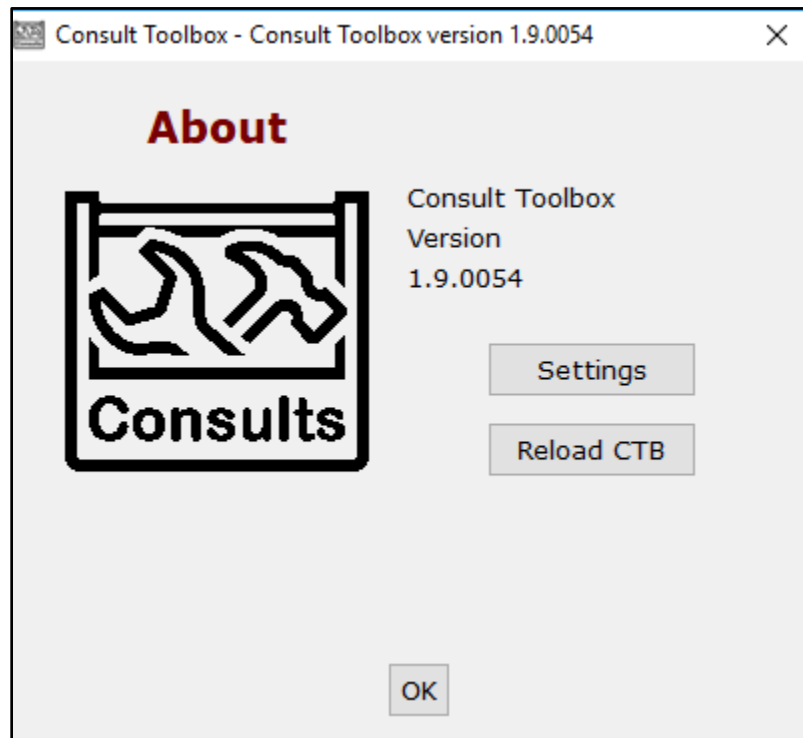

The Settings functionality within the Consult Toolbox provides any user the ability to select their default features upon opening the Toolbox based on their roles and responsibilities.

To update your Consult Toolbox settings, follow the steps listed below:

1. Press the Windows + V key. Once these keys are pressed, the **About Consult Toolbox** dialog box opens.

Authorized Use Only

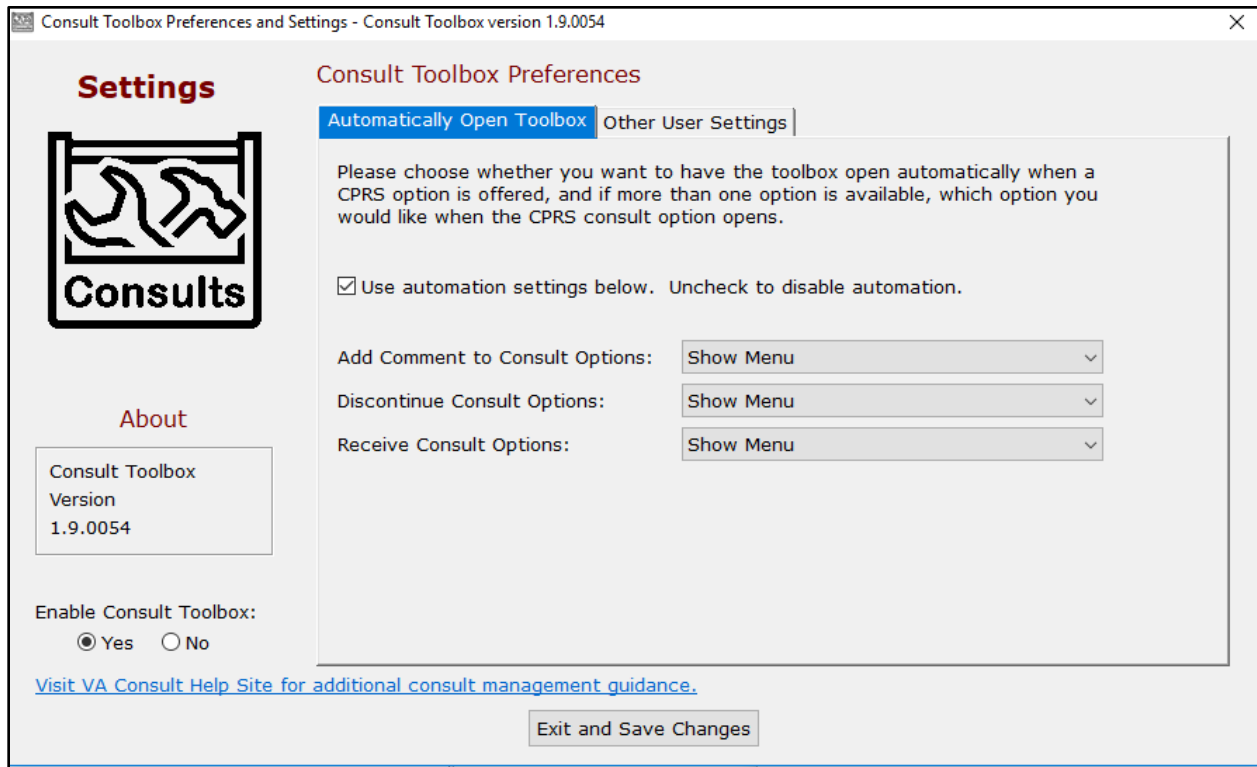

Figure 4: About Consult Toolbox

2. Click **Settings** to set the preferences. The **Consult Toolbox Preferences and Settings** window opens.

NOTE: Clicking **OK** will close the dialog box and otherwise do nothing. The **Reload CTB** resets the Consult Toolbox and can also be used to recover from a technical glitch.

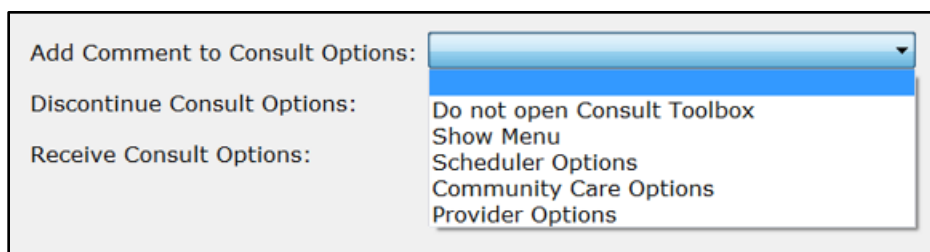

Figure 5: Consult Toolbox Preferences Window

NOTE: The *Consult Toolbox Preferences and Settings* window also displays the *Consult Toolbox Version* number.

3. Select the **Automatically Open Toolbox** tab.
4. From the **Enable Consult Toolbox** section, select **Yes** or **No**.
 - **Yes** – this makes the Consult Toolbox function. By enabling it, a link to the Consult Toolbox is placed in the Windows Start Up folder, so the consult toolbox is active each time you log into this PC.
 - **No** – this removes any link from the Startup Menu and turns off the Consult Toolbox. After selecting this option, the Consult Toolbox will no longer function. It will need to be enabled once again from the CPRS Tools menu.
5. Select the **Use automation settings below**. check box to automate settings, otherwise the automation functionality will be disabled.
6. From the **Add Comment to Consult Options:** drop-down menu, select the preferred add comment to consult option.

Figure 6: Add Comment to Consult Options

Add Comment to Consult Options:

Discontinue Consult Options:

Receive Consult Options:

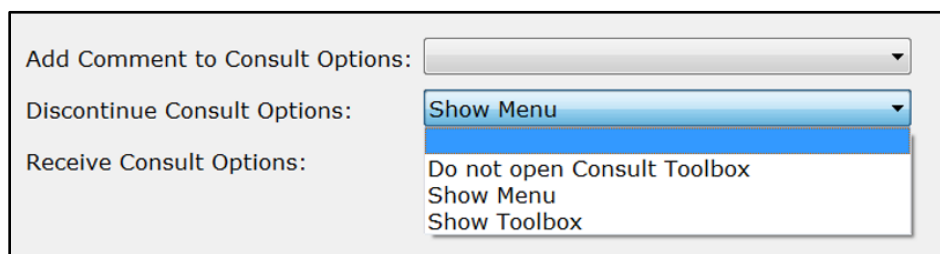

- Do not open Consult Toolbox
- Show Menu
- Scheduler Options
- Community Care Options
- Provider Options

- **Do not open Consult Toolbox:** Nothing will happen when the CPRS add comment box opens.
- **Show menu:** As soon as the Add Comment to Consult box opens, the shortcut menu will show itself for the user to select. The user may select an option, or doing something else, including clicking in the white space of the box, will cause the shortcut menu to disappear.
- **Scheduler Options:** As soon as the Add Comment to Consult pop-up box appears, the Consult Toolbox screen for in-house VA schedulers will also appear.
- **Community Care Options:** As soon as the Add Comment to Consult pop-up box appears, the Community Care screen for the Consult Toolbox will also appear. This is the same screen that appears under Community Care Options on the **Receive Consult** CPRS box.
- **Provider Options:** As soon as the Add Comment to Consult dialog box opens, the provider review screen will appear.

NOTE: For VA in-house consult schedulers, the recommended setting is **Scheduler Options**. For Community Care staff (clinical and administrative), the recommended setting is **Community Care Options** and for in-house clinicians, the recommended setting is **Provider Options**.

7. From the **Discontinue Consult Options:** drop-down menu, select the preferred discontinue consult option.

Figure 7: Discontinue Consult Options

- Show Toolbox

- **Do not open Consult Toolbox:** Nothing will happen when the CPRS discontinue box opens.
- **Show menu:** As soon as the **Discontinue Consult** window opens, the shortcut menu will show itself for the user to select. The user may select an option, or doing something else, including clicking in the white space of the box, will cause the shortcut menu to disappear.

Authorized Use Only

- **Show Toolbox:** As soon **Discontinue Consult** window opens, the **Consult Toolbox** discontinue consult screen also appears.
8. From the **Receive Consult Options:** drop-down menu, select the preferred receive consult option.

Figure 8: Receive Consult Options

The screenshot shows a user interface with three dropdown menus labeled 'Add Comment to Consult Options:', 'Discontinue Consult Options:', and 'Receive Consult Options:'. The 'Receive Consult Options:' dropdown is open, displaying a list of options: 'Do not open Consult Toolbox', 'Show Menu', 'Receive Options', and 'Community Care Options'. The 'Show Menu' option is highlighted with a blue background.

- **Do not open Consult Toolbox:** Nothing will happen when the receive consult box opens.
 - **Show menu:** As soon as the Receive Consult box opens, the shortcut menu will show itself for the user to select. The user may select Receive Consult or select something else. Clicking in the white space of the box, will cause the shortcut menu to disappear.
 - **Receive Consult:** As soon as the Receive Consult box appears, the Receive Consult screen for the Consult Toolbox will also appear.
 - **Community Care Options:** As soon as the Receive Consult box appears, the Community Care screen for the Consult Toolbox will also appear. Note, this is the same screen appears under Community Care Options on the **Add Comment to Consult CPRS** box.
9. Select the **Other User Settings** tab.

Figure 9: Other User Settings Tab

The screenshot shows a window titled "Consult Toolbox Preferences and Settings - Consult Toolbox version 1.9.0054". On the left is a sidebar with a "Settings" section containing a "Consults" icon and an "About" section showing "Consult Toolbox Version 1.9.0054". Below the sidebar is a section "Enable Consult Toolbox:" with radio buttons for "Yes" (selected) and "No". The main area is titled "Consult Toolbox Preferences" and has two tabs: "Automatically Open Toolbox" and "Other User Settings" (which is active). Under the "Other User Settings" tab, there are several options: four checkboxes at the top, four text input fields, and two more checkboxes at the bottom. The checkboxes are: "Check if you are a clinical staff member" (checked), "Check if you want the low risk option on Receive Consult screen" (unchecked), "Enable color features" (checked), and "Enable audible tabs" (unchecked). The text fields are: "CAN URL:" with "https://canscoreapi.va.gov/v1/canscore", "Client Cert:" with "null", "Facility & Services:" with "https://dvagov-ppms.crm9.dynamics.com/apps/providerlocator", and "SEOC URL:" with "https://seocapi.va.gov/v2/seoc/active". Below these is a "State:" dropdown menu set to "FL (FLORIDA)". At the bottom of the main area are two checkboxes: "Enable Delegation of Authority for administrative authorized processing" (checked) and "Enable consult screening and triage options" (checked). At the very bottom of the window is a button labeled "Exit and Save Changes".

10. Select the check boxes for the preferred settings.

- **Check if you are a clinical staff member** – This is pertinent only under the Community Care screen. If the user can make clinical assessments or decisions in the management of community care, select yes for this option. Staff selecting yes are typically nurses and licensed practitioners.
- **Check if you want the low risk option on Receive Consult screen** – Veterans Health Administration (VHA) has defined low risk clinics nationally to include: physical therapy, occupational therapy, kinesiotherapy, acupuncture, smoking clinic, MOVE clinic, massage therapy, chiropractic care and erectile dysfunction clinic. A full list of low risk clinics can be found in the [VHA Consult SOP](#). As soon as the Receive Consult box appears, the Receive Consult screen for the Consult Toolbox for low risk clinics will also appear. Note that to use this option, a clinic must be approved as a low risk clinic by the facility consult management (Committee or Chief of Staff (COS) designee).
- **Enable color features** – If checked, certain screens will have some headings and selected tabs with color highlights instead of being in black, white and grey. The screen image above shows how the tabs look with color highlight off.
- **Enable audible tabs** – Reads aloud the community care comments panel tab name.
- **CAN URL:** - The Preferred Care Assessment Need (CAN) Universal Record Location (URL) should only be changed if directed by support personnel. The URL and certificate name can be changed by support to suit the execution environment.

Authorized Use Only

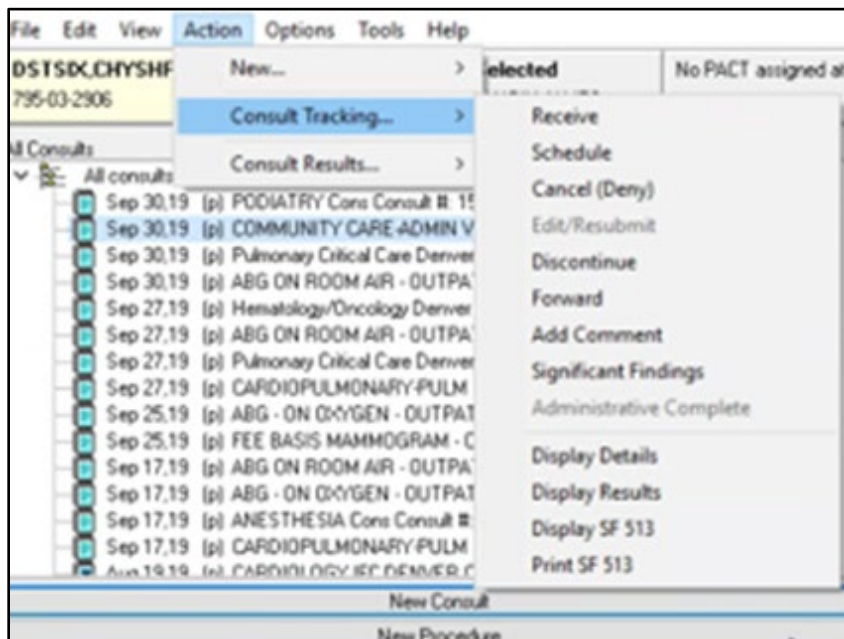

- **Client Cert:** The name of the internet browser certificate that will be used to contact the CAN score server online.
- **Facility & Services:**
- **SEOC URL:** - The Preferred SEOC URL should only be changed if directed by support personnel. The URL and certificate name can be changed by support to suit the execution environment.
- **State:** Enter the state you typically use for community care providers. This will be the default setting any time you look up a provider for community care. You can always change it.
- **Enable Delegation of Authority for administrative authorized processing** – The Delegation of Authority is an action taken by the Chief of Staff to delegate clinical review authority for services that are requested through a community care consult. If this process was implemented in your facility, check this box.
- **Enable consult screening and triage options** – At the time of this version, local community care staff will have the ability to assign care coordination levels based on a Veterans complexity of needs. Check this box to begin using this functionality.

11. Click **Exit and Save Changes** to save the selected settings for future work sessions.

3.2. System Menu

The **Action>Consult Tracking...** menu in CPRS offers several Consult Toolbox functions: **Receive, Schedule, Discontinue, Forward, Add Comment, Significant Findings, and Administrative Complete.**

3.2.5. Add Comment

Figure 15: Community Care Action Required Menu Option

3.2.6. Administrative Complete

Figure 16: Administratively Complete Menu Option

4. Using the Software

The Consult Toolbox provides user functionality in the following consult windows:

- **Receiving Consult Activities** — this can be configured to open automatically.
- **Discontinuing Consult** — this can be configured to open automatically.
- **Forwarding Consult to Community Care** – right-click in comment required, only for forwarding to community care.
- **Adding Comment to Consult** — this can be configured to open automatically.
- **Significant Findings** – right-click required, may be used when needing to convey a message to the ordering provider, though a progress note should also be present with more detail.

Authorized Use Only

- **Administratively Close Consult** — right-click in comment required, only for instances where community care was completed, but records are unavailable.

NOTE: For a list of Health Factors that are used in Consult Toolbox, please refer to Appendix A: Consult Factor Types and Definitions within this document.

4.1. Receiving Consult Activities

Clinicians and/or delegated administrative staff receive View Alert in CPRS/ of VA order/consult notification. When a provider receives a pending consult, review should include determination of whether the consult is appropriate to be scheduled, and optionally, additional direction can be given to the scheduler.

