1 Introduction

The Electronic Claims Management Engine (ECME) generates electronic claims in National Council for Prescription Drug Programs (NCPDP) V. D.0 formats, based on the Outpatient Pharmacy V. 7.0 workflow. ECME:

- Allows pharmacy claims processing staff to submit, resubmit, and reverse electronic claims;
- Provides reports for end users and management on claims status, transaction history, and system configuration standings;
- Allows Automated Data Processing Application Coordinator (ADPAC) and Information Resources Management Service (IRMS) staff to configure ECME to pharmacy site specifications.
- Allows Eligibility Inquiry and Verification transactions for verification of valid patient pharmacy insurance.

ECME claims processing begins when events within Outpatient Pharmacy V. 7.0 meet specific criteria, based on Integrated Billing (IB) V. 2.0 determination, that indicate the system should generate an electronic claim. To build a claim through ECME, several conditions must be met. First, the patient must be registered and have pharmacy prescription insurance coverage. Second, the patient must be a non-service connected patient or, if service connected; the prescription must not be for the service-connected condition. The patient must not have an environmental indicators condition, unless the patient is Active Duty. (If the patient is Active Duty, all prescriptions are billable). Finally, the drug must be billable. Logic embedded within ECME manages the creation of the electronic claim, which requires integration with IB V. 2.0, Pharmacy Data Management, and National Drug File (NDF) V. 4.0. ECME also generates claims during Consolidated Mail Outpatient Pharmacy (CMOP) V. 2.0 processing for prescriptions that meet billing requirements.

The Veterans Health Administration (VHA) developed ECME software in order to comply with the Health Insurance Portability and Accountability Act (HIPAA) of 1996 and updated it to comply with the HIPAA rule of 2009, which requires health care providers to transmit outpatient pharmacy prescription claims to payers electronically in the NCPDP format and to receive responses on a real-time basis. ECME is derived from the Point of Sale (POS) Application developed by the Indian Health Service (IHS) and is assigned to the BPS namespace.

The ECME User Manual helps users submit electronic claims, aids ADPAC and IRMS staff in configuring ECME to pharmacy site specifications, and is a reference manual for all screens and options within ECME. While the ECME User Manual does explain how to use the Electronic Management Claims Engine, it is not intended to show how ECME interacts with Outpatient Pharmacy V. 7.0, IB V. 2.0, the Austin Information Technology Center, and other software packages to build, submit, receive, and process an electronic claim.

The ECME User Manual assumes that you are familiar with the VistA computing environment, including the Outpatient Pharmacy V. 7.0 workflow and the Department of Veterans Affairs (DVA) FileMan data structures and terminology.

The ECME User Manual consists of the following sections.

- **ECME Introduction:** Outlines the history, use, and intent of the ECME software.
- **ECME Orientation:** Shows how to use the menus and options to generate an electronic claim, obtain online help, and find related manuals.
- **ECME Menu Structures:** Lists the complete ECME menu structure. It also lists the ECME User, Manager, and Reports menus.
- **Accessing the ECME Menu:** Describes how to gain access to the ECME main Menu.
- **Accessing the ECME User Screen:** Describes the elements of submitting pharmacy claims to insurers through the ECME system.
- **Accessing the ECME PHARMACY COB menu:** Describes the elements of submitting pharmacy claims to secondary insurers and submitting TRICARE claims.
- **Accessing the Pharmacy ECME Manager Menu:** Describes electronic claims management features that require management level decisions.
- **Accessing the Pharmacy Electronic Claims Reports:** Describes the reports generated by ECME.
- **ECME Background Jobs:** Describes the tasks performed by the Nightly Background Job.
- **Glossary:** Defines common ECME-related terms.
- **Acronyms:** Lists ECME-related acronyms.
- **Index:** Lists subjects, options, and menus alphabetically.

2 Orientation

2.1 Working with the ECME User Manual

The Electronic Claims Management Engine (ECME) User Manual is a menu- and option-oriented manual. In most cases, the manual describes a menu or option, shows how to access it, and uses tables and screen shots to describe its fields.

The ECME User Manual uses the following methods to enhance readability.

- Menu options and screen actions are italicized.
Example: The *Add Pharmacy/OPECC Comment* action triggers the system to display the Pharmacy/OPECC Comment on the ECME User Screen.
- Screen prompts are denoted with quotation marks around them.
Example: The “Select Action:” prompt will display next.
- Variable names, formal name of options, field and file names, and security keys are completely uppercase.
- **Example:** The BPS USER key.
- Screen captures/dialogues are shaded and shown in a non-proportional font.
 - (A) User responses to online prompts are in boldface type.
 - (B) **Example:**

 - (C) **<Enter>** indicates you must press the Enter key (or Return key) on the keyboard to proceed to the next prompt. Other keys are represented within < > angle brackets.

Example:

- The following symbols alert you to special information.

Symbol	Description
	Cautions you to notice critical information.
	Indicates especially important or helpful information.
	Indicates that you must hold a particular security key to perform a specific task. Example:  You must hold the BPS MANAGER and BPS MENU keys to access the <i>Pharmacy ECME Manager Menu</i> options.

2.2 Obtaining Online Help

The ECME software provides online help and commonly used system default prompts. You can enter question marks at any response prompt. At the end of the help display, VistA (Veterans Health Information Systems and Technology Architecture) immediately returns you to the point from which you started.

To retrieve Online Help in any VistA character-based product:

- Enter a single question mark (?) at a field/prompt to obtain a brief description:
 - (A) If a field is a pointer, entering one question mark (?) displays the HELP PROMPT field contents and a list of choices, if the list is short.
 - (B) If the list is long, the system will ask you if the entire list should be displayed. A Y(ES) response will invoke the display. By prefacing the starting point with an up-arrow (^) as a response, you can give the display a starting point. For example, ^M starts an alphabetic listing at the letter M instead of the letter A while ^127 starts any listing at the 127th entry.
- Enter two question marks (??) at a field/prompt for a more detailed description. If a field is a pointer, entering two question marks displays the HELP PROMPT field contents and the list of choices.
- Enter three question marks (???) at a field/prompt to invoke any additional Help text stored in Help Frames.

3 ECME Menu Structures

This section provides a map of the Electronic Claims Management Engine (ECME) menu structure including a list of all options. ECME is a menu-driven system that allows access based on the security keys that you hold.

Currently, ECME has the following security keys: BPSMENU, BPS USER, BPS MANAGER, BPS MASTER, BPS SUPERVISOR, and BPS REPORTS. All users must have the BPSMENU key in addition to the specific keys listed below.

The following table lists the type of users who would need access to a specific menu and the ECME Security Keys you must hold in order to access a particular ECME menu. For example, the OPECC (Outpatient Pharmacy Electronic Claims Coordinator) would need access to all ECME menus, while a Pharmacy Technician might only need access to the Main Menu, ECME User Screen, and Reports menus.

Table 3-1: List of Users with Suggested ECME Menus and Security Keys

3.1 The Complete ECME Menu Structure

The complete list of ECME menu options is shown below. The OPECC needs to access all ECME options.

You must hold the BPSMENU and BPS MANAGER keys to view the *Pharmacy ECME Manager Menu* option. The BPS MASTER key is also required to view the *Edit ECME Pharmacy Data (PHAR)*, *Pharmacy ECME Setup Menu (SET)*, *Edit Basic ECME Parameters (BAS)*, and *Register Pharmacy with Austin Information Technology Center (REG)* options.

4 Accessing the ECME Main Menu

The *Electronic Claims Management Engine Main Menu* option is usually accessed through the *Core Applications Menu*.

You must hold the BPSMENU key to view the Electronic Claims Management Engine (ECME) Main Menu.