The Receiving Consult Activities tab is used by any clinic in the VA facility that receives a consult. This clinic may be an internal VA clinic or a community care clinic.

Figure 17: Receive Routine Consult Options Window

Receive Routine Consult Options

☐ Accept consult, schedule routine appointment
☐ Accept consult, schedule within 1 month, ok to overbook
☐ Accept consult, schedule within 2 weeks, ok to overbook
☐ Accept consult, schedule within 1 week, ok to overbook
☐ Accept consult, schedule on 8/15/2019 , ok to overbook
☐ Accept consult, see scheduling order for scheduling instructions
☐ Established pt., please schedule then discontinue consult
 If no appt. slot is available within 30 days:

Additional comments and instructions

☐ This consult may be D/C'd after mandated scheduling effort
☐ Scheduling plans discussed with ordering provider

Consults may be marked "High Risk" for tracking and extra scheduling effort

☐ High Risk Consult--Extra scheduling effort warranted
☐ Extra scheduling effort

For Schedulers who Receive Consults

☐ First Call to Veteran (unsuccessful scheduling)
☐ Unable to Contact Letter sent to Veteran
☐ Letter Sent by Certified Mail

[Visit VA Consult Help Site for additional consult management guidance.](#)

- **Receive Routine Consult Options** section
 - **Accept consult, schedule routine appointment** – Accept consult, schedule within one month, ok to overbook—the reviewing provider has determined that the Veteran’s medical condition warrants them being seen within one month and should be overbooked if needed to accomplish that effect.
 - **Accept consult, schedule within 1 month (OK to overbook)** – Accept consult schedule within two weeks, ok to overbook—the reviewing provider has determined that the Veteran’s medical condition warrants them being seen within two weeks and should be overbooked if needed to accomplish that effect.
 - **Accept consult, schedule within 2 weeks, (OK to overbook)** – Accept consult schedule within one week ok to overbook—the reviewing provider has determined that the Veteran’s medical condition warrants them being seen within one week and should be overbooked if needed to accomplish that effect. If less than one week or immediate, the provider may add additional instructions, or speak directly with the scheduler if truly urgent.
 - **Accept consult, schedule within 1 week, (OK to overbook)** – Accept consult schedule on a specific date—this allows the provider to specify the date to see the Veteran.
 - **Accept consult, schedule on MM/DD/YYYY, (OK to overbook)** – Accept consult see scheduling order for scheduling instructions—this selection applies if the clinic or service provider prefers to convey scheduling instructions via a CPRS order.
 - **Accept consult; see scheduling order for scheduling instructions** – this selection applies if the clinic or service provider prefers to convey scheduling instructions via CPRS order.
 - **Established pt., please schedule then discontinue consult** – this selection applies if a consult is received for an established patient. Once the consult is received, it is sent to the scheduler to make the appointment. Once the appointment is made, the consult can be discontinued.
 - **If no appt. slot is available within 30 days:**
 - **Forward to Community Care Office**
 - **Discuss with clinical staff**
- **Additional comments and instructions** section
 - **This consult may be D/C’d after mandated scheduling effort**—this option allows the reviewing provider to determine at the time of acceptance that if the staff is unable to get the appointment scheduled, or if the Veteran cancels or no-shows twice, then the consult can be discontinued by the scheduler without having another clinical review. The consult is returned to the ordering provider to take whatever action deemed appropriate.

NOTE: *The **This consult may be discontinued d/c’d after 1 missed appointment (approved low risk clinic)** check box described below is only visible when enabled in the Consult Toolbox Settings.*

- **This consult may be discontinued d/c'd after 1 missed appointment (approved low risk clinic)** – An additional option for low risk clinics exists for discontinuation after one missed appointment. This screen auto populates from settings described above.

Figure 18: Low Risk Clinics Options

Additional comments and instructions

☐ This consult may be D/C'd after mandated scheduling effort

☐ This consult may be d/c'd after 1 missed appointment (approved low risk clinic)

Low risk clinics must have approval by facility to use 1 missed appt option

☐ Scheduling plans discussed with ordering provider

- **Scheduling plans discussed with ordering provider**—this selection is simply for the convenience of the reviewing provider to document the instance where they have discussed the case with the ordering provider. This allows them to easily document that conversation took place. It doesn't have any significant ramifications with respect to consult processing.
- **Consults should be marked “High Risk” for track and extra scheduling effort section**
 - **High Risk Consult-Extra scheduling effort warranted** – this will flag this consult as having a medically high-risk condition that warrants additional calls to the Veteran beyond the mandated minimum necessary effort. It also allows the receiving service to flag certain consults for closer follow up when the Veteran fails to keep appointments. Each service may define what high risk means to them. This is simply a way of segregating higher risk consults from the rest and notifying the staff to expend additional effort.
 - **Extra scheduling effort** – allows the reviewer to specify what additional effort they would like. In addition to the selection of options, the user may type in other instructions.

Figure 19: Extra Scheduling Effort Options

1 additional call

2 additional calls

call repeatedly while waiting on response from letter

1 additional letter

- **For Schedulers Who Receives Consults section,**
 - **First call to Veteran (unsuccessful scheduling)** – This option supports recording calls to Veteran that were successful.
 - **Unable to Contact letter sent to Veteran** – use this selection when a letter is sent to the Veteran indicating that the clinic has tried to reach the Veteran to schedule an appointment. This comment may be used each time a letter is sent, if sent more than once.

- **Letter Sent by Certified Mail** – in the case of high risk consults, business rules for the clinic or upon suggestion of the provider, it may be appropriate to send the Veteran a certified letter indicating that they have a potentially serious condition, and that the VA has been unsuccessful reaching them to provide care.

To receive consult, follow the steps listed below:

1. From the **Action** menu, select **Consult Tracking...**, and then select **Receive**. The **Receive Routine Consult Options** window opens.

Figure 20: Receive Routine Consult Options Window

Receive Routine Consult Options

☐ Accept consult, schedule routine appointment
☐ Accept consult, schedule within 1 month, ok to overbook
☐ Accept consult, schedule within 2 weeks, ok to overbook
☐ Accept consult, schedule within 1 week, ok to overbook
☐ Accept consult, schedule on 8/15/2019, ok to overbook
☐ Accept consult, see scheduling order for scheduling instructions
☐ Established pt., please schedule then discontinue consult
 If no appt. slot is available within 30 days:

Additional comments and instructions

☐ This consult may be D/C'd after mandated scheduling effort
☐ Scheduling plans discussed with ordering provider

Consults may be marked "High Risk" for tracking and extra scheduling effort

☐ High Risk Consult--Extra scheduling effort warranted
☐ Extra scheduling effort

For Schedulers who Receive Consults

☐ First Call to Veteran (unsuccessful scheduling)
☐ Unable to Contact Letter sent to Veteran
☐ Letter Sent by Certified Mail

[Visit VA Consult Help Site for additional consult management guidance.](#)

2. From the **Receive Routine Consult Options** section, select the consult option. **Accept consult, schedule routine appointment** is the default process. The appointment will be scheduled according to routine scheduling instructions. Routine scheduling means that the Veteran will be given the next open appointment. If that appointment exceeds the wait time standard, the Veterans Community Care Program (VCCP) will be an option available to the Veteran.

NOTE: Subsequent radio buttons under the receive consult options provide guidance to keep the Veteran in-house and overbook.

3. If the Veteran is an established patient, then select the **Established pt., please schedule then discontinue consult** check box.

Authorized Use Only

4. If an appointment is not available for the Veteran within 30 days, select **Forward to Community Care Office** or **Discuss with clinical staff** from the **If no appt. slot is available within 30 days:** drop-down menu.
5. From the **Additional comments and instructions** section, select the options that best apply to this consult.
6. If the consult is high risk and needs to be tracked and extra scheduling efforts, select the **High Risk Consult-Extra scheduling effort warranted** check box from the **Consults should be marked “High Risk” for track and extra scheduling effort** section.
7. If the consult is high risk, from the **Extra scheduling effort** select the option that to specify what additional effort you would like. In addition to the selection of options, you may type in other instructions.
8. From the **For Schedulers Who Receives Consults:** section, select if a call was made to the Veteran or if a letter was sent was sent to the Veteran.
9. Select the **Letter Sent by Certified Mail** check box if a certified letter was sent to the Veteran.
10. Click **OK**.

4.2. Discontinuing Consult

When discontinuing a consult, a reason that meets central office criteria must be entered to document the reason for discontinuation. Right clicking the text area will bring up the list of approved reasons. Additional comments may be made as well. There are two tabs, one relates to in-house consults, and one for Community Care consults.

Figure 21: General Discontinuation Comments Tab

General Discontinuation Comments | Comm Care Discontinuation Comments

Discontinue consult requires one of the following reasons.

- ☒ Duplicate Request
- ☐ Veteran declined/refused-does not want the appointment
- ☐ Care is no longer needed
- ☐ Veteran does not meet eligibility requirements
- ☐ Veteran has expired
- ☐ Failed mandated scheduling effort. (Missed appts or no response to attempts to schedule.)
- ☐ Established patient, follow up appointment has been scheduled
- ☐ Entered/Requested in error
- ☐ Other Reason:

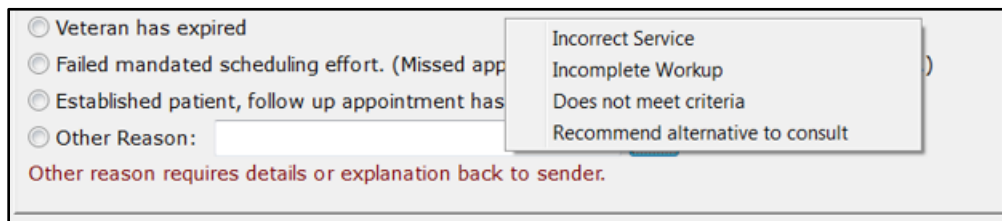

Other reason requires details or explanation back to sender.

[Visit VA Consult Help Site for additional consult management guidance.](#)

- Discontinue consult requires one of the following reasons section
 - **Duplicate Request**

- **Veteran declined/refused-does not want the appointment**
- **Care is no longer needed**
- **Veteran does not meet eligibility requirements** – This is to be used where VA benefits or the Veteran’s clinical situation do not allow them to receive this service from the VA. An example would be routine dental care for a Veteran not eligible for dental care.
- **Veteran has expired** – Use if Veteran is deceased.
- **Failed mandated scheduling effort (Missed appointments or no response to attempts to schedule.)** – use when Veteran has missed two or more appointments or fails to respond to mandated minimum number of calls, letter(s), and adequate time to respond.
- **Established patient, follow up appointment has been scheduled** – this indicates that the established Veteran has been scheduled with a follow up appointment, and the consult is no longer needed.
- **Entered/Requested in error** –
- **Other Reason:** - Other reason requires details or explanation back to sender. Enter a reason in the field or select an option from the **Opt** menu. In addition, selection of this option will prompt for an explanation. This option is used primarily when there is some defect in the request, so feedback to the ordering clinician is appropriate.

Figure 22: Other Reason Options

☐ Veteran has expired
☐ Failed mandated scheduling effort. (Missed app
☐ Established patient, follow up appointment has
☒ Other Reason:

Incorrect Service
 Incomplete Workup
 Does not meet criteria
 Recommend alternative to consult

Other reason requires details or explanation back to sender.

- **Incorrect Service**
- **Incomplete Workup**
- **Does not meet criteria**
- **Recommend alternative to consult**

Discontinuation related to Community Care

☒ The care will be provided through a Community Care Consult

☐ Not Administratively eligible

☐ Not Eligible for Community Care

☐ Veteran Community Care appointment scheduled

☐ Appt Date: 08/06/2019

Provider for Community Appt:

☐ Veteran refuses Community Care Appointment

☐ Community Care disapproved

☐ Community Care is not needed, Care provided by VA appointment

[Visit VA Consult Help Site for additional consult management guidance.](#)

OK

- **Discontinuation related to Community Care section**
 - **The care will be provided through a Community Care Consult** – Care will be provided by Community Care. USE WITH CAUTION. This is saying that this consult is being discontinued and a Community Care consult will be issued for this service. Typically, a consult should only be discontinued when a Community Care appointment has been scheduled (See next option).

NOTE: This option would be selected when, for example, an Interfacility Consult is sent from Site A to Site B, enabling Community Care. The consult would then be discontinued by staff at Site B with instructions to order a Community Care consult at site A.

- **Not Administratively eligible** – Veteran is not eligible.
- **Not Eligible for Community Care** – Veteran is not eligible for Community Care.
- **Veteran Community Care appointment scheduled** – This is used when the TPA has confirmed that an appointment has been scheduled for the Veteran.
 - **Appt Date:** - Additionally, the date of the appointment can be recorded. Note that the calendar widget contains a default date, so you must check the box to indicate that the date in the box is the appointment date for it to be recorded.
 - **Provider for Community Appt:** - If the name of the provider is known, that should be added as well. If the provider name field is filled in, that is also added to the consult comment.
- **Veteran refuses Community Care Appointment** – used when the Veteran refuses non-VA appointment.

Authorized Use Only

- **Community Care disapproved** – used when the request for non-VA care is disapproved or does not meet requirements.
- **Community Care not needed, care provided by another VA appointment** – use when, apart from this consult, the Veteran’s needs were met by care already received at another appointment. Consider using a duplicate request if more appropriate.

4.2.1. Discontinuing In-house Consult

To discontinue an in-house consult, follow the steps listed below:

1. From the **Action** menu, select **Consult Tracking...**, and then select **Discontinue**. The **Discontinue Consult Options** window opens.

Figure 24: Discontinue Consult Options

2. Select the **General Discontinuation Comments** tab.
3. From the **Discontinue consult requires one of the following reasons** section, select the reason why the consult is being discontinued.
4. Click **OK**.

4.2.2. Discontinuing Community Care Consult

To discontinue a Community Care consult, follow the steps listed below:

1. From the **Action** menu, select **Consult Tracking...**, and then select **Discontinue**. The **Discontinue Consult Options** window opens.
2. Select the **Comm Care Discontinuation Comments** tab.

2. From the **Forward to Community Care Options** section, select the appropriate Community Care options.
3. Click **OK**.

4.4. Adding Comment to Consult

There are many activities that can take place that should be documented in the medical record, as this is the official Veteran record, and needs to be tracked. The Consult Toolbox makes this quick and easy. The activities are divided into four user groups, and then from the group, specific activities can be documented. The four groups are:

- Scheduler Functions
- Community Care Functions
- Clinical Review Options
- Launch DST

4.4.1. Scheduling Functions

The Scheduler Options window documents Consult Management for In-House Schedulers. The In-House Schedulers can document activity in three tabs:

- Calls and Letters
- Sched/Rescheduling Efforts
- Community Care Eligibility

4.4.1.1. Scheduling Calls and Letters

It is important to note that if a call results in a successfully scheduled appointment, these comments are not required. When an appointment is scheduled, it should be linked to the consult which will, in turn, annotate the consult and change the status to “Scheduled.”

The comments are intended for documentation of scheduling effort when there has not been an appointment scheduled, so that unsuccessful calls to the Veteran may be documented. In those cases, it should be recorded that the Veteran was called, and the attempt was unsuccessful. This includes the case where the Veteran is contacted, but they didn’t want to schedule the appointment at that time.

Figure 28: Calls and Letters Tab

Calls and Letters | Sched/Rescheduling Efforts | Community Care Eligibility |

Consult Management for IN HOUSE Schedulers

Unsuccessful attempts to schedule Veteran. Opt

☐ First Call to Veteran - unsuccessful scheduling

☐ Second Call to Veteran - unsuccessful scheduling

☐ Third or additional call to Veteran - unsuccessful scheduling

☐ Unable to Contact Letter sent to Veteran

☐ Letter Sent by Certified Mail

Additional results from scheduling attempt

☐ Spoke with veteran/care giver

☐ Veteran declined/refused-going to private provider outside VA care

☐ Veteran declined/refused-does not want care

☐ Veteran wants to call back to schedule

☐ Phone numbers disconnected or wrong number - All listed numbers must be bad for this selection to apply

☐ No address on file, unable to send letter

A failed scheduling effort occurs when calls and letters per VA policy have failed to result in a completed patient appointment or patient has exceeded the number of missed appointments allowed.

☐ Refer to clinical reviewer for disposition after unsuccessful scheduling effort

[Visit VA Consult Help Site for additional consult management guidance.](#)

View Consult History

OK

- **Unsuccessful attempts to schedule Veteran** Opt menu, select the best option.
 - **No Answer**—used when you attempt to call the Veteran but there is no voice mail to leave a message.
 - **Left message on voicemail**—used when you leave a message on the Veteran’s voice mail to call back. You should not provide any details that might violate PHI restrictions, but your number to return the call would be appropriate.
 - **Left message with family member**—used when you speak to a family member, but they are unable to commit to an appointment on behalf of the Veteran.
 - **Unable to leave message**—used when you speak to a family member, but they are not able to take a message. You should not provide any details that might violate PHI restrictions, but your number to return the call would be appropriate.
- **Unsuccessful attempts to schedule Veteran**
 - Select first, second, or third call to Veteran as appropriate. If the Veteran has no-showed or cancelled, then you need to start over with a new scheduling effort and first, second, and possibly third or additional calls. If you make more than three calls, use the 3rd call for all subsequent calls.
 - **Unable to Contact letter sent to Veteran**—use this selection when a letter is sent to the Veteran indicating that the clinic has been trying to reach the Veteran to schedule an appointment. This comment may be used each time a letter is sent, if sent more than once.
 - **Letter Sent by Certified Mail**—in the case of high risk consults, business rules for the clinic or upon suggestion of the provider, it may be

Authorized Use Only

appropriate to send the Veteran a certified letter indicating that they have a potentially serious condition, and that the VA has been unsuccessful reaching them to provide care.

- **Additional results from scheduling attempt**

- **Spoke with veteran/care giver**—this documents that you did in fact talk to the Veteran or their care giver.
- **Veteran declined/refused – going to private provider outside VA Care** – the Veteran has indicated that they would rather use their private insurance and arrange care outside the VA at his/her own expense.
- **Veteran declined/refused – does not want care** – this selection is used if the Veteran tells the scheduler they do not want to schedule the appointment. Depending on the business rules for the clinic, they may very well require review by a licensed practitioner before discontinuation.
- **Veteran wants to call back to schedule**—this is when you do speak to the Veteran/care giver, but they don't want to make the appointment at that time, but indicate they'll call back to schedule. This is an example of a case where the Veteran was reached, but this would count as an unsuccessful attempt to schedule.
- **Phone numbers disconnected or wrong number**—used when all the numbers listed for the Veteran are wrong (disconnected or you reach someone who doesn't know the Veteran). This should not be used unless you've confirmed that all numbers in the record are bad.
- **No address on file, unable to send letter**—this would apply in the instance where a letter sent is returned by the post office, or in the case of homeless Veterans. The latter case may require extra effort with the Homeless Veterans Program to try to reach the Veteran.

To schedule calls and letters, follow the steps listed below:

1. From the **Action** menu, select **Add Comment**. The **Add Comment to Consult** dialog box displays.

Figure 29: Add Comment to Consult Dialog Box

2. In the **Comments** field, right-click and then select **Scheduler Functions**. The **Scheduler Options** window opens with the **Calls and Letters** tab displayed.

Figure 30: Calls and Letters Tab

The screenshot displays the 'Calls and Letters' tab within the Scheduler Options window. The window has three tabs: 'Calls and Letters' (selected), 'Sched/Rescheduling Efforts', and 'Community Care Eligibility'. The main content area is titled 'Consult Management for IN HOUSE Schedulers'. It includes a text field for 'Unsuccessful attempts to schedule Veteran.' with an 'Opt' button next to it. Below this are two sections of checkboxes: 'Unsuccessful attempts to schedule Veteran' (including 'First Call to Veteran - unsuccessful scheduling', 'Second Call to Veteran - unsuccessful scheduling', 'Third or additional call to Veteran - unsuccessful scheduling', 'Unable to Contact Letter sent to Veteran', and 'Letter Sent by Certified Mail') and 'Additional results from scheduling attempt' (including 'Spoke with veteran/care giver', 'Veteran declined/refused-going to private provider outside VA care', 'Veteran declined/refused-does not want care', 'Veteran wants to call back to schedule', 'Phone numbers disconnected or wrong number - All listed numbers must be bad for this selection to apply', and 'No address on file, unable to send letter'). A paragraph explains that a failed scheduling effort occurs when calls and letters per VA policy have failed to result in a completed patient appointment or the patient has exceeded the number of missed appointments allowed. At the bottom, there is a checkbox for 'Refer to clinical reviewer for disposition after unsuccessful scheduling effort', a link to 'Visit VA Consult Help Site for additional consult management guidance.', and 'OK' and 'View Consult History' buttons.

3. In the **Unsuccessful attempts to schedule Veteran** field enter the information or select the best option from the **Opt** menu.

4. From the **Unsuccessful attempts to schedule Veteran** section, select if a first, second, or subsequent call to Veteran check box.
5. Select the **Unable to Contact Letter sent to Veteran** check box if you were unable to reach the Veteran and sent a letter.
6. Select the **Letter Sent by Certified Mail** check box if you sent a certified letter.
7. From the **Additional results from scheduling attempt**, select the options you may wish to record to better document efforts. Not all clinics will have a need for all options.
8. If a scheduling effort fails after attempting to schedule an appointment by making two calls, sending a letter, and waiting two weeks, select the **Refer to clinical reviewer for disposition after unsuccessful scheduling effort** check box.

NOTE: *Business rules for certain low-risk consults may allow the scheduler to discontinue without clinician review, or in the case the provider previously reviewed the consult and determined that it may be discontinued after a failure to schedule after mandated effort or multiple missed appointments.*

9. Click **View Consult History**. The **Viewing Consult History** dialog box displays.

10. Click **Close Consult History**.
11. Click **OK**.

4.4.1.2. Scheduling and Rescheduling Efforts

Within this tab, these data fields track the number of missed appointments and/or the reason Veteran did not want appointment to be scheduled. It is important for in-house Schedulers to document these data fields to eliminate wait lists and decrease wait times for Veterans in need of care. Additionally, by documenting Veteran's usage of private insurance and preference to seek care outside of the VA at their own expense, VA staff can track the utilization of VA benefits. **IMPORTANT:** appointments scheduled in VistA Scheduling and properly linked to an appointment will automatically update the consult, with both scheduling appointments and also when appointments are cancelled or the Veteran no-shows. **In those cases, there is no need to document missed appointments with the Toolbox.** First cancel-by-Veteran or no-show counts as a first missed appointment. Subsequent cancel-by Veteran or no-show counts as the second (or third+) missed appointment.

Figure 32: Sched/Rescheduling Efforts Tab

The screenshot shows the 'Sched/Rescheduling Efforts' tab selected. It contains the following text and controls:

- Tab headers: 'Calls and Letters', 'Sched/Rescheduling Efforts' (selected), 'Community Care Eligibility'.
- Section: **Missed appointments (properly linked appointments in VistA will document no shows and cancellations)**
- Text: (First cancel-by-patient or no-show counts as the first missed appointment. Subsequent cancel-by-patient or no-show counts as the second [or third+] missed appointment).
- Radio buttons:
 - ☒ First Missed appointment (No Show)
 - ☐ First Missed appointment (Cancelled by patient)
- Section: **Second missed appointment (If Veteran previously no-showed or cancelled)**
- Radio buttons:
 - ☐ Second Missed appointment (No Show)
 - ☐ Second Missed appointment (Cancelled by patient)
 - ☐ Third or more missed appointment (cancel by patient or no-show)
- Text: A failed scheduling effort occurs when calls and letters per VA policy have failed to result in a completed patient appointment or patient has exceeded the number of missed appointments allowed.
- Checkbox: ☐ Refer to clinical reviewer for disposition after unsuccessful scheduling effort
- Footer: [Visit VA Consult Help Site for additional consult management guidance.](#) and a 'View Consult History' button.
- Bottom center: 'OK' button.

- **Missed appointments**
 - **First Missed appointment (No Show)** — missed appointment. It is important to track the missed appointment, as a Veteran who fails to keep appointments may be depriving other Veterans an opportunity to receive care.
 - **First Missed appointment (Cancelled by patient)**—this is cancelled-by-Veteran. It is important to track this missed appointment, as a Veteran who fails to keep appointments may be depriving other Veterans an opportunity to receive care.
- **Second missed appointment**
 - **Second Missed appointment (No Show)**—missed appointment. This should be recorded, and in addition, if the appointment has been pre-reviewed for

Authorized Use Only

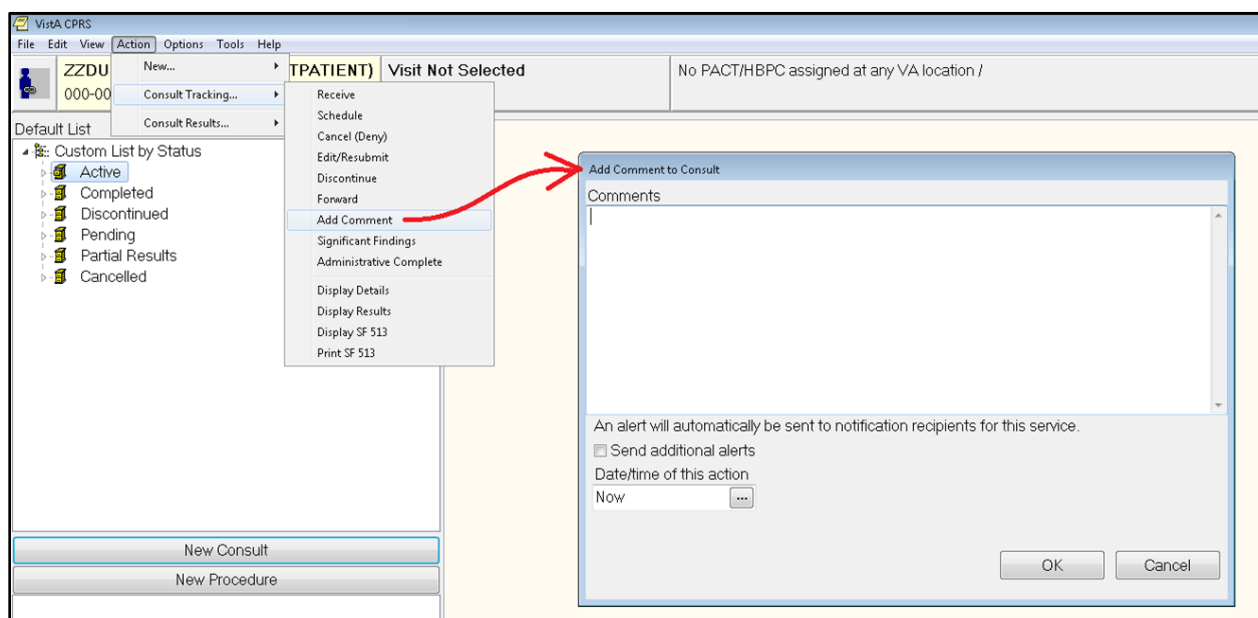

discontinuation after two missed appointments, the consult should be discontinued in an additional step. If not pre-reviewed, then it should be referred to the provider for disposition.

- **Second Missed appointment (Cancelled by patient)**—missed appointment. This should be recorded, and in addition, if the appointment has been pre-reviewed for discontinuation after two missed appointments, the consult should be discontinued in an additional step. If not pre-reviewed, then it should be referred to the provider for disposition.
- **Third or more missed appointment (cancel by patient or no-show)**—appointments that are missed either by cancel by Veteran or no-show are tracked here, without distinction.
- **Refer to clinical reviewer for disposition after unsuccessful scheduling effort**

To schedule and rescheduling efforts, follow the steps listed below:

1. From the **Action** menu, select **Add Comment**. The **Add Comment to Consult** dialog box displays.

Figure 33: Add Comment to Consult Dialog Box

2. In the **Comments** field, right-click and then select **Scheduler Functions**. The **Scheduler Options** window opens with the **Calls and Letters** tab displayed.

Figure 34: Calls and Letters Tab

The screenshot shows the 'Calls and Letters' tab selected in the top navigation bar. The main heading is 'Consult Management for IN HOUSE Schedulers'. Below this, there is a section for 'Unsuccessful attempts to schedule Veteran.' with a text input field and an 'Opt' button. A list of checkboxes follows: 'First Call to Veteran - unsuccessful scheduling', 'Second Call to Veteran - unsuccessful scheduling', 'Third or additional call to Veteran - unsuccessful scheduling', 'Unable to Contact Letter sent to Veteran' (with a sub-option 'Letter Sent by Certified Mail'), and 'Additional results from scheduling attempt' (with options: 'Spoke with veteran/care giver', 'Veteran declined/refused-going to private provider outside VA care', 'Veteran declined/refused-does not want care', 'Veteran wants to call back to schedule', 'Phone numbers disconnected or wrong number - All listed numbers must be bad for this selection to apply', and 'No address on file, unable to send letter'). A paragraph explains that a failed scheduling effort occurs when calls and letters per VA policy have failed to result in a completed patient appointment or the patient has exceeded the number of missed appointments allowed. There is a checkbox for 'Refer to clinical reviewer for disposition after unsuccessful scheduling effort'. At the bottom, there is a link to 'Visit VA Consult Help Site for additional consult management guidance.', an 'OK' button, and a 'View Consult History' button.

3. Select the **Sched/Rescheduling Efforts** tab.

Figure 35: Sched/Rescheduling Efforts Tab

The screenshot shows the 'Sched/Rescheduling Efforts' tab selected in the top navigation bar. The main heading is 'Missed appointments (properly linked appointments in VistA will document no shows and cancellations)'. A paragraph explains that the first cancel-by-patient or no-show counts as the first missed appointment, and subsequent cancel-by-patient or no-show counts as the second (or third+) missed appointment. There are two radio button options: 'First Missed appointment (No Show)' and 'First Missed appointment (Cancelled by patient)'. Below these is a section for 'Second missed appointment (If Veteran previously no-showed or cancelled)' with three radio button options: 'Second Missed appointment (No Show)', 'Second Missed appointment (Cancelled by patient)', and 'Third or more missed appointment (cancel by patient or no-show)'. A paragraph explains that a failed scheduling effort occurs when calls and letters per VA policy have failed to result in a completed patient appointment or the patient has exceeded the number of missed appointments allowed. There is a checkbox for 'Refer to clinical reviewer for disposition after unsuccessful scheduling effort'. At the bottom, there is a link to 'Visit VA Consult Help Site for additional consult management guidance.', an 'OK' button, and a 'View Consult History' button.

4. From the **Missed appointments (properly linked appointments in VistA will document no shows and cancellations)** section, select the best option.
5. From the **Second missed appointment (If Veteran previously no-showed or cancelled)** section, select the best option.
6. If a scheduling effort fails after attempting to schedule an appointment by making two calls, sending a letter, and waiting two weeks, select the **Refer to clinical reviewer for disposition after unsuccessful scheduling effort** checkbox.

NOTE: *Business rules for certain low-risk consults may allow the scheduler to discontinue without clinician review, or in the case the provider previously reviewed the consult and determined that it may be discontinued after a failure to schedule after mandated effort or multiple missed appointments.*

7. Click **OK**.

4.4.1.3. Community Care Eligibility

This data field documents a Veteran's decision to opt-in or out of the Veterans Community Care Program (VCCP) if there is insufficient access within a VA clinic.

Figure 36: Community Care Eligibility Tab

Calls and Letters | Sched/Rescheduling Efforts | **Community Care Eligibility**

- ☐ Spoke with veteran/care giver
- ☐ Veteran Opt-OUT for Community Care
- ☐ Veteran Opt-IN for Community Care (Reason required)
 - ☐ Service Not Available: VA facility does not provide the required service
 - ☐ Wait Time: VA appointment is greater than wait time standards
 - ☐ Distance: Veteran lives more than drive time standards
- ☐ Veteran instructed Contractor/Community Care will call them for scheduling
- ☐ Veteran provided Community Care Fact Sheet

EWL Follow up

- ☐ Follow up call made to veteran while on wait list to confirm wait list status
 - ☐ Veteran still desires care

[Visit VA Consult Help Site for additional consult management guidance.](#) View Consult History OK

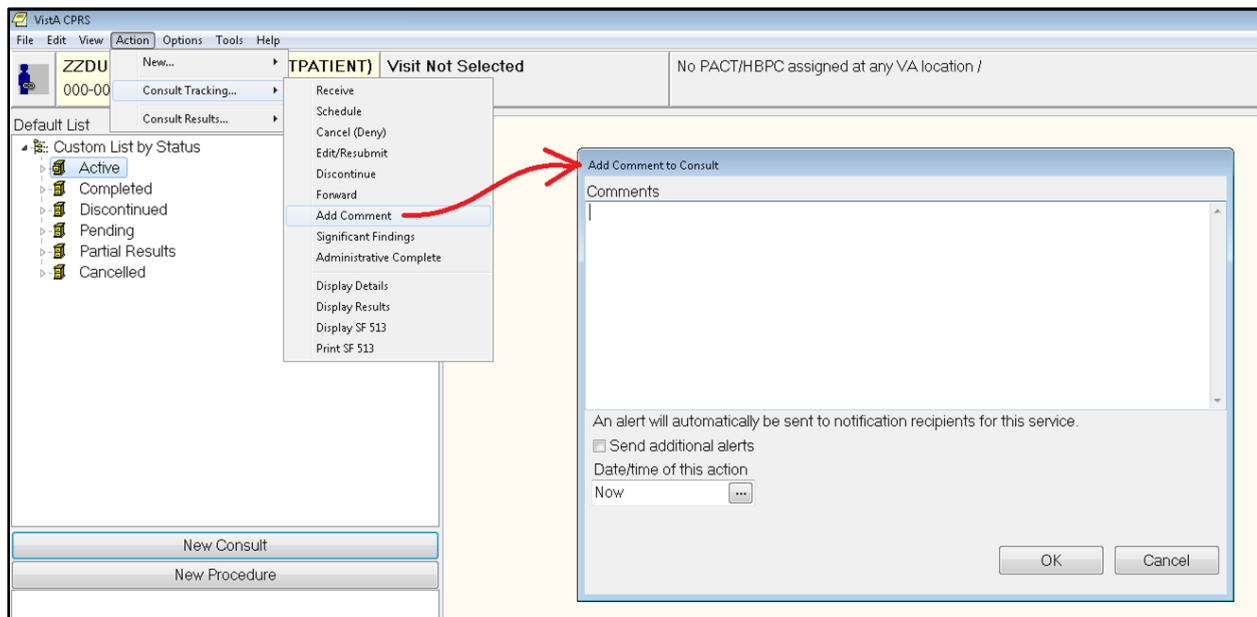

- **Spoke with veteran/ or care giver**—this documents that you did in fact talk to the Veteran or their care giver.