5 Accessing the ECME User Screen

The *ECME User Screen* provides access to pharmacy claims that have been submitted electronically to third party payers/Pharmacy Benefit Managers (PBM). This option allows you to review, close, reverse, or resubmit electronic claims.

From the ECME User Screen you can access additional actions needed to process electronic pharmacy claims, including the *Further Research* action, which allows you to research insurance, eligibility and prescription information.

You must hold the BPSMENU AND BPS USER key to view the ECME User Screen option.

This screen is accessed by selecting the **U** (ECME User Screen) option on the ECME Main Menu screen.

The screen will display nothing the first time you enter this menu option. Select the Change View option, **CV**, as in section 5.1, and specify preferences to be displayed on the screen. The system will then default to these settings and display current information about active patients and prescriptions for the timeframe requested.

The status is displayed only for those fill lines (claims) that represent the most recent fill. If there is more than one fill for the same prescription within the time frame requested in the ECME User Screen parameters, the previous fill/claim is indicated with "***" instead of Rx status, and the most current fill will display the RX status. If a fill has been created and put on suspense, the screen displays "***".																				

	<i>User-Input Comments</i>	The system allows the ECME user to enter comments for any claim displayed on the ECME User Screen. The most recent comment is displayed under the Prescription Information line. If a claim has been resubmitted since the most recent comment, a message displays in place of the most recent comment: "Prior comments suppressed – use CMT action for all comments".
	<i>Payer Returned Responses</i>	The Payer Returned Response information is displayed beneath the user-input comments or beneath the patient information line, if no comments were entered. Each response will begin on a separate line. Valid payer-returned responses include Rejected (with a National Council for Prescription Drug Programs (NCPDP) rejection code described in the ePharmacy Rejects & Resolutions Guide on the e-Pharmacy Training Home Page , with additional lines of descriptive error messages), Payable, Reversal Accepted, Reversal Rejected, Stranded, Stranded reversal, Captured, Duplicate, Other, Cancelled, Corrupt, Unknown status and In Progress. If a claim is closed, "Closed" is added to the status, e.g., "Reversal accepted/Closed".
Message Window	This section displays a plus (+) sign, minus (-) sign or informational text (i.e., Enter ?? for more actions). The plus and minus signs, entered at the action prompt, are used to jump forward or back a screen.	
Action Area	A list of <i>Claims Data Entry</i> options is available to you as described in Section 5 of this manual. A double question mark (??) may be entered at the "Select Action" prompt for a list of all List Manager options available.	

	An option chosen at the patient information level is performed on all claim items for that patient.
---	---

The ECME User Screen also displays non-billable entries in addition to billable claims. TRICARE and CHAMPVA prescriptions with pseudo-rejection codes of eT and eC display with a few differences. The display for non-billable entries does not include date of service or an ECME number. Also, an open/closed indicator displays for each pseudo-rejection entry and the open/closed status is only for display purposes. The user is able to filter based on the status by using the Change View action.

The ECME User Screen has several actions that help you navigate it, as shown below. Actions are entered at the "Select Action" prompt by typing the synonym for the action (e.g., **CV** for *Change View*), the first unique letter(s) of the action name (e.g., **CL** for *Close*) or the full name of the action (e.g., **Sort List** for *Sort List*).

Example 5-2: List of all ECME User Screen Actions

CV	Change View	REV	Reverse Payable Claim
SO	Sort List	RES	Resubmit Claim
CMT	Add/View Comments	CLO	Close Claim
		FR	Further Research

List Manager provides generic actions applicable to List Manager Screens. A double question mark (??) may be entered at the "Select Action" prompt for a list of other actions available. Entering the synonym is the quickest way to select an action.

Example 5-3: Displaying List Manager Actions by Entering “??”

Enter RETURN to continue or '^' to exit:

The following actions are not available for non-billable entries: REV Reverse Payable Claim, CLO Close Claim, LOG Print Claim Log, WRK Send to Worklist, ROC Reopen Closed Claims, RED Resubmit Claim w/EDITS, RER Resubmit Claim w/o Reversal, and RH Release Copay (On FR Further Research).

After selecting an action, a prompt may display for the user to select an item from the ECME User screen. If the action requires the user to select a patient line, the system will default a value of 1 for the item prompt if there is only one patient displayed. If the action requires the user to select a claim line, the system will default a value of 1.1 for the prompt if there is only one claim displayed.

5.1 Change View

The *Change View* action allows you to customize information you want to see displayed on the ECME User Screen.

The action is accessed by entering **CV** at the “Select Action:” prompt on the ECME User Screen. The system gives you the option to “SAVE” these selections as your “preferred view”.

5.2 Sort List

The *Sort List* screen action allows you to customize the sort order of data displayed on the ECME User Screen.

Sort Order (Defaults);

T	Transaction Date/Time	(descending)
D	Division	(ascending)
I	Insurance Company	(ascending)
C	Reject Code	(ascending)
P	Patient Name	(ascending)
N	Drug Name	(ascending)
B	Bill Type [BB/P2/RT]	(ascending)
L	Fill Location	(ascending)
R	Released/Non-Release	(ascending)
A	Active/Discontinued Rx	(ascending)

	<ul style="list-style-type: none"> Transaction Date/Time (descending) is the secondary sort for ALL primary sort selections. Sorting is by PATIENTS (not claims), based on the date/time of their most recent transaction. Active/Discontinued Rx option sorts claims by the Rx status.
---	---

Access this action by entering **SO** at the “Select Action:” prompt on the ECME User Screen. The system will give you the option to “SAVE” these selections as the User’s “Preferred View”.

5.3 Reverse Payable Claim

The *Reverse Payable Claim* action allows a user to submit a claim reversal request to the insurer for a claim that was returned as “Payable” or “Reversal Rejected”. A primary claim cannot be reversed if there is a payable secondary claim. The secondary claim must be reversed before the primary claim can be reversed.

Claims that have been closed will be displayed with “/Closed” after the status. Closed claims cannot be reversed until they are first reopened. If you attempt to reverse a claim that is closed, a message is displayed telling you that the claim “is Closed and cannot be Reversed. Reopen the claim and try again.”

Access the action by entering **REV** at the “Select Action:” prompt on the ECME User Screen.

- (D) The system asks if you are sure you want to continue with the transaction. You can answer **Y** or **N**. If you type in **Y**, the claim reversal request is submitted.

Example 5.3-5: Entering “Y” to Continue Claim Reversal Request

Enter REQUIRED REVERSAL REASON: Drug is only billable through CMOP
Are you sure?(Y/N)? **YES**

- (E) The system asks if you want to mark the claim as non-billable in Claims Tracking, and therefore release the patient copay (if any). Enter **Y** or **N**. If you enter **Y**, you will be prompted for a Claims Tracking Non-Billable Reason and a Comment. If the reversal is accepted by the payer, the ECME claim will be closed and a close event will then be sent to IB with the non-billable reason and comment provided by the user. IB should mark the episode as non-billable and release the first-party copay.

5.4 Resubmit Claim

The *Resubmit Claim* action sends a claim reversal request to the insurer, followed by a new claim for the same prescription, with the new or updated data for these conditions:

- If the claim was initially returned as “Payable”, the system sends a claim reversal request. If the payer “Accepts” the reversal request, the claim resubmission is sent. If the payer “Rejects” the reversal request, the claim is NOT resubmitted.
- If the claim was initially returned as “Rejected” or non-billable, the system immediately sends the claim submission to the payer and the reversal request is NOT sent.

The Resubmit action is accessed by entering **RES** at the “Select Action:” prompt on the ECME User Screen.

(A) You are prompted for the line item(s) of the claim to be resubmitted.

	<p>You may also submit multiple line items separated by commas (e.g. “1.1,1.2”), or a range of line items separated by a hyphen (e.g. “1.1-1.3”).</p>

Example 5.4-2: Entering the Line Item for the Claim Resubmission Request

Enter the line numbers for the claim(s) to be resubmitted.
Select item(s): 1.5

Claims that have been closed will be displayed with “/Closed” after the status. [Closed claims cannot be resubmitted until they are reopened](#). If you attempt to resubmit a claim that is closed, a message is displayed telling you that you cannot resubmit.

Example 5.4-3: Resubmitting a Closed Claim

```
You've chosen to RESUBMIT the following prescription

The primary claim cannot be resubmitted if there is a payable secondary claim. In these cases, you must reverse the secondary claim.

If you attempt to resubmit a primary claim when there is a payable secondary claim, you will see the following message, which will discontinue the claims resubmission process.

Example 5.4-4: Entering the Line Item for a Claim that has a Payable Secondary Claim

Please reverse the secondary claim first.
```

(B) Otherwise, the system redisplay the line item for resubmission, then asks if you are sure you want to continue with the transaction. You can enter Y or N. If you answer Y, the claim resubmission process continues.

Example 5.4-5: Entering “Y” to Continue Claim Resubmission Request

```
You've chosen to RESUBMIT the following prescription for ECMEpatient,One

(C) ECME will allow multiple submissions of the same prescription and fill to be placed on the request queue at the same time. The ECME engine will process all requests in the order that they are received. Note that even though a request may be placed on the queue, whether or not it is processed will depend on the outcome of the previous request. For instance, if there are two entries on the queue and the second is requesting a reversal, it may not be processed if the previous request comes back with an E REVERSAL ACCEPTED status. If there is already a submission in the queue for this prescription and fill, a message is displayed and you are asked if you want to proceed.

Example 5.4-6: Entering “Y” to Place Multiple Submissions in the Queue

The claim is in progress. The request will be scheduled and processed after the previous request(s) are completed. Please be aware that the result of the resubmit depends on the payer's response to the prior incomplete requests.
Do you want to proceed?(Y/N)? **y** YES

(D) The claim resubmission request is submitted and the progress is displayed.

5.5.1 Variations to the Close claim process.

If the Non-Billable Reason selected is “OTHER”, the system prompts you with two choices: ”NON-BILLABLE” or “DROP TO PAPER”.

- If you select **(N)**ON-BILLABLE EPISODE, the Claims Tracking entry displays the Billable Episode flag = “N” with the Non-Billable Reason that you selected. Note that Billable Episode flag will be changed back to "Y" if a secondary claim is later generated and is returned as payable.
- If you select **(D)**ROP TO PAPER, the system stores the selected Non-Billable Reason in the Close Claim Comments, updates the Claims Tracking entry to display the Billable Episode flag = “Y”, creates the next bill date as T+1 and stores Claims Tracking comments including the initial Non-billable Reason. The next scheduled billing run will pick up this bill as long as the prescription has been released.

5.5.2 Special Notes regarding secondary claims

If a primary claim is successfully closed and there is secondary insurance for that claim, a secondary insurance notification is displayed so that the user will know to bill the secondary payer.

Example 5.5.2-1: Secondary Insurance Notification

This patient has ADDITIONAL insurance with Rx Coverage that may be used to bill this claim. The system will change the CT entry to a NON-BILLABLE Episode. If appropriate, please go to the ECME Pharmacy COB menu and use the PRO - Process Secondary/TRICARE Rx to ECME option to create an ePharmacy secondary claim.

5.6 Add/View Comments

The system allows the ECME user to enter comments for any claim displayed on the ECME User Screen. There are two types of comments that can be added: OPECC Comments and Pharmacy/OPECC Comments. More details are in paragraph B. below. The most recent comment will be displayed under the Prescription Information line. If a claim has been resubmitted, a message displays in place of the most recent comment: "Prior comments suppressed – use CMT action for all comments". The message indicating the prior comments were suppressed is not captured in CMT Add/View Comments.

- (A) Access this action by entering **CMT** at the "Select Action:" prompt on the ECME User Screen. The system prompts you for a line selection to identify the line item(s) to contain a comment. You are allowed to select more than one claim to add the same comment to or can select the patient summary line to add the same comment to all claims that are listed under this patient.

(E) Comments can also be generated automatically by the system. The Outpatient Pharmacy system allows prescriptions with specified claim rejections to be sent to the Pharmacy Worklist automatically. There are two types of user-defined rejections for Veteran prescriptions: (1) Transfer Rejects, and (2) Reject Resolution Required Rejects. The Transfer Reject comment is “Auto Send to Pharmacy Worklist due to Transfer Reject Code” and the Reject Resolution Required Reject comment is “Auto Send to Pharmacy Worklist due to Reject Resolution Required”. In addition, TRICARE and CHAMPVA prescriptions are sent to the Pharmacy Worklist if the claim is rejected for any reason. The TRICARE and CHAMPVA comment is “Auto Send to Pharmacy Worklist & OPECC - CVA/TRI”.

5.7.7 On Hold Copay Listing

This option lists On Hold copay information for a single patient. The **OH** action allows you to access the *List Current/Past Held Charges by Pt* option, located on the On Hold Menu (which is located on the Automated Means Test Billing Menu) in Integrated Billing software.

The *On Hold Copay Listing* requires that a device with 132 column width be used. It will not display correctly using 80 column width devices.

(A) Enter the **OH** action and then enter a single patient line item to access the *On Hold Copay Listing* option.

Example 5.7.7-1: Accessing On Hold Copay Listing Option

5.09 Send to Worklist

The *Send to Worklist* action allows you to send rejected claims to the Pharmacy Worklist. Depending on Pharmacy settings, all or only claims with certain reject codes may be sent to the Pharmacy Worklist from the ECME User Screen.

Claims that have been closed will be displayed with “/Closed” after the status. Closed claims cannot be sent to the Pharmacy Work List. If you attempt to resubmit a claim that is closed, a message is displayed telling you that the claim “is closed and cannot be sent to the Pharmacy Work List”.

(A) Enter **WRK** at the Select Action prompt, and a single line item for the claim you wish to send.

Example 5.09-1: Accessing the Send to Worklist Option, and Entering a Line Item.

5.11 Resubmit with Edits (hidden action)

The *Resubmit with Edits* hidden action allows you to edit previously rejected electronic pharmacy claims and to resubmit them with the edited information. The data fields that can be edited to enable resubmission are the Pharmacy Relationship Code, Pharmacy Person Code, Prior Authorization Number, Prior Authorization Type Code, up to three Submission Clarification Codes (if the conditions explained below do not exist), Date of Service, Patient Residence Code, Pharmacy Service Type Code and/or Delay Reason Code. (The Date of Service prompt is only asked if the prescription has been released.) If the claim selected is for secondary insurance, the Coordination of Benefits information can also be edited.

The relationship code describes the relationship this patient has to the holder of this insurance policy. The standard NCPDP Patient Relationship Code list follows. However, it is important to note that some payers use their own set of codes for this field, so the field should be populated based upon the payer's expectations.

- 0 Not Specified
- 1 Cardholder
- 2 Spouse
- 3 Child
- 4 Other

The Person Code is the specific person code assigned to the patient by the payer. The Prior Authorization number is the number submitted by the provider to identify the prior authorization. For more information on the Coordination of Benefits fields, see the [Process Secondary/TRICARE Rx to ECME](#) section of this document.

The Submission Clarification Code cannot be edited if either of these conditions exists:

- An unresolved reject is on the pharmacists' worklist
- A resolved reject of RTS (79-Refill Too Soon) or DUR (88-Drug Utilization Review) is from the last claim response.

If neither condition exists, the Submission Clarification Code is editable. If either condition exists, the Submission Clarification Code prompt is bypassed and a message is displayed on the screen indicating the field cannot be edited.

5.13 Resubmit Claim Without Reversal (hidden action)

The *Resubmit Claim w/o Reversal* action resubmits a claim to the insurer without submitting a reversal first, regardless of the VistA claim status. This action should be used in instances where the payer shows the claim was reversed and VistA shows a payable claim. This action is not available if any non-cancelled bill exists..

The action is accessed by entering **RER** at the “Select Action:” prompt on the ECME User Screen.

Example 5.13-1: Accessing and Executing the Resubmit Claim W/O Reversal Action

Select Action: Next Screen// RER RER Resubmit Claim w/o Reversal

(A) You are prompted for the line item(s) of the claim to be resubmitted.

	You may also submit multiple line items separated by commas (e.g. “1.1,1.2”), or a range of line items separated by a hyphen (e.g. “1.1-1.3”).
---	--

Example 5.13-2: Entering the Line Item for the Claim Resubmission Request

Note: This action will resubmit claims without performing a reversal.

This action should be used in instances where the payer shows the claim was reversed and VistA shows a payable claim. This action will NOT submit a reversal regardless of the current VistA claim status.

Enter the line numbers for the claim(s) to be resubmitted w/o reversal.
Select item(s):

(B) The system redisplay the line item for resubmission, then asks if you are sure you want to continue with the transaction. You can enter Y or N. If you answer Y, the claim resubmission process continues.

Example 5.13-5: Entering “Y” to Continue Claim Resubmission Request

(C) ECME will allow multiple submissions of the same prescription and fill to be placed on the request queue at the same time. The ECME engine will process all requests in the order that they are received. If there is already a submission in the queue for this prescription and fill, a message is displayed and you are asked if you want to proceed.

Example 5.13-6: Entering “Y” to Place Multiple Submissions in the Queue

The claim is in progress. The request will be scheduled and processed after the previous request(s) are completed. Please be aware that the result of the resubmit depends on the payer's response to the prior incomplete requests.
Do you want to proceed?(Y/N)? **y** YES

(D) The claim resubmission request is submitted and the progress is displayed.

5.14 Open/Close Non Billable Entry (hidden action)

The *Open/Close Non Billable Entry* action marks a non-billable entry as open or closed. The action only applies to non-billable entries, not claims that have been submitted to a third party payer.

The action behaves like a toggle. If the entry is currently Open and the action is selected, the user will Close the entry. If the entry is currently Closed and the action is selected, the user will Open the entry.

The action is accessed by entering **OCN** at the “Select Action:” prompt on the ECME User Screen.

Example 5.14-1: Accessing and Executing the Open/Close Non Billable Entry Action