- **Veteran Opt-OUT for Community Care**—this documents that the Veteran opts out for Community Care.
- **Veteran Opt-IN for Community Care (Reason required)**—this documents that the Veteran opts in for Community Care and the applicable reason(s).
 - **Service Not Available: VA facility does not provide the required service**
 - **Wait Time: VA appointment is greater than wait time standards**
 - **Distance: Veteran lives more than drive time standards**
- **Veteran instructed Contractor/Community Care will call them for scheduling**
- **Veteran provided Community Care Fact Sheet**
- **EWL Follow up section**
 - **Follow up call made to veteran while on wait list to confirm wait list status**
 - **Veteran still desires care**

To set the Community Care eligibility, follow the steps listed below:

1. From the **Action** menu, select **Add Comment**. The **Add Comment to Consult** dialog box displays.

Figure 37: Add Comment to Consult Dialog Box

2. In the **Comments** field, right-click and then select **Scheduler Functions**. The **Scheduler Options** window opens with the **Calls and Letters** tab displayed.

Figure 38: Calls and Letters Tab

4. Select the **Spoke with veteran/care giver, Veteran Opt-OUT for Community Care, Veteran Opt-IN for Community Care (Reason required), Veteran instructed Contractor/Community Care will call them for scheduling, or Veteran provided Community Care Fact Sheet** check box.
5. If the Veteran opted in for Community Care, select the reason from the options listed.
6. If the Veteran faces an unusual or excessive travel burden, select the option from the list and enter an explanation in the **Explain:** field.
7. From the **EWL Follow up** section, select the options to document a follow-up to a Veteran while on the wait list.
8. Click **OK**.

4.4.2. Community Care Functions

Community Care functions document activities that have taken place within the Community Care programs that are provided by the VA.

When compiling pertinent medical documentation for upload to the TPA Portal, it is highly recommended that the Referral Documentation Tool (REFDOC) be used. REFDOC is an innovative solution that extracts from the Veteran's electronic medical record and records into PDF format for exchange with community care providers. REFDOC improves the timeliness of medical record transfers by allowing VA staff to quickly extract Veterans' health information from Veterans Health Information Systems and Technology Architecture (VistA), Computerized Patient Record System (CPRS), and Corporate Data Warehouse (CDW) and compile it into a PDF package that can be easily shared with community providers.

When sending medical documents directly to the community provider, the use of Virtru Pro is recommended. Virtru Pro is an innovative solution that provides VA a secure method of exchanging information with community providers using encrypted e-mail. It is one of many innovative solutions VA is implementing to enhance care coordination for Veterans and to become a better partner for community providers. For more information on REFDOC and Virtru Pro, visit the [VHA CC Solutions Site](#).

4.4.2.1. MSA Eligibility Verification

Wait Time

- BMI-Hardship
- BMI-per episode of care
- Drive Time
- Grandfathered under Choice*
- No Full Service VA in State

Authorized Use Only

- **Quality Standard not met**
- **Service Not Available**
- **Wait Time** – VA appointment is not available within the wait time standard.

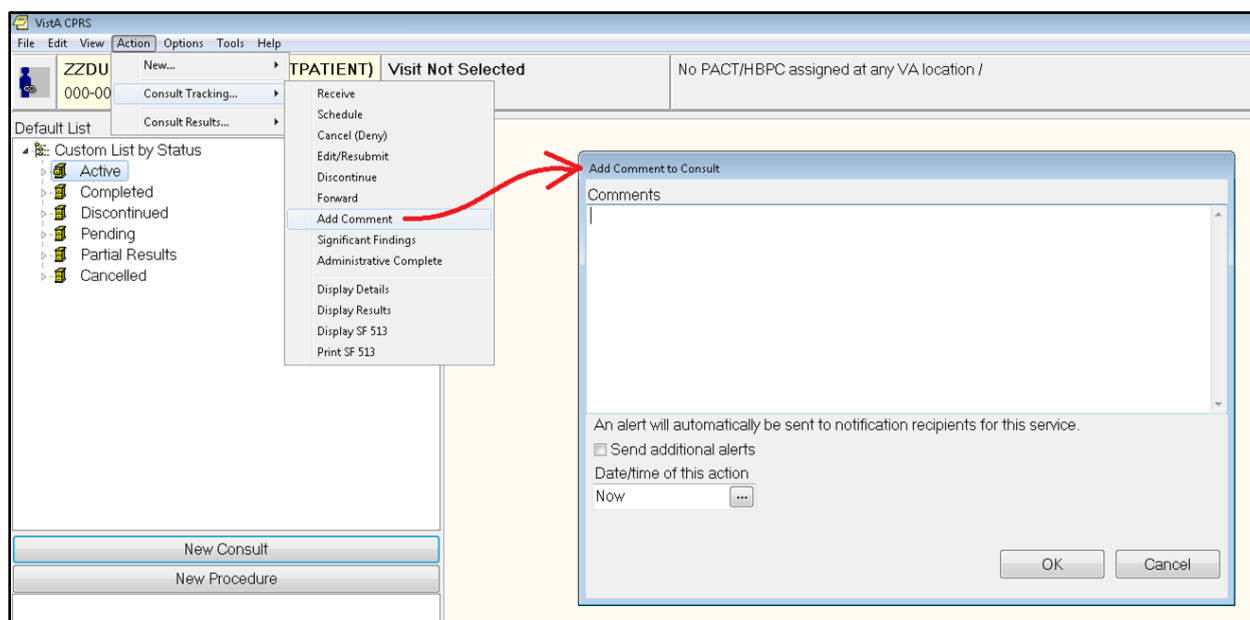

NOTE: *Grandfathered eligibility from Veterans Choice Program.

- **Presumed eligible, HEC Update Pending** —This is typically appropriate when a new Veteran is being registered and all evidence indicates (e.g. a DD 214 form) that the person is indeed a Veteran, but the eligibility cannot be verified by the Health Eligibility Center's (HEC) systems. This is an indication that the record requires action by the HEC before the consult can move forward.
- **Unable to Verify Eligibility** —Staff member should take steps to verify eligibility. Staff is unable to verify the person's eligibility for VA care or Community Care. This allows documentation of that fact and alerts the staff to refer the case to the appropriate person for resolution. A comment is available for further clarification but is not mandatory.
- **Delegation of Authority Medical Services List Reviewed** section. — This allows staff to select if clinical review is required, by checking a box.
 - **Clinical review required**
 - **Does not require clinical review**
- **Document Administrative Screening**

To set the Community Care MSA Eligibility Verification options, follow the steps listed below:

1. From the **Action** menu, select **Add Comment**. The **Add Comment to Consult** dialog box displays.

Figure 42: Add Comment to Consult Dialog Box

Authorized Use Only

2. In the **Comments** field, right-click and then select **Community Care Functions**. The **Community Care Functions** window opens with the **MSA Elig. Verification** tab displayed.

Figure 43: MSA Elig. Verification Tab

3. Select the **Specific Eligibility Verified**, **Presumed eligible, HEC Update Pending**, or **Unable to Verify Eligibility** check box that best describes the Community Care MSA eligibility verification.

	<p>CAUTION: Staff must contact local enrollment and eligibility office before proceeding.</p>
---	--

4. Once you have contacted local enrollment and eligibility, select the best option from the **Delegation of Authority Medical Services List Reviewed** section.

NOTE: Information under Document Administrative Screening is populated and provides care coordination information about this Veteran. Additional details are in Community Care Document Administrative Screening and Clinical Triage tool section.

5. Click **OK**.

4.4.2.1.1. Community Care (CC) Document Administrative Screening

The Screening/Triage tool enables staff to assess the Veteran's care coordination needs in the community. The tool consists of an administrative screening and clinical triage sections. While the administrative section may be completed by any integrated team staff member (MSA/PSA, Social Worker, RN), the clinical section may be only completed by clinical staff. The administrative section consists of questions about the urgency of the Veteran's care request, the requested services in the consult, and the corresponding Veteran CAN (Care Assessment Need)

Authorized Use Only

score, accessible through VSSC. Based on the answers in this section, the tool will determine whether a clinical assessment will be necessary. If so, the tool will prompt the user to input the name of the RN responsible for completing the clinical section and send an alert.

Figure 44: Administrative Screening

The screenshot shows a software window titled "Administrative Screening (for use by community care staff only)". The window contains the following elements:

- Section Header:** "Administrative Screening for Care Coordination and Case Management" in red, followed by a red note: "Note, this is not for authorization."
- Text:** "Previous Care Coordination Level: Not determined"
- Question:** "Are you a clinical staff member:" with radio buttons for "No" and "Yes" (selected).
- Question:** "Urgency: is appointment needed within 48 hours:" with radio buttons for "Yes" and "No" (selected).
- Text:** "If within 48 hrs, specify CAN score and forward for clinical triage."
- Question:** "Does the consult specify any of the following complex conditions or services?" with a dropdown menu showing "None of the above".
- Question:** "Does the consult specify any of the following basic services?" with a dropdown menu showing "None of the above".
- Text:** "CAN Score:" followed by radio buttons for "0 to 74" (selected), "No CAN Score Available", "75 to 90", and "Over 90".
- Text:** "CAN Score for: ZZDUMPTY,HUMPTY JR DOB: Jan 01,1945 XXX-XX-0317"
- Text:** "CAN Score: 40 Risk Assessment Date: 05-05-2019"
- Text:** "Current Coord Level Assessment: Basic"
- Section Header:** "Send for Scheduling"
- Text:** "Clinical Triage: Not Required"
- Text:** "Scheduling staff member you will alert:" followed by a text input field and the instruction "(you must remember to send CPRS alert to indicated staff)".
- Text:** A checkbox labeled "Remember staff person for next referral".
- Button:** "OK" at the bottom center.

Administrative Screening for Care Coordination and Case Management section:

- **Are you a clinical staff member: Yes or No**—the first question asks if you are a clinical staff member. This box will screen to see if clinical staff needs to review an alert, which wouldn't be needed if the user is a clinical staff person.

- **Urgency: is appointment needed within 48 hours**—if urgent care coordination is required, this should be forwarded immediately for clinical triage. (If within 48 hours, skip remaining questions and forward for clinical triage.)
- **Does the consult specify any of the following complex conditions or services?** — if the consult specifies any complex conditions or services, select one of the following options from the drop-down menu.
 - **New Cancer Diagnosis**
 - **Outpatient Surgery**
 - **Coronary Artery Bypass (CABG)**
 - **Chronic Heart Failure**
 - **Chronic Obstructive Pulmonary Disease/Pneumonia**
 - **Inpatient Hospitalization (any cause)**
 - **None of the above**
- **Does the consult specify any of the following basic services** — if the consult specifies basic services, select the applicable service from the drop-down menu.
 - **Routine therapeutic services (Dialysis, OT, PT, RT)**
 - **Routine Mammography**
 - **Cervical Ca Screening (PAP Test)**
 - **Complimentary and integrated medicine**
 - **Direct Scheduling**
 - **Routine Screening Colonoscopy**
 - **None of the above**
- **CAN Score** — CAN Scores serve as an important component to the Screening/Triage process providing a standardized evidence-based measure of Veteran risk. CAN Scores measure the probability of inpatient admission or death within a specified period of time (1 year) in percentage form. Toolbox automatically retrieves the CAN Score for a patient from the CDW via the CAN Score service.
 If the CAN Score service is unavailable or a CAN Score does not exist for a patient, manual entry of the CAN Score is enabled.

Figure 45: CAN Score Fields Enabled

CAN Score:
 ☐ 0 to 74
 ☒ No CAN Score Available
 ☐ 75 to 90
 ☐ Over 90

CAN Score for: ZZDUMPTY,HUMPTY JR DOB: Jan 01,1945 XXX-XX-1111

CAN Score: Not found Risk Assessment Date: unavailable

To access a Veteran's CAN Score manually, the staff will be required to access VHA Support Service Center (VSSC). If CAN (Care Assessment Needs) Score is known, make the appropriate selection, or if not available, select **No CAN Score Available** from the following choices:

- **0 to 74**

Authorized Use Only

- **75 to 90**
- **Over 90**
- **No CAN Score Available**
- **CAN Score for:** - Name of Veteran.
- **DOB:** - Veteran's date of birth.
- **SSN:** - Veteran's social security number.
- **CAN Score:** - Veteran's CAN Score.
- **Current Coord Level Assessment:** - If this is not **Basic**, a box will open to input the name of the clinical staff member responsible for completing the clinical triage portion of the tool. This is not shown for clinical staff.

NOTE: *This does not send the actual alert, the user is responsible for sending the alert using the **Send additional alerts** button on the comment screen:*

- **Clinical Triage:** - If the level of care coordination determined in the administrative screening section is not basic, the administrative staff member will alert a clinical care coordinator to complete the clinical triage section below. The clinical section consists of questions regarding the Veteran's comorbidities, social factors, and need for assistance with Activities of Daily Living (ADLs). There is also a drop-down menu which the clinical care coordinator may fill out to override the results of the tool using clinical evidence-based judgment.

NOTE: *If clinical triage has already been performed, it will show. Also, if care coordination has already been assigned by Administrative screening (as in the example below) that will also show.*

- **Scheduling staff member you will alert:** - Name of the scheduling staff member.
- **Remember staff person for next referral:** - option that tells the Consult Toolbox to remember the selected scheduling staff person for the next referral.

7. Click **OK**.

4.4.2.2.1. Clinical Triage

If the level of care coordination determined in the administrative screening section is not basic, the administrative staff member will alert a clinical care coordinator to complete the clinical triage section below. The clinical section consists of questions regarding the Veteran's comorbidities, social factors, and need for assistance with Activities of Daily Living (ADLs). There is also a drop-down menu which the clinical care coordinator may fill out to override the results of the tool using clinical evidence-based judgment.

NOTE: If clinical triage has already been performed, it will show. Also, if care coordination has already been assigned by Administrative screening that will also show.

Figure 56: Clinical Triage for Care Coordination

The screenshot shows a web form titled "Clinical Care Coordination Assignment". It contains several sections with radio button options and a dropdown menu. The "Current Admin Coordination Level" is set to "Basic". The "Veteran Comorbidities" section asks if the Veteran requires additional care coordination/support due to two or more comorbidities, with "No" and "Yes" options. The "Psychosocial Factors" section asks if the Veteran requires additional care coordination/support due to any psychosocial factors (e.g. Dementia, Depression, Homelessness, Lack of Caregiver Support), with "No" and "Yes" options. The "Activities of Daily Life, or ADL support" section asks if the Veteran requires ADL support, with "No" and "Yes" options. The "New Calculated Assessment" section shows "Incomplete" and a dropdown menu for manual adjustment. Below this is a text box for "Reasons for manual adjustment of care coordination level:" with a placeholder "(enter a clinical reason for manually changing care coordination level)". The "Final Clinical Coord Level" is also "Incomplete". There is a text box for "Name of scheduling staff member:" and a checkbox for "Remember staff person for next referral". An "OK" button is at the bottom right.

Clinical Care Coordination Assignment

Current Admin Coordination Level: Basic

Veteran Comorbidities:
Based on your review of Veteran information and clinical judgment, will the Veteran require additional care coordination/support during this episode due to two or more comorbidities?
☐ No ☐ Yes

Psychosocial Factors:
Based on your review of Veteran information and clinical judgment, will the Veteran require additional care coordination/support during this episode due to any psychosocial factors? (e.g. Dementia, Depression, Homelessness, Lack of Caregiver Support)
☐ No ☐ Yes

Activities of Daily Life, or ADL support:
Based on your review of Veteran information and clinical judgment, does the Veteran require ADL support?
☐ No ☐ Yes

New Calculated Assessment: Incomplete
Based on review of Veteran information and clinical judgment, the level of care coordination should be manually adjusted to:

Reasons for manual adjustment of care coordination level:

(enter a clinical reason for manually changing care coordination level)

Final Clinical Coord Level: Incomplete

Name of scheduling staff member:

☐ Remember staff person for next referral

OK

Clinical Care Coordination Assignment

The Screening/Triage tool will recommend a care coordination level once the following items are populated:

- **Veteran Comorbidities:**—select yes or no if based on your review of Veteran information and clinical judgement if the Veteran will require additional care coordination/support during this episode of care due to two or more comorbidities.
- **Psychosocial Factors:**—select yes or no if based on your review of the Veteran information and clinical judgement, if the Veteran will require additional care coordination/support during this episode of care due to any psychosocial factors (e.g. Dementia, Depression, Homelessness, Lack of Caregiver Support).
- **Activities of Daily Life, or ADL support:** —select yes or no if based on your review of Veteran information and clinical judgement, if the Veteran will require ADL support.
- **New Calculated Assessment:** — the tool will calculate a level of care coordination based on the answers in the administrative screening and clinical triage sections as displayed below:
- **Based on review of Veteran information and clinical judgement, the level of care coordination should be manually adjusted to:** - Based on clinical judgment, the clinical care coordinator may override the automated result. If manual adjustment is required for

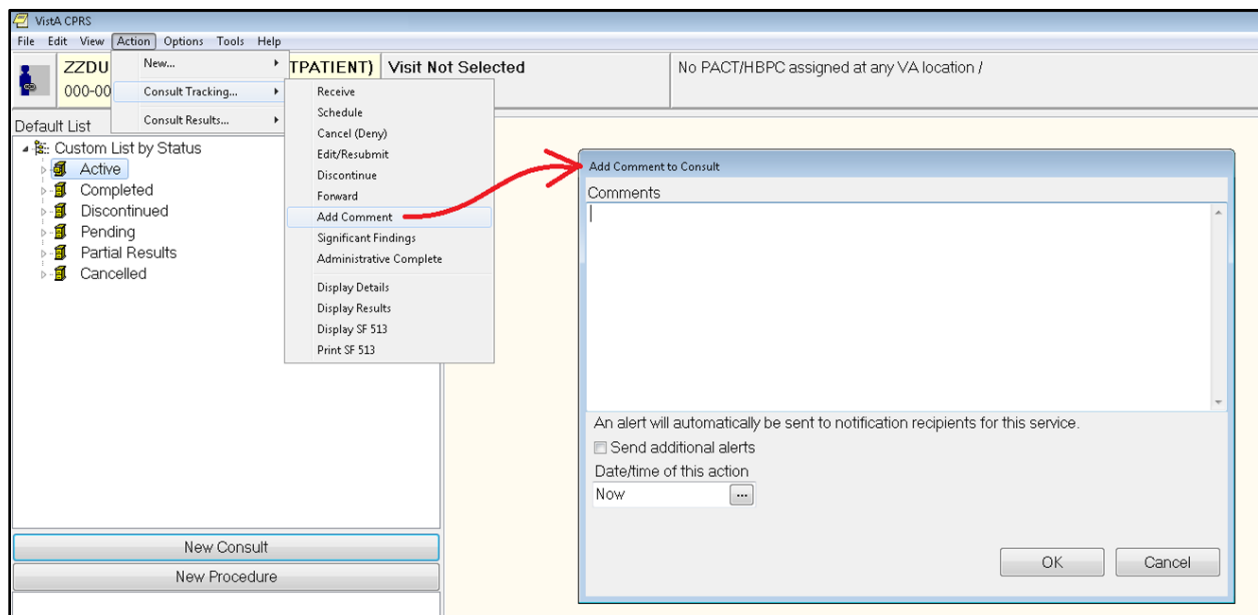

the level of care coordination, select the revised level in the drop-down menu along with the reason for adjustment in the textbox below.