```

6.1 Potential Secondary Rx Claims Report

The *Potential Secondary Rx Claims Report* is designed to help the OPECC (Outpatient Pharmacy Electronic Claims Coordinator) to identify potential Rx claims for a secondary insurance payer with pharmacy coverage, including both electronic and paper. This report will include prescription claims where the primary claim is payable or the primary claims has been rejected and closed. Below are some scenarios where a claim will not appear on the report:

- A prescription where the secondary claim is closed in ECME.
- A prescription where the secondary claim is payable in ECME.
- A prescription where the primary payer paid the full amount as there is no more revenue to collect from any other payers.

If a claim is determined to be electronically billable, the OPECC accomplishes this through the *Process Secondary/TRICARE Rx to ECME* option. If the claim must be billed in paper format, the OPECC follows the current procedures for initiating a secondary bill with the billing staff.

- (A) Access the *Potential Secondary Rx Claims Report* by entering **SEC** at the “ECME Pharmacy COB Option:” prompt on the ECME Pharmacy COB Menu.

6.2 Potential Claims Report for Dual Eligible

The *Potential Claims Report for Dual Eligible* attempts to identify potential pharmacy claims for TRICARE and CHAMPVA payers. This report includes prescriptions that have been released, but have not yet been billed for any patient with dual eligibility (e.g. Veteran, CHAMPVA and TRICARE) who has an active insurance plan with pharmacy coverage and a Type of Plan of TRICARE or CHAMPVA. If the Claims Tracking entry for the specific prescription/fill is identified as being non-billable, then it will not appear on this report.

If a claim is determined to be electronically billable, the OPECC can submit the prescription through the [Process Secondary/TRICARE Rx to ECME](#) option.

- (A) Access the *Potential Claims Report for Dual Eligible* by entering **TRI** at the “ECME Pharmacy COB Option:” prompt on the ECME Pharmacy COB Menu.

6.3 Process Secondary/TRICARE Rx to ECME

The *Process Secondary/TRICARE Rx to ECME* option allows the OPECC to submit claims for prescriptions/refills that were entered for Secondary claims, TRICARE patients or patients with dual eligibility (e.g. Veteran and TRICARE). These claims are identified using the Potential Secondary Rx Claims Report and Potential Claims Report for Dual Eligible.

This option submits the claim to the third party payer. Any further processing on the claim must then be done through the actions available on the ECME User Screen.

When processing a claim for TRICARE, CHAMPVA and dual eligibility patients, users will be asked for the patient's name, the fill/refill number from the list provided, and an appropriate billing Rate Type. If the user selects a CHAMPVA Rate Type (CHAMPVA or CHAMPVA REIMB. INS.), the claim will be processed as a CHAMPVA claim. If the user selects a TRICARE Rate Type (TRICARE or TRICARE REIMB. INS.), the claim will be processed as a TRICARE claim. If the user selects a Reimbursable Insurance type, it will be processed as a regular non-TRICARE and non-CHAMPVA claim. The Date of Service is determined based on the date of service algorithm used in Outpatient Pharmacy.

Claims can also be resubmitted using the *Process Secondary/TRICARE RX to ECME* option. Secondary Claims that are rejected by insurance companies because of missing or incorrect data received, or Primary Claims that have been rejected or reversed, may be resubmitted. This option is not intended to use for Payable claims. Payable claims must be reversed using the Reverse Payable Claim Action on the ECME User Screen before they can be resubmitted via this option. Information previously entered for the claim will appear as the defaults.

You must hold the BPSUSER key to use the *Process Secondary/TRICARE Rx to ECME* option.

- (A) Access the *Process Secondary/TRICARE Rx to ECME* option by entering **PRO** at the "ECME Pharmacy COB Option:" prompt on the ECME Pharmacy COB Menu.

7.1.1 View/Unstrand Submissions Not Completed

This option provides you with options to override any current transmission status of claims that have not reached the point of completion to a status of “Done”.

When a claim is unstranded via this option, the status of the claim is changed to ‘E UNSTRANDED’ for billing requests and ‘E REVERSAL UNSTRANDED’ for reversals. This status message is displayed on the ECME User Screen, the Further Research menu, the Developer Log action of the ECME user screen, and the Recent Transaction report.

Even though you perform the *View/Unstrand Submissions Not Completed* option, the final adjudicating payer claim status of either 'Payable' or 'Rejected' will not be known unless further action is taken on the claim. This will require manual intervention for the claim to be resubmitted to the adjudicating payer after this option is run.

(A) Enter **UNS** at the “Select ECME transaction maintenance options Option:” to access the unstrand options.