- **Basic**
- **Moderate**
- **Complex**
- **Urgent**
- **Reasons for manual adjustment of care coordination level** — enter a clinical reason for manually changing care coordination level.
- **Final Clinical Triage Coordination Level:** - auto-populates based on the completion of clinical triage questions or manual override.
- **Name of scheduling staff member:** - Name of the scheduling staff member.
- **Remember staff person for next referral** – option that tells the Consult Toolbox to remember the selected staff person for the next referral.

To complete the clinical triage, follow the steps listed below:

1. From the **Action** menu, select **Add Comment**. The **Add Comment to Consult** dialog box displays.

Figure 57: Add Comment to Consult Dialog Box

2. In the **Comments** field, right-click and then select **Community Care Functions**. The **Community Care Functions** window opens.
3. Select the **CC Consult Review** tab.

Figure 58: Consult Review Tab

The screenshot shows a web-based form titled "Consult Review Tab". At the top, there is a navigation bar with tabs: "MSA Elig. Verification", "Consult Review" (which is highlighted in blue), "Authorization", "DoD", "MSA Pt Contacts", "Appt Tracking", "SAR/RFS", and "Consult Completion". Below the navigation bar, the form is titled "Community Care Clinical Review (for use by community care staff only)". It contains several sections: 1. "Request Status": Two checkboxes, "Request Approved (Select CC Program):" and "Request Disapproved (reason):", each followed by a dropdown menu and a "Comment:" field. 2. "Guideline Review Method": A dropdown menu. 3. "Provider may authorize discontinuation after failure of mandated scheduling effort without further clinical review": A checkbox followed by a dropdown menu set to "twice" and the text "or fails to respond to mandated scheduling effort". 4. "Scheduling to be performed by": A dropdown menu. 5. "Document Clinical Triage": A button. 6. "Previous AdminCare Coordination Level: Not determined". 7. "Most Recent Assessment: Clinical Triage:". At the bottom of the form, there is a link "Visit VA Consult Help Site for additional consult management guidance." and an "OK" button.

4. Click the **Document Clinical Triage** button. The **Clinical Triage for Care Coordination** window opens.

Figure 59: Clinical Triage for Care Coordination

The screenshot shows a window titled "Clinical Care Coordination Assignment". It contains the following sections: 1. "Current Admin Coordination Level: Basic". 2. "Veteran Comorbidities:": A question "Based on your review of Veteran information and clinical judgment, will the Veteran require additional care coordination/support during this episode due to two or more comorbidities?" with radio buttons for "No" and "Yes". 3. "Psychosocial Factors:": A question "Based on your review of Veteran information and clinical judgment, will the Veteran require additional care coordination/support during this episode due to any psychosocial factors? (e.g. Dementia, Depression, Homelessness, Lack of Caregiver Support)" with radio buttons for "No" and "Yes". 4. "Activities of Daily Life, or ADL support:": A question "Based on your review of Veteran information and clinical judgment, does the Veteran require ADL support?" with radio buttons for "No" and "Yes". 5. "New Calculated Assessment: Incomplete": A question "Based on review of Veteran information and clinical judgment, the level of care coordination should be manually adjusted to:" followed by a dropdown menu. 6. "Reasons for manual adjustment of care coordination level:": A text input field with a placeholder "(enter a clinical reason for manually changing care coordination level)". 7. "Final Clinical Coord Level: Incomplete". 8. "Name of scheduling staff member:": A text input field. 9. A checkbox "Remember staff person for next referral". At the bottom right, there is an "OK" button.

Authorized Use Only

NOTE: The Clinical Triage tool will recommend a care coordination level once the following items are populated.

5. From the **Veteran Comorbidities:** section, select **No** or **Yes** if the Veteran will require additional care coordination/support during this episode of care due to two or more comorbidities.
6. From the **Psychosocial Factors:** section, select **No** or **Yes** if the if the Veteran will require additional care coordination/support during this episode of care due to any psychosocial factors (e.g. Dementia, Depression, Homelessness, Lack of Caregiver Support).
7. From the **Activities of Daily Life, or ADL support:** section, select **No** or **Yes** if the Veteran will require ADL support.
8. The tool will automatically calculate a level of care coordination based on the answers in is the steps above. The coordination level displays in the **New Clinical Triage Coordination Level** section.

Figure 60: New Clinical Triage Coordination Level

Clinical Triage for Care Coordination

Clinical Care Coordination Assignment

Current Admin Coordination Level: Basic

Veteran Comorbidities:
Based on your review of Veteran information and clinical judgment, will the Veteran require additional care coordination/support during this episode due to two or more comorbidities?
☐ No ☒ Yes

Psychosocial Factors:
Based on your review of Veteran information and clinical judgment, will the Veteran require additional care coordination/support during this episode due to any psychosocial factors? (e.g. Dementia, Depression, Homelessness, Lack of Caregiver Support)
☐ No ☒ Yes

Activities of Daily Life, or ADL support:
Based on your review of Veteran information and clinical judgment, does the Veteran require ADL support?
☐ No ☒ Yes

New Clinical Triage Coordination Level: Complex

Based on review of Veteran information and clinical judgment, the level of care coordination should be manually adjusted to:
Moderate

Reasons for manual adjustment of care coordination level:
No Family or Care Giver available
(enter a clinical reason for manually changing care coordination level)

Final Clinical Triage Coordination Level: Moderate

Name of scheduling staff member:
Scheduling Staff Member

☒ Remember staff person for next referral

OK

NOTE: Based on clinical judgment, the clinical care coordinator may override the automated result. If manual adjustment is required for the level of care coordination, select the revised level in the drop-down menu along with the reason for adjustment in the text box.

9. In the **Reasons for manual adjustment of care coordination level:** field, enter a clinical reason for manually changing care coordination level.
10. The **Final Clinical Triage Coordination Level:** auto-populates based on the completion of clinical triage questions or manual override.
11. In the **Name of scheduling staff member:** field, enter the name of the staff member.
12. Select the **Remember staff person for next referral** check box if you want Consult Toolbox to remember the staff person.
13. Click **OK**. The screening/triage tool will populate a comment in the body of the consult detailing the level of care coordination, directions for proceeding with care coordination, and a list of potential care coordination services required by the Veteran. The comment will also provide guidance on the frequency of contact and need for warm handoff.

Figure 61: Comment Added to Consult

```

Admin Screening for Care Coordination
SCD-Screening Code: 014-67-TC-M
Urgency: not within 48 hrs
CAN Score: Over 90
Admin Screening=Complex
Clinical Screening for Care Coordination
TCD-Clinical Triage Code: 01A-67-TC-M
Significant Comorbidities: yes
Significant Psychosocial Issues: yes
ADL Support Needed: no
Care Coordination Level manually set.
Reason: Doctor's Orders

Clinical Triage Care Coordination: Complex
Clinical Triage: Complete

After the appointment has been scheduled, the integrated team should proceed to coordinate care based
on the Veteran's needs.
Complex care coordination may include:
-assistance with navigation
-scheduling
-post-appointment follow-up
-monitoring and coordination of preventative services
-case management
-disease management

warm handoff may be required for complex and urgent veterans. Direct communication should be performed
with the ordering provider and/or interdisciplinary team (as applicable).

Recommended frequency of contact: weekly to monthly

Admin Staff alert, sending to: Jane Smith

```

4.4.2.3. Authorization

This information documented within the Authorization tab populates from data contained in the consult if present, but will not be added to the consult again unless changes and the checkbox is checked shown and described below. **Authorization instructions to be included with Referral.**

Figure 62: Authorization Tab

The screenshot shows the 'Authorization' tab within a software interface. At the top, there is a navigation bar with tabs: 'MSA Elig. Verification', 'Consult Review', 'Authorization' (highlighted), 'DoD', 'MSA Pt Contacts', 'Appt Tracking', 'SAR/RFS', and 'Consult Completion'. Below the navigation bar, the 'Service Line' is set to 'All Service Lines' in a dropdown menu. To the right of this is a 'SEOC' dropdown menu and a 'Display SEOC' button. Below these, there is a checkbox for 'Community Care Manager:' followed by a text input field. Underneath that is a label 'For questions, contact this number:' followed by another text input field. A red text label 'Upon completion of this section:' is followed by a checkbox and the text 'Send to HSRM for Referral'. At the bottom left, there is a link: 'Visit VA Consult Help Site for additional consult management guidance.' At the bottom right, there is an 'OK' button.

- **Service Line** – A broad category for the services and procedures included which is intended to be used as a way to group and filter SEOCs for easier accessibility. A standardized 3-letter abbreviation of the service line is included at the beginning of the SEOC ID.

Figure 63: Service Line Menu Options

The screenshot shows a dropdown menu for 'Service Line'. The menu is open, displaying a list of options. The first option is 'All Service Lines', which is highlighted in blue. Below it, the following options are listed: 'Audiology', 'Dental Care', 'Dialysis', 'Emergent-Urgent Care', 'Infertility Care', 'Lab & Pathology Services', 'Medical Specialty Care', 'Mental Health Care', 'Non-Institutional Care', 'Physical Medicine and Rehabilitation', 'Primary Care', 'Radiology', 'Surgical Specialty Care', 'Transportation', and 'Womens Health Care'. The background of the form is partially visible, showing the 'Service Line:' label, the 'SEOC:' label, a 'Community' checkbox, and a 'For quest' label.

- **SEOC** – A SEOC selection is mandatory on every Community Care consult. If a SEOC has not been previously placed to the Consult, users should use Consult Toolbox to write a SEOC to the consult.

NOTE: If SEOC database is unavailable the SEOC Database Unreachable Message displays. Contact the NSD if no SEOCs are available in the drop-down menu.

Figure 64: List of Active SEOCs

- **Display SEOC** – Option that allows you to view the details of the selected SEOC.

Figure 65: Display SEOC

- **Community Care Manager** — typically referrals need to include the name of the Community Care manager, and a contact number. These can be inserted here. You must check the checkbox for this to be included.

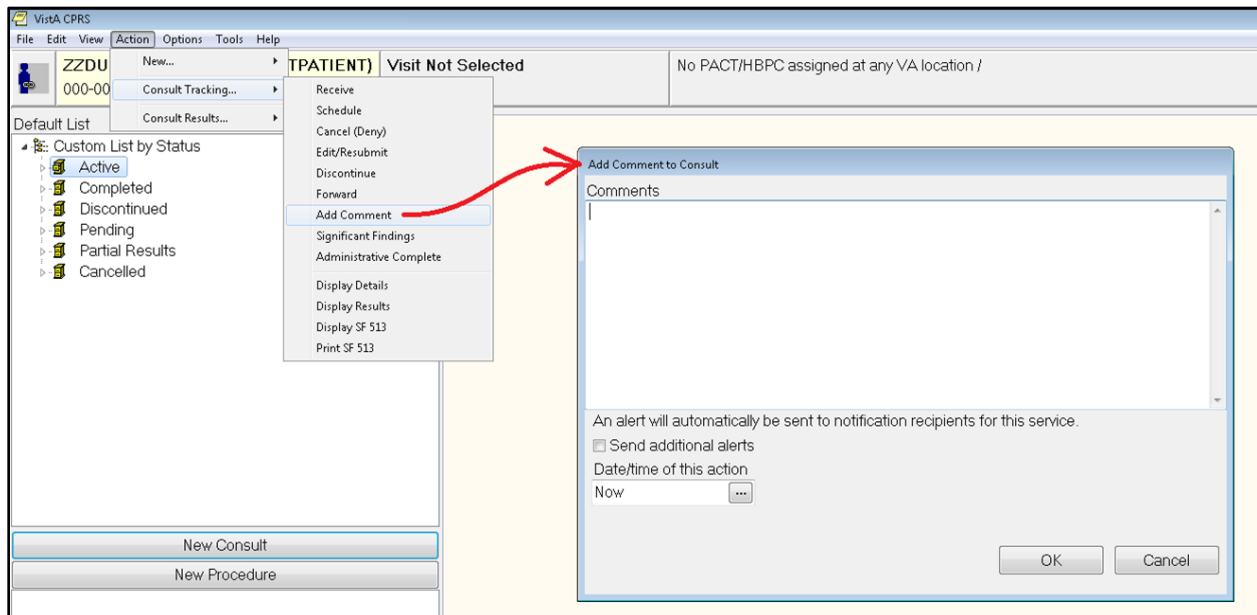

Authorized Use Only

- **For questions, contact this number:** - Community Care manager contact phone number.
- **Upon completion of this section** — send to HSRM for referral. If this check box is selected, a consult will transfer to HSRM in approved status even if the status in CPRS is cancelled, pending, discontinued, etc.

To view or edit the options within the **Authorization** tab, follow the steps below:

1. From the **Action** menu, select **Add Comment**. The **Add Comment to Consult** dialog box displays.

Figure 66: Add Comment to Consult Dialog Box

2. In the **Comments** field, right-click and then select **Community Care Functions**. The **Community Care Functions** window opens.
3. Select the **Authorization** tab.

Figure 67: Authorization Tab

The screenshot shows the 'Authorization' tab within a web application. At the top, there is a navigation bar with tabs: 'MSA Elig. Verification', 'Consult Review', 'Authorization' (highlighted), 'DoD', 'MSA Pt Contacts', 'Appt Tracking', 'SAR/RFS', and 'Consult Completion'. Below the navigation bar, the 'Service Line' is set to 'All Service Lines'. There is a 'SEOC' dropdown menu and a 'Display SEOC' button. A checkbox for 'Community Care Manager' is present, followed by a text input field for a contact number. Below this, a red text prompt says 'Upon completion of this section:' followed by a checkbox for 'Send to HSRM for Referral'. At the bottom left, there is a link: 'Visit VA Consult Help Site for additional consult management guidance.' and an 'OK' button at the bottom center.

4. From the **SEOC** drop-down menu, select one of the authorized service listed.
5. Select the **Include Standard Authorization Language** check box to insert the language that displays in the box.
6. Select the **Add the following to authorization** check box to allow for additional pertinent information.

NOTE: Any additional treatments, procedures or referrals must have a Secondary Authorization Request submitted.

7. Select the **Community Care Manager** check box to include the name of the Community Care manager, and add a contact number.
8. Once the referral is ready for Authorization Form, select the **Send to HSRM for Referral** check box from the **Upon completion of this section:**.
9. Click **OK**.

4.4.2.4. DoD

This information documented within the DoD tab is used for coordinating care between the VA and the DoD Benefits Office.

Figure 68: DoD Tab

The screenshot shows the 'DoD' tab selected in a navigation bar at the top. The navigation bar includes links for 'MSA Elig. Verification', 'Consult Review', 'Authorization', 'DoD', 'MSA Pt Contacts', 'Appt Tracking', 'SAR/RFS', and 'Consult Completion'. Below the navigation bar, the 'DoD Urgency:' section contains a checkbox labeled 'Urgency' and a dropdown menu. Below this is another checkbox labeled 'DoD facility contacted to request care' followed by a text input field. At the bottom of the form, there is a link that says 'Visit VA Consult Help Site for additional consult management guidance.' and an 'OK' button.

- **DoD Urgency** – Department of Defense Urgency
 - **Urgency**

Figure 69: DoD Urgency Menu Options

The screenshot shows a dropdown menu for 'DoD Urgency'. The menu is open, displaying two options: 'Urgent - 90 minutes' and 'Routine - 2 business days'. The 'Routine - 2 business days' option is currently selected and highlighted in blue. The 'Urgency' checkbox is checked, and the 'Disposition' checkbox is unchecked.

- **Urgent – 90 minutes**
- **Routine – 2 business days**
- **DoD facility contacted to request care** – Name of DoD facility contacted to request care.

To view or edit the options within the **DoD** tab, follow the steps below:

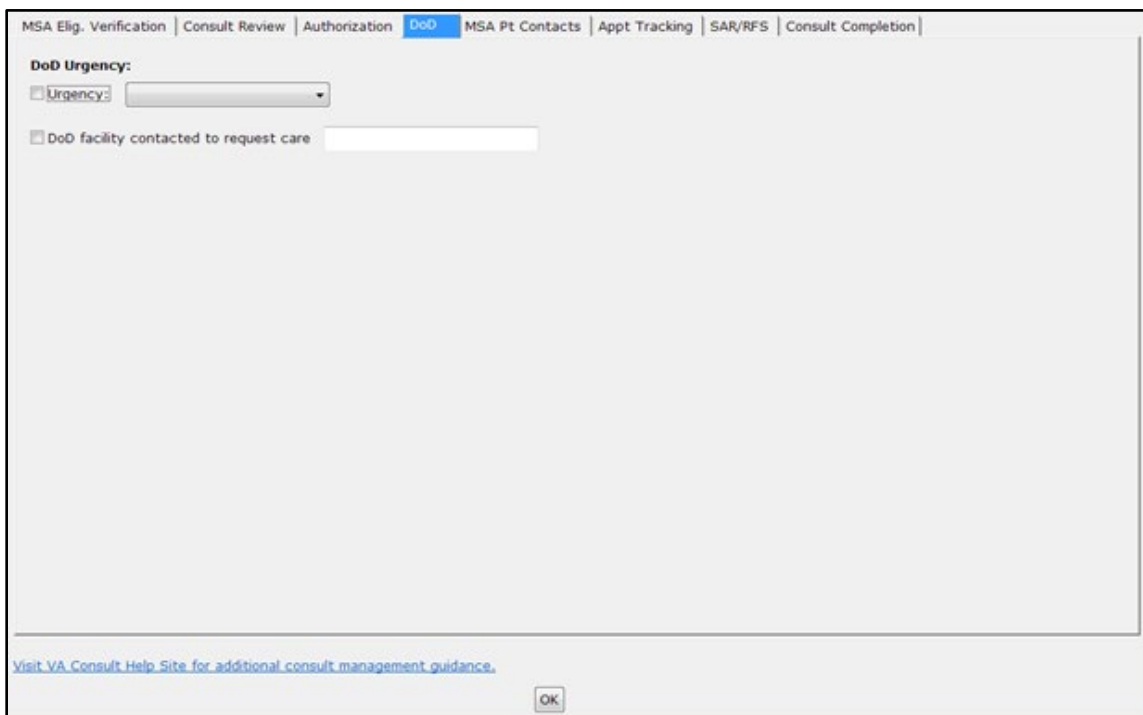

1. From the **Action** menu, select **Add Comment**. The **Add Comment to Consult** dialog box displays.

Figure 70: Add Comment to Consult Dialog Box

2. In the **Comments** field, right-click and then select **Community Care Functions**. The **Community Care Functions** window opens.
3. Select the **DoD** tab. The **DoD** tab displays.

Figure 71: DoD Tab

4. If there is a DoD urgency, select the **Urgency** check box and then select the type of urgency from the drop-down menu.

Authorized Use Only

5. If a DoD facility was contacted to request care, select the check box and enter the name of the facility in the field.
6. Click **OK**.

4.4.2.5. MSA Pt Contacts

Figure 72: MSA Pt Contacts

- **Unsuccessful attempts to schedule Veteran** — this allows recording first, second, and additional calls made to the Veteran to arrange care. Optionally, an annotation like “No Answer” can be added. Enter information regarding the attempt in the field or select an option from the **Opt** menu: **Mail**, **Left Voice Mail**, or **Left Message with Family**.
 - **First call to Veteran**
 - **Second call to Veteran**
 - **Third or additional call to Veteran**
 - **Unable to Contact letter sent to Veteran** — use this selection when a letter is sent to the Veteran indicating that the clinic has been trying to reach him/her to schedule an appointment. This comment may be used each time a letter is sent, if sent more than once.
 - **Letter Sent by Certified Mail**—this is an additional indication that the letter above was sent by certified mail. Note that the certified mail indicator should be used in conjunction with the unable to contact letter.
- **Additional Results from Attempt**
 - **All listed phone numbers disconnected or wrong number**—used when all the numbers listed for the Veteran are wrong (disconnected or you reach someone who doesn’t know the Veteran). This should not be used unless you have confirmed that all numbers in the record are bad.

Authorized Use Only

- **Address bad or No address on file, unable to contact by letter**—this would apply in the instance where a letter sent has been returned by the post office or in the case of homeless Veterans. The latter case may require extra effort with the Homeless Veterans' Program to try to reach the Veteran.
- **Veteran Contacted**
 - **Veteran Informed of eligibility, referral and approval**—this simply documents that the Veteran has been informed of Community Care eligibility.
- **Veteran's Participation Preference**
 - **Opt-In for Community Care**—documents Veteran has opted-in.
 - **Opt-Out for Community Care**—documents Veteran has opted-out for Community Care.
- **Mailing Address Confirmed**—indicates that the mailing address on file is correct. If not correct, MSA should correct the address, and then confirm that it is correct.
- **Verified Best Contact Number**—documents best number to contact this Veteran. In addition to the actual number, user may also note whether cell, home, or other number. Also, options to confirm existing numbers on file as the best number are provided. Enter the best contact number in the field or select an option from the **Opt** menu: **home number on file, cell number on file, or work number on file.**
- **OK to leave appt. details on voice mail**—documents that Veteran gives permission to leave appointment details on his/her voice mail.
- **OK to leave appt. details with:** —documents that Veteran gives permission to leave details of the appointment with another individual. Anything may be entered, or several options are provided if a specific family member is preferred. Enter the name of individual that the Veteran gives permission to leave details of the appointment with in the field or select an option from the **Opt** menu: **Spouse, Daughter, Son, Caregiver, or Family.**
- **Veteran contacted Community Care office**
 - **Contact Notes**
- **Provider Preference:**
 - **Pref. referral package Method:**
 - **Fax**
 - **HSRM Portal**
 - **Mail**
 - **Secure Email**
 - **Virtru Pro**
- **Veteran's Preferred Provider Information** — if the Veteran has a provider they would like to see, that can be recorded here. Use the lookup tool so the correct provider information (including NPI number) can be part of the record. This pulls data from the Department of Health and Human Services database, which is updated daily
 - **Veteran has a Preferred Provider:** Finding the preferred provider can be conducted using the **Lookup a Provider** option.

Figure 73: Search by Provider Tab

- **Prov. Last Name:** - This field may be used for NPI searching.
- **Prov. First Name:** - This field may be used for NPI searching.
- **Degree:**
- **Provider Phone:**
- **Provider Specialty:** - This field may be used for NPI searching.
- **Provider Street:**
- **Provider City:** - This field may be used for NPI searching.
- **Provider State:** - This field may be used for NPI searching.
- **Provider Zip:**
- **NPI (look up):** - This field may be used for NPI searching.
- **Suppress Provider Address (recommended)**

Figure 74: Search by Institution Tab

The screenshot shows a software window titled "Veteran's Preferred Provider" with a close button in the top right. Inside, there are two tabs: "Search by Provider" and "Search by Institution", with the latter being selected. Below the tabs, a blue link reads "Institution Name, City, State, or NPI may be used for NPI Searching". The form contains several input fields: "Institution Name:", "Institution Phone:", "Institution Street:", "Institution City:", "Institution State:" (a dropdown menu currently showing "GA (GEORGIA)"), "Institution Zip:", and "NPI (look up):". Below these fields is a checkbox labeled "Suppress Institution Address" with a note underneath: "(NPI database often doesn't contain address of care location)". At the bottom of the window are three buttons: "Search NPI Database", "Clear/Start Over", and "Accept Provider".

- **Institution Name:** - This field may be used for NPI searching.
- **Institution Phone:**
- **Institution Street:**
- **Institution City:** - This field may be used for NPI searching.
- **Institution State:** - This field may be used for NPI searching.
- **Institution Zip:**
- **NPI (look up):** - This field may be used for NPI searching.
- **Suppress Institution Address**
 - **Update record with above information**
 - **Veteran OK to see other than Pref. Provider** — if the Veteran has indicated a preferred provider, this documents whether they are willing so see someone else if there is no opportunity to see their preferred provider (provider not available or not willing to take Veteran).
- **Veteran's appt time preference:** this is an optional field that allows documentation of time of day preference. It can be **Any**, **Morning**, **Afternoon**, or anything else you'd like to enter.
- **Veteran's day/date preference:** documents day of week or date Veteran would prefer the appointment. This is a free text field, though a CAL button is available to pick a specific date.

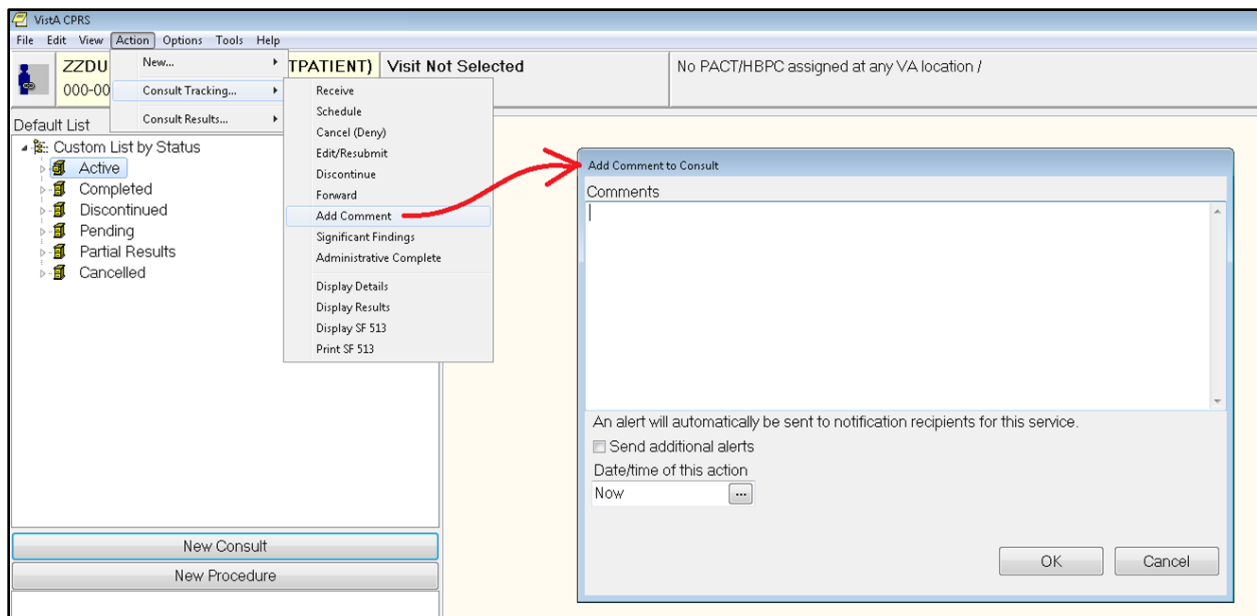

Authorized Use Only

- **Veteran prefers to self schedule**
- **Pref. appt. Notification Method:** documents how the Veteran would like to be notified of appointment when scheduled. Options are
 - **Mail**
 - **Phone**
 - **Both phone and mail**
 - **MHV Secure Message**
- **Willing to travel up to (miles):** documents Veteran's willingness to travel said number of miles to see a provider.
- **Refer to clinical reviewer for disposition after unsuccessful scheduling effort** — after failing to schedule an appointment by making two calls, sending a letter, and waiting two weeks, this option refers the consult to a clinician to review and disposition. Business rules for certain low-risk consults may allow the scheduler to discontinue without clinician review, or in the case the provider previously reviewed the consult and determined that it may be discontinued after a failure to schedule after mandated effort, or multiple missed appointments.

To view or edit the options within the **MSA Pt Contacts** tab, follow the steps below:

1. From the **Action** menu, select **Add Comment**. The **Add Comment to Consult** dialog box displays.

Figure 75: Add Comment to Consult Dialog Box

2. In the **Comments** field, right-click and then select **Community Care Functions**. The **Community Care Functions** window opens.
3. Select the **MSA Pt Contacts** tab.

A failed scheduling effort occurs when calls and letters per VA policy have failed to result in a completed patient appointment or patient has exceeded the number of missed appointments allowed.

☐ Refer to clinical reviewer for disposition after unsuccessful scheduling effort

[Visit VA Consult Help Site for additional consult management guidance.](#)

4. From the **Unsuccessful Attempts to Schedule Veteran** section, select the best option.
5. From the **Additional Results from Attempt** section, select the best options.
6. From the **Veteran Contacted** section, select the best options.
7. From the **Veteran's Participation Preference** section, select the best options.
8. From the **Provider Information** section, select the best options.
9. From the **Provider Preference** section, select the best options.
10. Select the **Refer to clinical reviewer for disposition after unsuccessful scheduling effort** check box if after failing to schedule an appointment by making two calls, sending a letter, and waiting two weeks, this option refers the consult to a clinician to review and disposition.
11. Click **OK**.

4.4.2.6. Appt Tracking

Figure 77: Appt Tracking Tab

The screenshot shows the 'Appt Tracking' tab in the MSA system. The top navigation bar includes: MSA Elig. Verification, Consult Review, Authorization, DoD, MSA Pt Contacts, **Appt Tracking**, SAR/RFS, and Consult Completion. The main content area is divided into several sections:

- Left Column:**
 - Checkboxes: ☐ Provider requires records to review prior to scheduling, ☐ Documents Uploaded to TPA Portal, ☐ Follow up call made to provider/vendor to check on status, ☐ Time sensitive appointment, NLT: [text field] [Cal], ☐ Community Care appt. has been: ☒ scheduled ☐ re-scheduled.
 - Fields: Appt. Date: [text field] [Cal], Comment: [text field]
 - Actual/Approved Provider Information:** [Large text area]
 - ☐ Update record with above information
 - [Available Community Care Facility & Provider Locator]
 - ☐ Veteran informed of scheduled appt by: [text field] [Opt]
 - ☐ Referral Authorization Packet Mailed to Veteran
 - A failed scheduling effort occurs when calls and letters per VA policy have failed to result in a completed patient appointment or patient has exceeded the number of missed appointments allowed.
- Right Column:**
 - Returned from Community Care Provider:** [List box with options: Referral Issues (select specific issue), Network Issues (select specific issue), Veteran Declined (select specific reason), Appointment Issues (select specific issue), CCN Return Reasons (select specific issue), Veteran Deceased or Incapacitated]
 - Disposition of returned referral: [Dropdown menu]
 - Missed Community Care Appointment, care still Active/Pending: [Dropdown menu]
 - ☐ Veteran declined/refused--using alternate source of payment
 - ☐ Veteran declined/refused community care
 - ☐ Refer to clinical reviewer for disposition after unsuccessful scheduling effort

At the bottom, there is a link: [Visit VA Consult Help Site for additional consult management guidance.](#) and an OK button.

- **Provider requires records to review prior to scheduling** — records a situation where the potential Community Care provider requires records to be reviewed prior to accepting the referral.
- **Document Uploaded to TPA Portal** — allows Community Care staff to record when documentation for a Community Care referral has been uploaded to the TPA’s portal. Note, during the document upload process, the unique ID will also be included.
- **Follow up call made to provider/vendor to check on status**—documents a follow up call to vendor to check on referral status, such as in the case where records review was required.
- **Time sensitive appointment, NLT**—documents a no later than date for the appointment to be scheduled.
- **Community Care apt has been—scheduled or unscheduled.** This allows Community Care staff to flag the consult as having an appointment under Community Care.
 - **Appointment Date:** Records the appointment date. This is not required if a shadow appointment has been scheduled in VistA Scheduling. This is a free text entry field; however, a calendar widget is provided for easy date and time entry.

- **Comment –**
- **Actual/Approved Provider Information** — The name of the actual provider with whom the Veteran has an appointment should be selected using the **Lookup a Provider** button, which works the exact same as the one on the MSA Pt Contacts tab. It may be different from the one the Veteran preferred if, for instance, the provider was unable to see Veteran, or was not participating as a VA community provider.
 - **Update record with above information**
 - **Available Community Care Facility & Provider Locator**
- **Veteran informed of scheduled appt. by—**Enter the method of notification for the scheduled appointment in the field or select an option from the **Opt** menu: **mail**, **phone**, **phone and mail**, or **MyHealtheVet**.
- **Referral Authorization Packet Mailed to Veteran**—referral authorization packet mailed to Veteran
- **Returned from Community Care Provider:** — These data fields are used to indicate when a referral has been returned from Community Care Provider with the corresponding rationale.
 - **Referral Issues (select specific issue)**
 - **Duplicate**
 - **Non Covered Service** — Veteran referred to community provider for services that are not part of benefits package.
 - **Missing VA Data/Forms** — Missing or incomplete documentation required to appoint.
 - **VA requested return of referral** — VA contacts contractor and requests return of referral.
 - **Unable to review within contract standards** — Contractor was not able to review within the contract standard.
 - **Non-Disclosure of OHI by Veteran** — Veteran acknowledges having OHI and fails to provide.
 - **Unable to contact Veteran during Out Bound Call Process** — Could not appoint due to no contact from Veteran via call or letter.