Example 7.1.1-1: Accessing the View/Unstrand Submissions Not Completed Option

```
UNS      View/Unstrand Submissions Not Completed
ROC      Re Open CLOSED Claim

Select ECME transaction maintenance options Option: UNS  View/Unstrand
Submissions Not Completed

Please be aware that if there are submissions appearing on the ECME User Screen
with a status of 'In progress - Transmitting', then there may be a problem
with HL7 or with system connectivity with the Austin Automation Center (AAC).
Please contact your IRM to verify that connectivity to the AAC is working
and the HL7 link BPS NCPDP is processing messages before using this option
to unstrand submissions with a status of 'In progress - Transmitting'.

Do you want to continue? NO//
```

(B) You will be prompted for a date range to display all stranded claims. The system will accept a date range with or without a time attached to it.

- **First Transaction Date:** If a date only is entered for a start date, the system will assume the start date is the date entered and the time will be the beginning of the 24 hour clock (.0001) otherwise the system will accept the entered time parameter.
- **Last Transaction Date:** If a date only is entered for the ending date range, the system will assume the ending of a 24 hour clock (.2359) except if you enter the current date. If you enter today's date as the ending date of the date range, the system will automatically assign the ending time to be 30 minutes prior to the current time to ensure that you do not interrupt any transmissions that may be currently processing.

7.2 Pharmacy ECME Setup Menu

The *Pharmacy ECME Setup Menu* option allows the ADPAC or IRMS to configure ECME to VAMC specifications.

You must hold the BPSMENU, BPS MANAGER, and BPS MASTER keys to view the *Pharmacy ECME Setup Menu (SET)* option.

Access the menu by entering “**SET**” at the “Select Pharmacy ECME Setup Menu Option:” prompt in the *Pharmacy ECME Manager Menu* option.

Example 7.2-1: Accessing the Pharmacy ECME Manager Menu Option

7.2.1 Edit Basic ECME Parameters

The *Edit Basic ECME Parameters* option allows the ADPAC or IRMS to determine how data will be input to ECME.

	<p>This option should not be used after the initial setup unless any of the information changes for the pharmacy.</p>
---	---

Access the menu by entering **BAS** at the “Select Pharmacy ECME Setup Menu Option:” prompt in the *Pharmacy ECME Setup Menu* option.

Example 7.2.1-1: Accessing the Edit Basic ECME Parameters Option

```

*****
*Electronic Claims Management Engine (ECME) V1.0*
*                XXXXXX VAMC                *

*****

BAS      Edit Basic ECME Parameters
PHAR     Edit ECME Pharmacy Data
REG      Register Pharmacy with Austin Information Technology Center

Select Pharmacy ECME Setup Menu Option: BAS Edit Basic ECME Parameters

```

The Edit Basic ECME Parameters option allows you to enter/edit the number of seconds that the Outpatient Pharmacy application waits for a response to come back from the third party payer. As delivered, the system will have a default timeout of 10 seconds but it is up to each site to determine how long their pharmacists wait for a response from the payer. The ECME timeout can be populated once the system is installed. After this amount of time has passed, claims processing will continue but you will not see messages indicating the process.

This option will prompt for the Default Eligibility Pharmacy. Once entered, this Pharmacy will be placed on the NCPDP Eligibility Verification request when it is initiated by the new option in IB.

	<p>One important reason for this is DUR (Drug Utilization Review) /79 rejects. If the payer indicates that there is a problem with the drug (e.g., overdose), the pharmacists will have to act on that response.</p>
---	--

This option also allows you to set the “Insurer Asleep” interval time and number of retries. The Insurer Asleep Interval parameter allows an input between 0 and 29 minutes with a default of 20. The Insurer Asleep Retries parameter allows an input between 0 and 99 retries with a default of 10. If either the Insurer Asleep Interval or the Insurer Asleep Retries parameter is set to 0, the functionality will be disabled. If the user does disable this functionality, any claims that are in an Insurer Asleep state will automatically be resubmitted to the payer.

Occasionally, Emdeon or the third-party payer will return a reject code indicating that the destination system is not available. As one example, the third-party payer may be down for regular system maintenance and any claims submitted during this time will be rejected. When this situation does occur, Emdeon or the third-party payer will generally return one or more of the NCPDP system processing reject codes shown in the table below. These reject codes are automatically resubmitted by ECME at the intervals specified in the “insurer asleep” parameter.

Reject Code	Explanation
90	Host Hung Up
91	Host Response Error
92	System Unavailable/Host Unavailable
95	Time Out
96	Scheduled Downtime
97	Payer Unavailable
98	Connection To Payer Is Down

Example 7.2.1-2: Entering Edit Basic ECME Parameters

```

```

7.2.2 Edit ECME Pharmacy Data

The *Edit ECME Pharmacy Data* option enables pharmacy users to edit specific parameters that affect the electronic submission of third party prescription claims. The pharmacy site will use this option to control whether the transmission of prescriptions to the CMOP dispensing site will automatically submit electronic third party prescription claims to the insurance payers. This option is also where the pharmacy site will set the parameter of how many days will pass before a reversal is automatically processed for a non-released prescription.

You must hold the BPS MASTER key to view the Edit Basic ECME Parameters (BAS), Edit ECME Pharmacy Data (PHAR), and Register Pharmacy with Austin Automation Center (REG) options.

Access the option by entering **PHAR** at the “Select Pharmacy ECME Manager Menu Option:” prompt in the *Pharmacy ECME Manager Menu* option.

The following table describes the Edit ECME Pharmacy Data option fields:

Table 7.2.2-1: Description of Edit ECME Pharmacy Data Option Fields

Entry	Description
BPS PHARMACIES NAME	Pharmacy in a specific VAMC (Department of Veterans Affairs Medical Center) database. The pharmacy user may enter a new BPS pharmacy, which must be 3-30 alphabetical characters.
NAME	Display-only field that displays the full pharmacy name entered.
NCPDP #	A 7-digit number assigned to the specified pharmacy by the National Council for Prescription Drug Programs (NCPDP). It is also known as NABP.
NPI	National Provider Identifier. A 10-digit number required by the Health Insurance Portability and Accountability Act of 1996 (HIPAA) to identify individual and organizational providers, such as outpatient sites. The NPI has a usage requirement date beginning May 23, 2008.
STATUS	The status of the BPS Pharmacy is either ACTIVE or INACTIVE. The STATUS of the pharmacy may be revised through the Register Pharmacy with Austin Information Technology Center option.
OUTPATIENT SITES	One or more Outpatient Sites (from File 59) may be linked with a single BPS Pharmacy entry. However, an Outpatient Site can only be linked with a single BPS Pharmacy. All of the sites linked with a BPS Pharmacy should have the same NCPDP number. When an Outpatient Site is linked to an active BPS Pharmacy entry, the ECME switch for that site is considered ENABLED. If an Outpatient Site is linked to an incorrect BPS Pharmacy, it must be removed from the incorrect entry before it can be linked to the correct entry.
CMOP	ON if the transmission of prescriptions to the CMOP (Consolidated Mail Outpatient Pharmacy) dispensing site will automatically submit electronic third party prescription claims to the insurance payers. See note below for explanation of claims generated before and after switch is turned on or off.
AUTO-REVERSE PARAMETER	Enter numbers from 1 to 30 for the number of days to wait before ECME reverses non-released prescription claims with a PAYABLE payer-returned response. Entering a zero, ("0"), the default, disables the Auto-Reverse process. Each site's business practice will dictate what this value should be.
DEFAULT DEA #	The pharmacy's Drug Enforcement Administration (DEA) number.