Authorized Use Only

- **Network Issues (select specific issue)**
 - **No Network Provider Available** — No network provider available for requested service(s). This does not include a Veteran requesting a specific provider.
 - **VA Requested Providers Outside of Network** — Non-contracted provider.
 - **Veteran Requested Specific Provider** — Veteran requested a specific provider for care that is not available on the PC3 network or by Community Care provider agreement.
 - **Appointed with Incorrect Provider/Type of Care** — Appointed with incorrect provider or incorrect type of care.
 - **Already Appointed** — Care has been previously scheduled by the Veteran, VA or the Contractor.
- **Veteran Declined (select specific reason)**
 - **Veteran Declined Distance — Inside Commute Standard** — Network provider is in contractors' network and within the commute standards.
 - **Veteran Declined Distance — Outside Commute Standard** — Network provider is in contractors' network but provider is NOT within the commute standards.
 - **Veteran Declined Appt Time** — Veteran declined time for scheduled appointment.
 - **Veteran Declined Does Not Want Care** — Veteran declined request for care.
 - **Veteran Declined Use of PC3/Community Care** — Veteran no longer wants to participate in the program.
- **Appointment Issues (select specific issue)**
 - **Veteran No-Show** — Veteran did not show up for scheduled appointment.
 - **Contractor Return – Unable to schedule within contract terms** — Care not scheduled within the contractual time and VA is requesting back due to time lapse.
 - **VA Request Return – Care Already Scheduled by Contractor** — VA requested the authorization after Contractor scheduled care.
 - **Unable to contact Veteran Out Bound Call Process** — Could not appoint due to no contact from Veteran via call or letter.
- **CCN Return Reasons (select specific issue)**
 - **No CCN Provider Available to Schedule Within Timeliness Standard**
 - **No CCN Providers Available to Schedule Within Drive Time Standard**
 - **Veteran Prefers CCN Provider Outside of Drive Time Standard**
 - **Veteran Willing to Accept CCN Provider Outside of Drive-Time Standard**

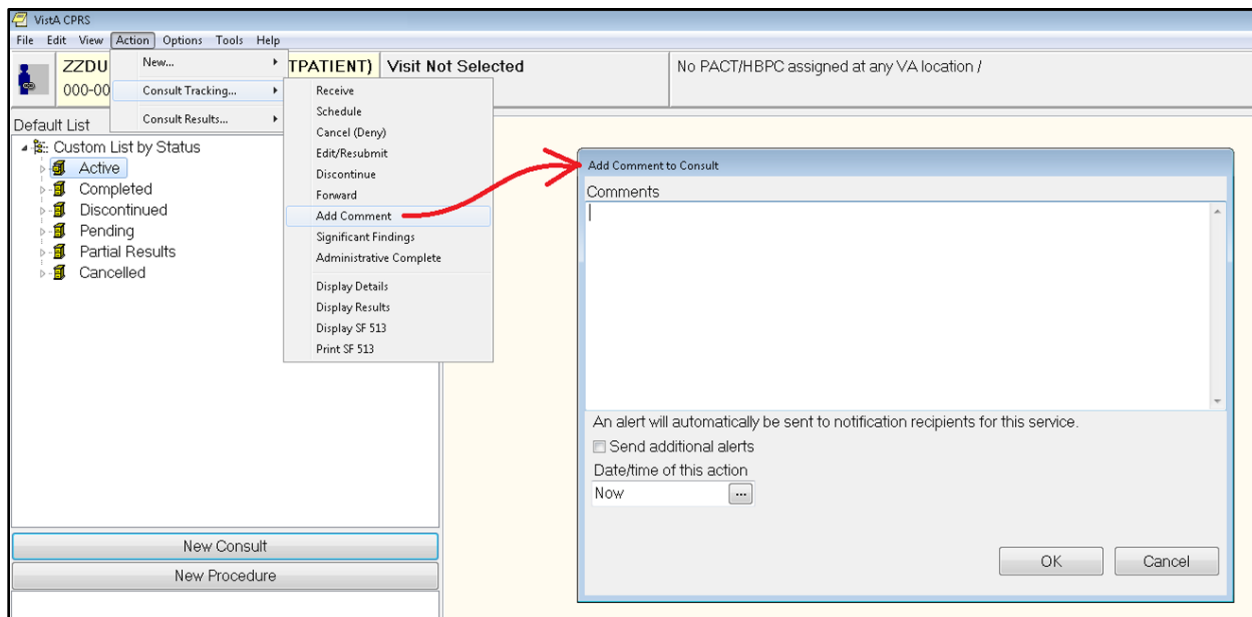

Authorized Use Only

- **Veteran Willing to Accept CCN Provider Outside of Timeliness Standard**
- **Veteran Prefers Non-CCN Provider**
- **Veteran Self-Schedules**
- **Service Not Provided in CCN**
- **Veteran Deceased or Incapacitated** — Authorization returned due Veteran deceased or incapacitated.
- **Disposition of returned referral:** - document the status of the referral
 - **Scheduled using Provider Agreement**
 - **In-house VA Appointment arranged**
 - **Forwarded to in-house service**
 - **Resubmitted new referral authorization to vendor**
 - **Scheduled using traditional Non-VA Care**
- **Missed Community Care Appointment, care still Active/Pending:** - document the reason for the missed appointment.
 - **Veteran was No-Show for community care appointment**
 - **Veteran Cancelled community care appointment (Cancel by Veteran)**
 - **Community Care Provider cancelled appointment (Cancel by clinic)**
- **Veteran declined/refused – using alternate source of payment**
- **Veteran declined/refused community care**
- **Refer to clinical reviewer for disposition after unsuccessful scheduling effort** — after failing to schedule an appointment by making two calls, sending a letter, and waiting two weeks, this option refers the consult to a clinician to review and disposition. Business rules for certain low-risk consults may allow the scheduler to discontinue without clinician review, or in the case the provider previously reviewed the consult and determined that it may be discontinued after a failure to schedule after mandated effort, or multiple missed appointments.

To view or edit the options within the **Appt Tracking** tab, follow the steps below:

1. From the **Action** menu, select **Add Comment**. The **Add Comment to Consult** dialog box displays.

Figure 79: Add Comment to Consult Dialog Box

2. In the **Comments** field, right-click and then select **Community Care Functions**. The **Community Care Functions** window opens.
3. Select the **Appt Tracking** tab.

Figure 80: Appt Tracking Tab

The screenshot shows the 'Appt Tracking' tab in the ViSA CPRS application. The tab contains several sections:

- Returned from Community Care Provider:** A section with a list of issues to select from, including 'Referral Issues', 'Network Issues', 'Veteran Declined', 'Appointment Issues', 'CCN Return Reasons', and 'Veteran Deceased or Incapacitated'.
- Actual/Approved Provider Information:** A section with a text area for provider information and a checkbox for 'Update record with above information'.
- Disposition of returned referral:** A dropdown menu for selecting the disposition.
- Missed Community Care Appointment, care still Active/Pending:** A dropdown menu for selecting the status.
- Other options:** Checkboxes for 'Veteran informed of scheduled appt by:', 'Referral Authorization Packet Mailed to Veteran', 'Veteran declined/refused--using alternate source of payment', 'Veteran declined/refused community care', and 'Refer to clinical reviewer for disposition after unsuccessful scheduling effort'.

4. Select the best option for appointment tracking.
5. From the **Actual/Approved Provider Information** section, enter the name of the actual provider with whom the Veteran has an appointment.

Authorized Use Only

6. In the **Veteran informed of scheduled appt by:** field, enter the method used to inform the Veteran of the schedule appointment or select an option from the **Opt** menu.
7. Select the **Referral Authorization Packet Mailed to Veteran** if a packet was mailed to the Veteran.
8. From the **Returned from Community Care Provider:** section, select the reason why the referral was returned from the Community Care Provider with the corresponding rationale.
9. From the **Disposition of returned referral** drop-down menu, select the status of the referral.
10. From the **Missed Community Care Appointment care still Active/Pending** drop-down menu, select the reason for the missed appointment.
11. If the records were received, select the **Records Received** check box and select the option from the drop-down menu.
12. If the Veteran is using an alternate source of payment, select the **Veteran declined/refused – using alternate source of payment** check box.
13. If the Veteran does not want to use Community Care, select the **Veteran declined/refused community care** check box.
14. Click **OK**.

4.4.2.7. Secondary Authorization Request (SAR)/Request for Service (RFS)

Figure 81: SAR/RFS Tab

MSA Elig. Verification | Consult Review | Authorization | DoD | MSA Pt Contacts | Appt Tracking | **SAR/RFS** | Consult Completion

Secondary Authorization Request (SAR)/Request For Service (RFS)

SAR/RFS Urgency: **Opt**

SAR/RFS was entered into Vista Imaging:

SAR/RFS Details of what was Requested:

Actions Taken

☐ Request is Clinically Appropriate ☐ Additional Time: ☐ Additional Services ☐ Approved as req. above
☐ Service Available at VA

Details:

☐ Request is not Clinically Appropriate ☐ Not a covered benefit ☐ Missing Documentation ☐ Reassessment by VA Provider Required
☐ Other reason ☐ Not Clinically Appropriate

Denial Details:

[Visit VA Consult Help Site for additional consult management guidance.](#)

OK

- **Secondary Authorization Request (SAR)/Request for Service (RFS) section**
 - **SAR/RFS Urgency** — Insert the urgency for the secondary authorization request/request for service field or select an option from the **Opt** menu: **Routine, w/in 48 hours, w/in 1 week, or w/in 1 month.**

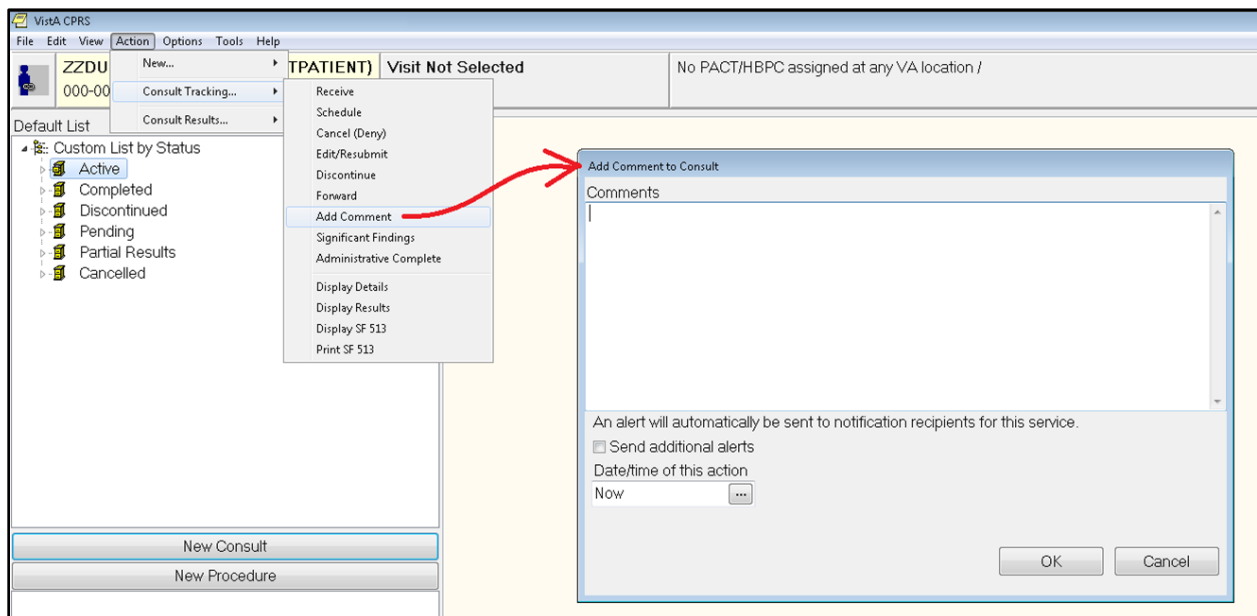

Authorized Use Only

- **SAR/RFS was entered into VistA Imaging**
 - **Yes**
 - **No**
- **SAR/RFS Details of what was Requested:** - comment related to the SAR.
- **Actions Taken**
 - **Request is Clinically Appropriate** – note reasons by check boxes, or with detailed description.
 - **Additional Time:**
 - **Additional Services**
 - **Approved as req. above**
 - **Details**
 - **Request is not Clinically Appropriate** — note reasons by check boxes, or with detailed description.
 - **Not a covered benefit**
 - **Missing Documentation**
 - **Reassessment by VA Provider Required**
 - **Other reason**
 - **Not Clinically Appropriate**
 - **Denial Details:**

To view or edit the options within the **SAR/RFS** tab, follow the steps below:

1. From the **Action** menu, select **Add Comment**. The **Add Comment to Consult** dialog box displays.

Figure 82: Add Comment to Consult Dialog Box

Authorized Use Only

2. In the **Comments** field, right-click and then select **Community Care Functions**. The **Community Care Functions** window opens.
3. Select the **SAR/RFS** tab.

Figure 83: SAR/RFS Tab

The screenshot shows a software interface with a tabbed menu at the top. The tabs are: MSA Elig. Verification, Consult Review, Authorization, DoD, MSA Pt Contacts, Appt Tracking, SAR/RFS (which is highlighted in blue), and Consult Completion. The main content area is titled "Secondary Authorization Request (SAR)/Request For Service (RFS)". It contains several input fields and checkboxes. The "SAR/RFS Urgency:" field has a text input and an "Opt" button. Below it is a dropdown menu for "SAR/RFS was entered into Vista Imaging". A text area for "SAR/RFS Details of what was Requested:" is followed by an upward arrow icon. The "Actions Taken" section has a radio button for "Request is Clinically Appropriate" and several checkboxes: "Additional Time:" (with a text input), "Additional Services", "Approved as req. above", and "Service Available at VA". Below this is a "Details:" text area with an upward arrow icon. Another radio button, "Request is not Clinically Appropriate", is followed by checkboxes for "Not a covered benefit", "Missing Documentation", "Reassessment by VA Provider Required", "Other reason", and "Not Clinically Appropriate". A "Denial Details:" text area with an upward arrow icon is at the bottom of the form. At the very bottom of the window, there is a link: "Visit VA Consult Help Site for additional consult management guidance." and an "OK" button.

4. From the **Secondary Authorization Request (SAR) / Request for Service (RFS)** section, enter the SAR/RFS urgency in the field or select an option from the **Opt** menu.
5. From the **SAR/RFS was entered into VistA Imaging** drop-down menu, select **Yes** or **No**.
6. In the **SAR/RFS Details of what was Requested** field, enter the details.
7. From the **Actions Taken** section, select if the SAR/RFS was clinically appropriate or not.
8. Click **OK**.

4.4.2.8. Consult Completion

Figure 84: Consult Completion Tab

4. From the **Completion Efforts** section, select the options for completion.

5. In the **Community Care appointment occurred (waiting for records)** field, enter the information or select an option from the **Opt** menu.
6. Click **OK**.

4.4.3. Setting Clinical Review Options

Provider functions allow providers reviewing records to document the results of their review or other actions that need to be documented.

Figure 88: Clinical Review Options

Clinical Review Options

Instructions for scheduling or rescheduling ☐ No Show Notation

☐ Schedule/Reschedule Routine Appointment
☐ Schedule/Reschedule w/in 1 mo (overbook OK)
☐ Schedule/Reschedule w/in 2 wks (overbook OK)
☐ Schedule/Reschedule w/in 1 wk (overbook OK)
☐ Schedule/Reschedule, schedule on 8/ 6/2019 (overbook OK)
☐ Schedule/Reschedule, see scheduling order for scheduling instructions
☐ Established pt., please schedule then discontinue consult

Urgent requests booked > 7 days require chart review and attestation that non-urgent scheduling is appropriate

☒ Currently scheduled appointment appropriate

Additional comments and instructions

☐ This consult may be D/C'd after mandated scheduling effort
☒ Scheduling plans discussed with ordering provider

Consults may be marked "High Risk" for tracking and extra scheduling effort

☒ High Risk Consult--Extra scheduling effort warranted

[Visit VA Consult Help Site for additional consult management guidance.](#) View Consult History

- **Instructions for scheduling or rescheduling** — Providers reviewing consults need to comment when they review incomplete consults (this is different from when they review a consult to accept or receive it). This can occur after a no show, or if a consult has languished, or as the result of failed scheduling efforts. An urgent consult that isn't seen urgently must be reviewed to assure that either it wasn't urgent medically, or the delay is the fault of the Veteran. The workflow here is that a routine appointment follows the normal scheduling protocols. If the provider indicates the appointment should be scheduled within a certain time frame, then an overbook may be required. For the scheduler, he or she should first look for an open appointment within the designated time frame, using an available appointment if one is available. Only overbook if no appointment is available. For example, if the provider says within two weeks, and there is an open appointment in 10 days, it would be inappropriate to overbook in six days when there is an open appointment available.
 - **No Show Notation**

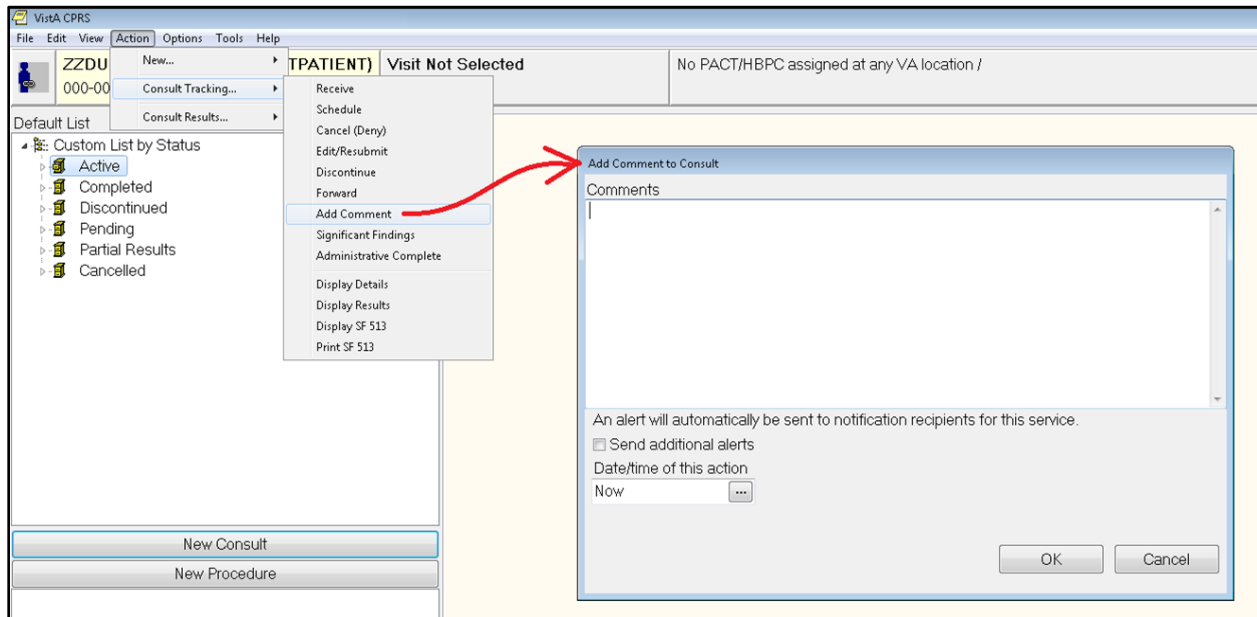

- **Schedule/Reschedule Routine Appointment**—this option is available here, but more likely would be used in the “Receive Consult” box described in more detail below.
- **Schedule/Reschedule w/in 1 mo (overbook OK)** —
- **Schedule/Reschedule w/in 2 wks (overbook OK)** —
- **Schedule/Reschedule w/in 1 wk (overbook OK)** —
- **Schedule/Reschedule, schedule on date (overbook OK)** —
- **Schedule/Reschedule, see scheduling order for scheduling instructions** —
- **Established pt., please schedule then discontinue consult** — the work flow here is important. It could be that something new has happened with the Veteran and the referring provider felt that an appointment was needed, or it could be that the referring provider didn’t realize the Veteran was already active with the clinic. If there is indeed something new going on with the Veteran, it would not be inappropriate to complete the consult as an e-consult, but in either case, the consult should result in a follow-up appointment. Typically, you’d select scheduling instructions above, and then instruct the scheduler to discontinue the consult once the follow up appointment has been scheduled.
- **Urgent requests booked > 7 days require chart review and attestation that non-urgent scheduling is appropriate.**
 - **Currently scheduled appointment appropriate**—this option is for STAT consults that are scheduled more than 7 days from the create date, but after clinical review, are felt to be appropriately timed. This step is extremely important for both STAT consults and those consults stop codes identified as Level 1 (“Important and Acute”) such as cardiology, radiology, oncology, etc. The VA is wanting to make sure that Veterans with high risk conditions receive timely care. Many consults in those high-risk specialties are for low risk problems, and this is how that is documented.
- **Additional comments and instructions**
 - **This consult may be D/C’d after mandated scheduling effort**—*this option would NOT typically be used*, as this is a comment, asking someone else to discontinue the consult in a separate step. It could be useful in the instance where a reviewer doesn’t have access to discontinue a consult.
 - **Scheduling plans discussed with ordering provider** – this selection is simply for the convenience of the reviewing provider to document the instance where they have discussed the case with the ordering provider. This allows them to easily document that conversation took place. It doesn’t have any significant ramifications with respect to consult processing.
- **Consults may be marked “High Risk” for tracking and extra scheduling effort**
 - **High Risk Consult –Extra scheduling effort warranted** — Consults may be flagged as high risk by the service line. Each service line should define what this means. There will be reportable separately, so they may be tracked with a higher level of scrutiny. Also, after a letter has been sent to Veteran, staff may continue

to attempt to reach the Veteran by phone during the 14 days after the letter was sent. Document of additional attempts is required.

To document the results of your review or other actions that need to be documented, follow the steps listed below:

1. From the **Action** menu, select **Add Comment**. The **Add Comment to Consult** dialog box displays.

Figure 89: Add Comment to Consult Dialog Box

2. In the **Comments** field, right-click and then select **Clinical Review Options**. The **Clinical Review Options** window opens.

OK

3. From the **Instructions for scheduling or rescheduling** section, select the instruction for consult.
4. From the **Urgent requests booked > 7 days require chart review and attestation that non-urgent scheduling is appropriate** section, select the **Currently scheduled appointment clinically appropriate** check box for STAT consults that are scheduled more than seven days from the create date, but after clinical review, are felt to be appropriately timed.
5. From the **Additional comments and instructions** section, select the appropriate option(s).
6. From the **Consults may be marked "High Risk" for tracking and extra scheduling effort** section, select the **High Risk Consult—Extra scheduling effort warranted** check box if the consult needs extra scheduling.
7. Click **OK**.

4.4.4. Launch DST

To launch Decision Support Tool (DST) from CTB, follow the steps listed below:

1. From the **Action** menu, select **Add Comment**. The **Add Comment to Consult** dialog box displays.

Figure 91: Add Comment to Consult Dialog Box

2. In the **Comments** field, right-click and then select **Launch DST**. The **Decision Support Tool Dashboard** opens.

Figure 92: Decision Support Tool Dashboard

The screenshot displays the Decision Support Tool Dashboard. The main content area is divided into several sections. At the top, it shows 'Consult: ADVANCED HEART FAILURE SLC'. Below this, patient information is listed: Name (DSTPatient, Any A), Residential Address (1234 Example Rd., West Branch, CO 97734), Date of Birth (Jan 18, 1938 (81)), and SSN (***-**-4567). There's a checkbox for 'Urgent Care Eligible' which is checked. The 'Clinical Service' section has a dropdown menu with 'Begin typing to filter'. The 'Urgency' section has radio buttons for 'Routine' (selected), 'Stat', and 'Special Instructions'. Below this, there are fields for 'Drive Time Std' (????), 'Wait Time Std' (????), 'CID/No Earlier Than Date' (08/13/2019), and 'No Later Than Date' (09/10/2019). The 'VA Facilities' section contains a message: 'Unable to determine the Clinical Service for this consult. Manual selection is required to determine Facilities, drive times, and wait times.' On the right sidebar, the 'Community Care' section shows 'Community Care Eligible based on' with a 'Grandfathered' status. Below this is a 'Best Medical Interest of Veteran' section with a dropdown for 'Select Justification'. At the bottom of the sidebar is the 'Veteran Community Care Option (required)' section with radio buttons for 'TBD/Deferred', 'Opt-in for CC', and 'Opt-out of CC'. At the bottom of the main content area, there's a message: 'To end your DST session without saving changes and return to CPRS, close this browser window.' and a blue 'Save' button.

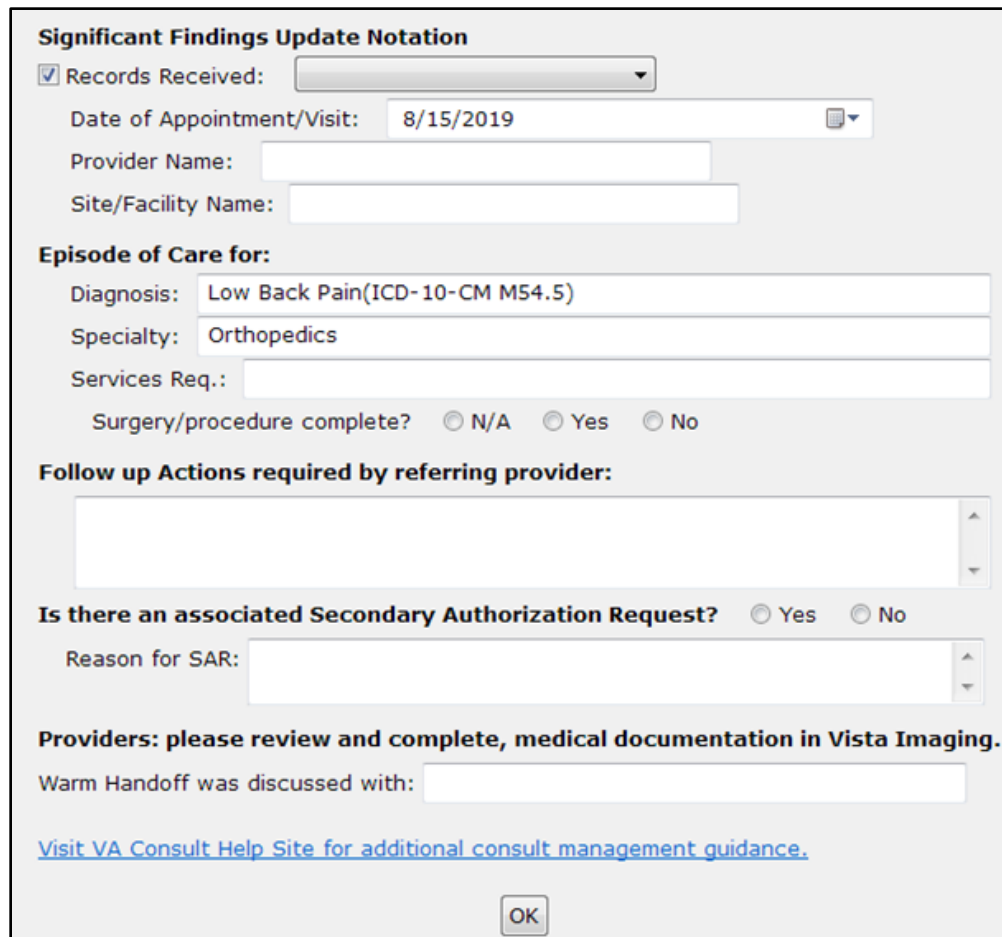

NOTE: For additional information regarding Decision Support Tool, please refer to the Care Coordination Decision Support Tool (DST) User Guide.

Authorized Use Only

4.5. Significant Findings – Community Care Action Needed Notation

Use this feature to flag significant findings for the ordering provider (e.g., test results are available). This box is used with the significant findings CPRS comment to alert the ordering provider of results received especially in the case where a follow up action is needed on the part of the VA provider.

Figure 93: Significant Findings Update

The form is titled "Significant Findings Update Notation". It contains several sections: "Records Received" with a checked checkbox and a dropdown menu; "Date of Appointment/Visit" with a text field containing "8/15/2019" and a calendar icon; "Provider Name" and "Site/Facility Name" with text input fields; "Episode of Care for:" section with "Diagnosis" (Low Back Pain(ICD-10-CM M54.5)), "Specialty" (Orthopedics), and "Services Req.:" (empty text field); "Surgery/procedure complete?" with radio buttons for "N/A", "Yes", and "No"; "Follow up Actions required by referring provider:" with a large text area; "Is there an associated Secondary Authorization Request?" with radio buttons for "Yes" and "No"; "Reason for SAR:" with a text area; a bold instruction "Providers: please review and complete, medical documentation in Vista Imaging."; "Warm Handoff was discussed with:" with a text field; a blue hyperlink "Visit VA Consult Help Site for additional consult management guidance."; and an "OK" button at the bottom.

- **Is there an associated Secondary Authorization Request (SAR)?**
 - **Yes**
 - **No**
 - **Reason for SAR**
- **Providers: please review and complete, medical documentation in VistA Imaging.**
 - **Warm Handoff was discussed with:**

To update significant findings for the ordering provider, follow the steps listed below:

1. From the **Action** menu, select **Consult Tracking...**, and then select **Significant Findings**. The **Significant Findings Update** window displays.

Figure 94: Significant Findings Update

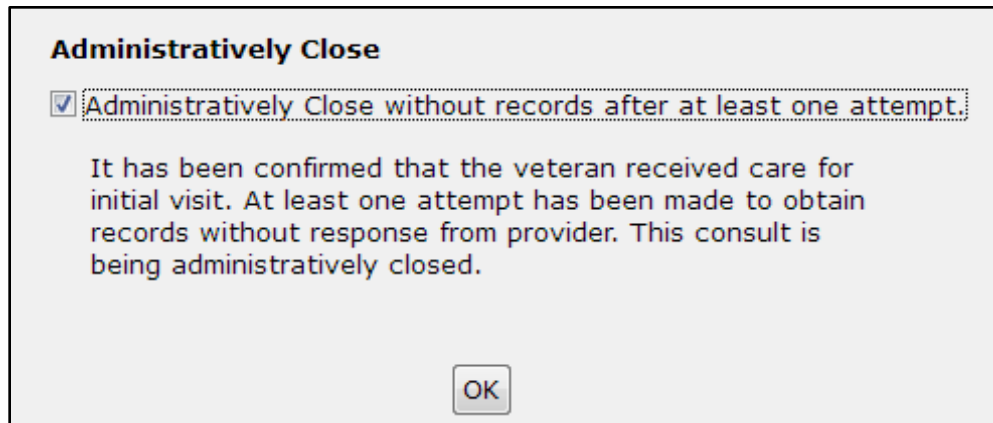

The form is titled "Significant Findings Update Notation". It contains several sections: "Records Received" with a checked checkbox and a dropdown menu; "Date of Appointment/Visit" with a date field showing "8/15/2019"; "Provider Name" and "Site/Facility Name" with text input fields; "Episode of Care for:" section with fields for "Diagnosis" (containing "Low Back Pain(ICD- 10-CM M54.5)"), "Specialty" (containing "Orthopedics"), "Services Req.:", and a radio button group for "Surgery/procedure complete?" with options "N/A", "Yes", and "No"; "Follow up Actions required by referring provider:" with a large text area; "Is there an associated Secondary Authorization Request?" with radio buttons for "Yes" and "No"; "Reason for SAR:" with a text field; "Providers: please review and complete, medical documentation in Vista Imaging." with a "Warm Handoff was discussed with:" field; a link to "Visit VA Consult Help Site for additional consult management guidance."; and an "OK" button at the bottom.

2. If the records were received, select the **Records Received** check box and select an option from the drop-down menu.
3. In the **Episode of Care for:** section, enter the diagnosis, specialty, services required, and if the surgery/procedure is complete.
4. In the **Follow up Actions required by referring provider:** section, enter the required actions.
5. Select if a Secondary Authorization Request is needed. If a Secondary Authorization Request is needed, enter the reason in the **Reason for SAR** field.
6. Enter the name of the individual that the warm handoff was discussed with in the **Warm Handoff discussed with:** field.
7. Click **OK**.

4.6. Administratively Close Consult

After one attempt to obtain records, a consult may be administratively closed. This will record that the consult was closed without records, which may be tracked.

Figure 95: Administratively Close

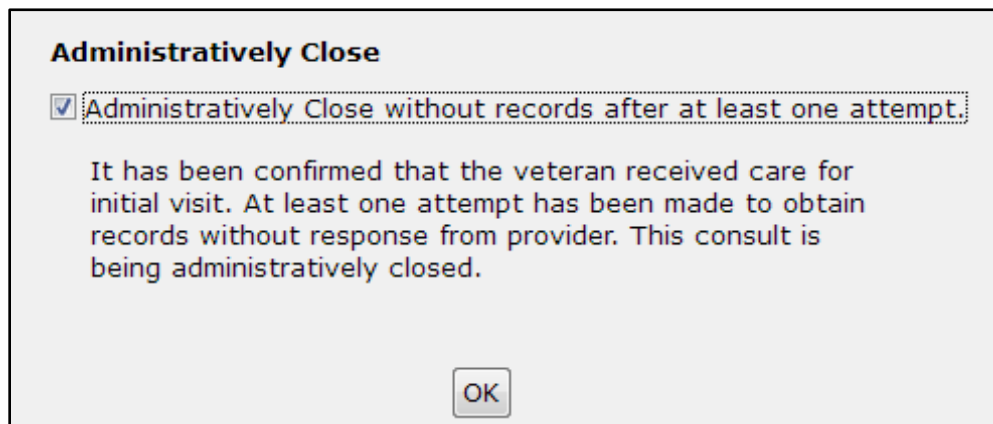

The dialog box is titled "Administratively Close". It contains a checked checkbox with the label "Administratively Close without records after at least one attempt." Below the checkbox is a paragraph of text: "It has been confirmed that the veteran received care for initial visit. At least one attempt has been made to obtain records without response from provider. This consult is being administratively closed." At the bottom center is an "OK" button.

Administratively Close without records after at least one attempt. — It has been confirmed that the Veteran received care for initial visit. One attempt has been made to obtain records without response from provider. This consult is being administratively closed.

To administratively close a consult, follow the steps listed below:

1. From the **Action** menu, select **Consult Tracking...**, and then select **Administrative Complete**. The **Administratively Close** dialog box displays.

Figure 96: Administratively Close Dialog Box

The dialog box is titled "Administratively Close". It contains a checked checkbox with the label "Administratively Close without records after at least one attempt." Below the checkbox is a paragraph of text: "It has been confirmed that the veteran received care for initial visit. At least one attempt has been made to obtain records without response from provider. This consult is being administratively closed." At the bottom center is an "OK" button.

2. Select the **Administratively Close without records after at least one attempt**. Check box to administratively close the consult. Selecting this check box confirms that that the Veteran received care for initial visit. One attempt has been made to obtain records without response from provider.
3. Click **OK**.

5. Troubleshooting

- If Consult Toolbox is not running in CPRS, the user will need to verify that Consult Toolbox is running in the system tray.
- If SEOC database is unavailable, a warning message will display notifying you that the SEOC Database cannot be reached for the most current SEOCs. SEOCs previously downloaded will still be available on the **Authorization** tab. Contact the NSD if no SEOCs are available.

5.1. National Service Desk and Organizational Contacts

For issues related to the Consult Toolbox that cannot be resolved by this manual or the site administrator, please contact the National Service Desk at 855-NSD-HELP (673-4357).