- An Outpatient Site is considered ECME active if the Outpatient Site is linked to a BPS Pharmacy, and if that BPS Pharmacy is ACTIVE. Once an Outpatient Site is ECME active, claims for the Outpatient Site can be transmitted to the third-party payer.
- If an Outpatient Site is activated after a claim is already sent to ECME, ECME **will NOT** generate an electronic claim.
- If an Outpatient Site is inactivated (by unlinking it from a BPS Pharmacy or by changing the STATUS field), reversals for that site will be processed but new submissions will not.

7.2.3 Register Pharmacy with Austin Information Technology Center

The *Register Pharmacy with Austin Information Technology Center* option allows the ADPAC to register a pharmacy with the Austin Information Technology Center and update the contact information. This registration should only be performed on initialization of the pharmacy with ECME. Once the pharmacy has been set up to use ECME, the *Edit ECME Pharmacy Data* option should be used to make any changes.

The automated registration process will send an email to the Primary Site Contact if the registration has any errors or warnings to report. The Alternate Site Contact will be used when the email address for the Primary Site contact is missing. If the alternate site contact does not have an email address, the message will be sent to the BPS OPECC mail group. In addition, if either the primary or alternate site contact is missing their email address, it will be reported as a warning during manual registration. Following is a sample email.

```

This option should not be used after the initial setup unless any of the information changes for the pharmacy.

You must hold the BPS MASTER key to view the Edit Basic ECME Parameters (BAS), Edit ECME Pharmacy Data (PHAR), and Register Pharmacy with Austin Automation Center (REG) options.

Access the menu by entering **REG** at the “Select Pharmacy ECME Setup Menu Option:” prompt in the *Pharmacy ECME Setup Menu* option. The system will validate the data and then send an ePharmacy message to the Austin Information Technology Center, which notifies them that the prospective site is ready to transmit electronic pharmacy claims.

7.3 Statistics Screen

The *Statistics Screen* option allows ADPACS and IRMS to view statistics and transmission progress for all ECME claims.

You must hold the BPSMENU and BPS MANAGER keys to view the *Statistics Screen* option.

Access the menu by entering **STAT** at the “Select Pharmacy ECME Manager Menu Option:” prompt in the *Pharmacy ECME Manager Menu* option.

Statistics collection begins at the moment of ECME installation and continues until either you use the **Z** (clear) action or ECME is uninstalled. It depends on the each site's business practice as far as how often or if the stats are cleared.

- (D) In addition to the “ALL REPORTS” prompts, all of the Claims Results and Status REPORTS except the ECMP report display another prompt that will allow you to capture the report data in Excel spreadsheet format. If you answer **Y**, additional directions are supplied.

Example 8.1-4: Requesting Report Data in Excel Spreadsheet Format

Do you want to capture report data for an Excel document? NO// **YES**

Before continuing, please set up your terminal to capture the detail report data. On some terminals, this can be done by clicking on the 'Tools' menu above, then click on 'Capture Incoming Data' to save to Desktop. This report may take a while to run.

Note: To avoid undesired wrapping of the data saved to the file, please enter '0;256;999' at the 'DEVICE:' prompt.

8.1.1 Payable Claims Report

The *Payable Claims Report* option produces a report that lists PAYABLE electronic claims that have been successfully transmitted to the payer and have not been reversed.

You must hold the BPSMENU and BPS REPORTS keys to view the *Payable Claims Report* option.

The Payable Claims Report option has the most accessible information on payable claims from the BPS Claims File. A FileMan inquiry into the BPS Claims File will find that the information is in NCPDP (National Council for Prescription Drug Programs) V. D.0 formats.

- (A) Access the report by entering **PAY** at the “Select Claim Results and Status Option:” prompt on the Claim Results and Status option screen.

8.1.3 CMOP/ECME Activity Report

The *CMOP/ECME Activity Report* option produces a report used for monitoring Consolidated Mail Outpatient Pharmacy (CMOP) activity during both the Controlled Substances and General CMOP Transmissions. The report contains reference information from multiple VistA sources. You will not be prompted for selections from the “ALL REPORTS” section, but you need to select a report date range, a division or all divisions and a printer device. This report is not a 132 column report and you can choose to display it on the screen

You must hold the BPSMENU and BPS REPORTS keys to view the *CMOP/ECME Activity Report* option.

Access the report by entering **ECMP** at the “Select Claim Results and Status Option:” prompt on the Claim Results and Status option screen.

8.1.9 Non-Billable Status Report

The ECME Reports menu includes a Non-Billable Status Report for ECME Rx's. This report provides users with a tool to easily identify prescriptions that the ePharmacy software determines are not being billed (e.g., OTC products, no insurance on file or not active). The report ensures that prescriptions are billed for TRICARE and/or CHAMPVA patients in a timely manner.

You must hold the BPSMENU and BPS REPORTS keys to view the *Non-Billable Status Report* option.

(A) Access the report by entering **NBS** at the “Select Claim Results and Status Option:” prompt on the Claim Results and Status option screen.

8.2.1 ECME Claims-Response Inquiry Option

The *ECME Claims-Response Inquiry* option allows the user to enter a VA Claim ID and see the transaction data, the claim data sent to the third-party payer and the response data that was returned. This option may assist the sites and/or the VistA Maintenance Project (VMP) team in determining the cause of a reject that is received from a payer.

Access the *ECME Claims-Response Inquiry* option by entering **CRI** at the “Select Other Reports Option:” prompt on the Pharmacy Electronic Claims Reports, Other Reports option screen.

8.2.2 Payer Sheet Detail Report Option

The *Payer Sheet Detail Report* option allows you to list the information on payer sheets used for electronic claims. Payer sheets are templates defined by each payer used to create NCPDP transmissions. The sheets indicate which fields to send in the transmissions, as well as the acceptable values that may appear in the fields. You may also express conditions for when particular values are to be used.

Access the *Payer Sheet Detail Report* option by entering **PAY** at the “Select Other Reports Option:” prompt on the Pharmacy Electronic Claims Reports, Other Reports option screen.

8.2.6 OPECC Productivity Report

The *OPECC Productivity Report* option allows you to track the claims for users by transaction date, with the option of a summary view, detail view or Excel download format. If the claim has been submitted multiple times in the report date range, it will appear on the report only once with the appropriate count of transactions displayed under the header: # of Transactions. The status displayed on the report reflects the status of the most recent transaction. A transaction is anything that results in a claim submission from the ECME User Screen or any back billing claim submission from Claims Tracking or the PRO Process Secondary/TRICARE Rx to ECME option. An OPECC action of open/close claim is not considered a transaction for the OPECC productivity report.

You must hold the BPS SUPERVISOR key to view the *OPECC Productivity Report* option.

Access the *OPECC Productivity Report* option by entering **OPR** at the “Select Other Reports Option:” prompt on the Pharmacy Electronic Claims Reports, Other Reports option screen.

9 BPS Nightly Background Job

The *BPS Nightly Background Job* is scheduled to run daily at the sites during off-hours at intervals defined by the site staff. One of the functions of this job is to identify claims to be reversed and then to automatically submit the Reversal Request to the payer.

For inpatient claims reversals, the program will go through all WINDOW fills for the date 5 days prior to the current date (T-5) and check to see if the patient is a current inpatient. If so, the reversal would be given the reason CURRENT INPATIENT to differentiate between non-released prescriptions and inpatient reversals.

The auto-reversal process for outpatient claims is dependent on whether the site sets the Auto-Reversal parameter to anything but 0 (see Auto-Reversal parameter in the Edit ECME Pharmacy Data option on the ECME Setup menu). All non-released outpatient prescriptions that were initially returned as PAYABLE and are not currently REVERSED and have a date older than the number of days set in the Auto-Reversal parameter would be reversed.

After the *BPS Nightly Background Job* identifies claims to auto-reverse and processes the Reversal Request, the system sends a bulletin to the members of the “BPS OPECC” mail group listing both reversals from the parameter setting and the inpatient claims. This mail group needs to be created at the site and should include all OPECC resources.

Example 9.1-1 Displaying the Auto-Reversal Bulletin

10 Glossary

Accredited Standards Committee (ASC)	An organization that has been accredited by American National Standards Institute (ANSI) for the development of American National Standards.
Administrative Code Sets	Code sets that characterize a general business situation rather than a medical condition or service.
Administrative Simplification (A/S)	Title II, Subtitle F, of HIPAA, which gives the Department Of Health And Human Services (DHHS) the authority to mandate the use of standards for the electronic exchange of health care data; to specify what medical and administrative code sets should be used within those standards; to require the use of national identification systems for health care patients, providers, payers (or plans), and employers (or sponsors); and to specify the types of measures required to protect the security and privacy of personally identifiable health care information.
American Medical Association (AMA)	A professional association that represents the voice of the American medical profession and constitutes the partnership of physicians and their professional associations dedicated to promoting the art and science of medicine and the betterment of public health.
American National Standards (ANS)	Standards developed and approved by organizations accredited by ANSI.
American National Standards Institute (ANSI)	An organization that accredits various standards-setting committees, and monitors their compliance with the open rule-making process that they must follow to qualify for ANSI accreditation.

American Society for Testing and Materials (ASTM)

A standards group that has published general guidelines for the development of standards, including those for health care identifiers.

Back Door

System access via the roll and scroll, character and Mumps based VistA application.

Blue Cross and Blue Shield Association (BCBSA)

An association that represents the common interest of Blue Cross and Blue Shield health plans. The BCBSA maintains the Claim Adjustment Reason Codes code set.

Business Model

A model of a business organization or process.

CHAMPVA Patient

A CHAMPVA patient is a patient that is receiving services due to being eligible for the CHAMPVA health benefits program. His/her CHAMPVA health benefit program will be billed for the prescription.

Clean Claim

An insurance claim that has no defect, impropriety (including any lack of any substantial documentation) or particular circumstance requiring special treatment that prevents timely payment from being made.

**Clearinghouse
(or Health Care Clearinghouse)**

For health care, an organization that translates health care data to or from a standard format.

Centers for Medicare & Medicaid Services (CMS)

Centers for Medicare & Medicaid Services, formerly Health Care Financing Administration (HCFA). The administration within the Department of Health and Human Services (HHS) that is responsible for the national administration of the Medicaid and Medicare programs.

CMS-1450	CMS's name for the institutional uniform claim form, or UB-92.
CMS-1500	CMS's name for the professional uniform claim form. Also known as the UCF-1500.
Coordination of Benefits (COB)	A provision that is intended to avoid claims payment delays and duplication of benefits when a person is covered by two or more plans providing benefits or services for medical, dental or other care or treatment.
Code Set	Under HIPAA "codes used to encode data elements, tables of terms, medical concepts, diagnostic codes, or medical procedures. A code set includes the codes and descriptors of the codes." [45 CFR 162.103]
Covered Entity	Under HIPAA, a health plan, healthcare clearinghouse or health care provider who transmits information in electronic form in connection with a transaction covered by this subchapter 160.103 of 45 CFR.
Current Procedural Terminology	A procedure code set maintained and copyrighted by the AMA and that has been selected for use under HIPAA for non-institutional and non-dental professional transactions.
Data Dictionary (DD)	A document or system that characterizes the data content of a system.
Data Element	Under HIPAA, this is "...the smallest named unit of information in a transaction." [45 CFR 162.103]
Data Mapping	The process of matching one set of data elements or individual code values to their closest equivalents in another set of them.

Data Model	A conceptual model of the information needed to support a business function or process.
Data Set	Under HIPAA, this is "...a semantically meaningful unit of information exchanged between two parties to a transaction." [45 CFR 162.103]
Designated Code Set	A medical or administrative code set, which DHHS has designated for use in one or more of the HIPAA standards.
Designated Data Content Committee or Designated DCC	An organization, which DHHS has designated for oversight of the business data content of one or more of the HIPAA-mandated transaction standards.
Designated Standard	A standard that DHHS has designated for use under the authority provided by HIPAA.
Department of Health and Human Services (DHHS) or (HHS)	Per the website address provided below, 'The Department Of Health And Human Services is the United States government's principal agency for protecting the health of all Americans and providing essential human services, especially for those who are least able to help themselves.' The website is available at http://www.os.dhhs.gov/ .
Electronic Commerce (EComm)	The exchange of business information by electronic means.
Electronic Data Interchange (EDI)	The transfer of data between different companies using networks, such as the Internet. As more and more companies are connected to the Internet, EDI is becoming increasingly important as an industry standard for companies to buy, sell, and trade information. ANSI has approved a set of EDI standards known as the X12 standards.

Finish	Term used for completing orders from Order Entry/Results Reporting V. 3.0.
‘Finish’ a Prescription	This process within VistA Outpatient Pharmacy V. 7.0 where a pharmacy prescription order has been reviewed by either a pharmacy technician or pharmacist and is the first step in processing a prescription in Pharmacy. If performed by a pharmacist with the appropriate security key, the prescription can be ‘Verified’ as well. See ‘Verify a Prescription’ for more information.
Flat File	This term usually refers to a file that consists of a series of fixed-length records that include some sort of record type code.
Front Door	System access via the Delphi, Graphical User Interface (GUI) based VistA application.
Graphical User Interface (GUI)	A graphical method of controlling how a user interacts with a computer to perform various tasks.
HCFA Common Procedural Coding System (HCPCS)	A medical code set that identifies health care procedures, equipment, and supplies for claim submission purposes. It is maintained by Health Care Financing Administration (HCFA), and has been selected for use in the HIPAA transactions. HCPCS Level I contain numeric CPT-4 codes, which are maintained by the AMA. HCPCS Level II contains alphanumeric codes used to identify various items and services that are not included in the CPT-4 code set. These are maintained by HCFA, BCBSA, and Health Insurance Association of America (HIAA). HCPCS Level III contains alphanumeric codes that are assigned by Medicaid State agencies to identify additional items and services not included in levels I and II. These are usually called "local codes", and must have "W", "X", "Y", or "Z" in the first position. They are not named as HIPAA standard codes. HCPCS Procedure Modifier Codes can be used with all three levels, with the WA-ZY range used for locally assigned procedure modifiers.

Health Care Clearinghouse

Under HIPAA, this is "... a public or private entity that does either of the following: (1) processes or facilitates the processing of information received from another entity in a nonstandard format or containing nonstandard data content into standard data elements or a standard transaction, or (2) receives a standard transaction from another entity and processes or facilitates the processing of [that] information into nonstandard format or nonstandard data content for a receiving entity." [45 CFR 160.103]

Health Care Financing Administration (HCFA)

The DHHS agency responsible for Medicare and parts of Medicaid. HCFA has historically maintained the UB-92 institutional Electronic Media Claims (EMC) format specifications, the professional EMC National Standard Format (NSF) specifications, as well as specifications for various certifications and authorizations used by the Medicare and Medicaid programs. HCFA also maintains the HCPCS medical code set.

Health Care Provider

Under HIPAA, this is "...a provider of services as defined in the section 1861(u) of the [Social Security] Act, 42 USC 1395x(u), a provider of medical or other health services as defined in section 1861(s) of the Act, 42 USC 1395(s), and any other person or organization who furnishes, bills, or is paid for health care in the normal course of business." [45 CFR 160.103]

Health Information

Under HIPAA this is "... any information, whether oral or recorded in any form or medium that (a) is created or received by a health care provider, health plan, public health authority, employer, life insurer, school or university, or health care clearinghouse; and (b) related to the past, present or future physical or mental health or condition of an individual, the provision of health care to an individual, or the past, present or future payment for the provision of health care to an individual." [45 CFR 160.103]

Health Insurance Association of America (HIAA)

An industry association that represents the interests of commercial health care insurers. The HIAA participates in the maintenance of some code sets, including HCPCS Level II codes.

Health Insurance Portability and Accountability Act of 1996 (HIPAA)

A Federal law that makes a number of changes that have the goal of allowing persons to qualify immediately for comparable health insurance coverage when they change their employment relationships. Title II, Subtitle F, of HIPAA gives HHS the authority to mandate the use of standards for the electronic exchange of health care data; to specify what medical and administrative code sets should be used within those standards; to require the use of national identification systems for health care patients, providers, payers (or plans), and employers (or sponsors); and to specify the types of measures required to protect the security and privacy of personally identifiable health care information. Also known as the Kennedy-Kassebaum Bill, the Kassebaum-Kennedy Bill, K2, or Public Law 104-191.

Health Plan

Under HIPAA this is "...an individual or group plan that provides, or pay the cost of, medical care". [45 CFR 160.103]

Healthcare Financial Management Association (HFMA)

An organization for the improvement of the financial management of healthcare-related organizations. The HFMA sponsors some HIPAA educational seminars.

Health Level Seven (HL7)

An ANSI-accredited group that defines standards for the cross-platform exchange of information within a health care organization. HL7 is responsible for specifying the Level Seven Open System Interconnection (OSI) standards for the health industry. Some HL7 standards will be encapsulated in the X12 standards used for transmitting claim attachments.

**HIPAA Data Dictionary
or HIPAA DD**

A data dictionary that defines and cross-references the contents of all X12 transactions included in the HIPAA mandate. It is maintained by X12N/TG3.

Implementation Guide (IG)

A document explaining the proper use of a standard for a specific business purpose. The X12N HIPAA IGs are the primary reference documents used by those implementing the associated transactions, and are incorporated into the HIPAA regulations by reference.

Implementation Specification

Under HIPAA, this is "... the specific instructions for implementing a standard [45 CFR 160.103]

Information Model

A conceptual model of the information needed to support a business function or process.

**International Classification of Diseases
(ICD)**

A medical code set maintained by the World Health Organization (WHO). The primary purpose of this code set is to classify causes of death. A United States (US) extension of this coding system, maintained by the National Center for Health Statistics (NCHS) within the Centers for Disease Control (CDC), is used to identify morbidity factors, or diagnoses. The ICD-9-CM (Revision 9 Clinical Modification) codes have been selected for use in the HIPAA transactions.

**International Standards Organization
(ISO) or International Organization
for Standardization**

An organization that coordinates the development and adoption of numerous international standards.

**Joint Commission on Accreditation
of Healthcare Organizations (JCAHO)**

In the future, the JCAHO may play a role in certifying these organizations compliance with the HIPAA A/S requirements.

J-Codes

Previously HCPCS Level II has contained a set of codes with a high-order value of "J" to identify some drugs and some other items. The final HIPAA transactions and code set rule states that any J-codes identifying drugs will be dropped from the HCPCS and NDC codes will be used to identify all drug products.

Maintain or Maintenance

Under HIPAA, this is "...activities necessary to support the use of a standard adopted by the Secretary, including technical corrections to an implementation specification, and enhancements or expansion of a code set. This term excludes the activities related to the adoption of a new standard or implementation specification, or modification to an adopted standard or implementation specification." [45 CFR 162.103]

Maximum Defined Data Set

Under HIPAA, this is "... all of the required data elements for a particular standard based on a specific implementation specification." [45 CFR 162.103]. A framework under HIPAA whereby an entity creating a transaction is free to include whatever data any receiver might want or need. The recipient of a maximum data set is free to ignore any portion of the data not needed to conduct their part of the associated business transaction, unless the nonessential data is needed for coordination of benefits.

Medical Code Sets

Codes that characterize a medical condition or treatment. The code sets are usually maintained by professional societies and public health organizations.

Memorandum of Understanding (MOU)	A document providing a general description of the kinds of responsibilities that are to be assumed by two or more parties in their pursuit of some goal(s). More specific information may be provided in an associated Statement Of Work (SOW).
Modify or Modification	Under HIPAA, refers to "a change adopted by the Secretary, through regulation, to a standard or an implementation specification." [45 CFR 160.102]
National Center for Health Statistics (NCHS)	An administration of HHS and CDC that oversees ICD coding.
National Council for Prescription Drug Programs (NCPDP)	An ANSI-accredited group that maintains a number of standard formats for use by the retail pharmacy industry, some of which are included in the HIPAA mandates.
National Drug Code (NDC)	A medical code set that has been selected for use in the HIPAA transactions.
National Employer ID	A system for uniquely identifying all sponsors of health care benefits.
National Patient ID	A system for uniquely identifying all recipients of health care services.
National Payer ID	A system for uniquely identifying all organizations that pays for health care services. Also known as Health Plan ID or Plan ID.
National Provider File (NPF)	The database envisioned for use in maintaining a national provider registry.
National Provider ID	A system for uniquely identifying all providers of health care services, supplies, and equipment.
National Provider Registry	The organization envisioned for assigning the National Provider IDs.

National Provider System (NPS)	The administrative system envisioned for supporting a national provider registry.
National Standard Format (NSF)	Generically, this applies to any national standard format, but it is often used in a more limited way to designate the Professional EMC NSF, a 320-byte flat file record format used to submit professional claims.
National Uniform Billing Committee (NUBC)	The committee established by the American Hospital Association (AHA) to develop a single billing form and standard data set that could be used nationwide by institutional providers and payers for handling health care claims.
NCPDP Batch Standard	An NCPDP standard designed for use by low-volume dispensers of pharmaceuticals, such as nursing homes. Version 1.0 of this standard has been mandated under HIPAA.
NCPDP Telecommunication Standards	An NCPDP standard designed for use by high-volume dispensers of pharmaceuticals, such as retail pharmacies. Version D0 is the transaction standard under HIPAA.
Non-Formulary Drugs	The medications, which are defined as commercially available drug products not included in the VA National Formulary.

Notice of Intent (NOI)	A document that describes a subject area for which the Federal Government is considering developing regulations. It may describe what the government considers to be the relevant considerations and invite comments from interested parties. These comments can then be used in developing a Notice of Proposed Rulemaking (NPRM) or a final regulation.
Notice of Proposed Rulemaking (NPRM)	A document that describes and explains regulations that the Federal Government proposes to adopt at some future date, and invites interested parties to submit comments related to them. These comments can then be used in developing the final rules.
Office of Management & Budget (OMB)	A Federal Government agency that has a major role in reviewing proposed Federal regulations.
Open System Interconnection (OSI)	A multi-layer ISO data communications standard. Level Seven of this standard is industry-specific, and HL7 is responsible for specifying the level seven OSI standards for the health industry.
Outpatient Pharmacy Electronic Claims Coordinator (OPECC)	This is a designated individual at each site who will be responsible for monitoring NCPDP claims using the ECME module. The OPECC will resolve claim rejection issues with the appropriate parties, make data corrections, and resubmit claims.
Orderable Item	An Orderable Item name and dosage form that has no strength attached to it (e.g., Acetaminophen). The name with a strength attached is the Dispense Drug name (e.g., Acetaminophen 325mg).

Payer	In health care, an entity that assumes the risk of paying for medical treatments. This can be an uninsured patient, a self-insured employer, or a health care plan or Health Maintenance Organization (HMO).
