INSTALL EXAMPLE.....	9
POST INSTALLATION	18
APPENDIX A: REMINDER DUE EXAMPLE	33

Introduction

The four colorectal screening reminders were released in 2017 as Clinical reminder Update_2_0_9. This reminder update includes updates/additions to the existing reminders.

The following changes were made:

1. The primary gap reminder dialog has been redesigned. Most options now display on opening screen and have been grouped.
2. Options have been added to the gap and average risk reminder dialogs to document multitarget stool DNA lab test results (ex. Cologuard®). A positive result will trigger the diagnostic reminder to be due. A negative result will resolve the average risk reminder for 3 years.
3. Text in the reminder dialogs regarding resetting the reminders until the patient is 50yo have been changed to “until the patient meets USPTF age guidelines.” The U.S. Preventive Services (USPTF) recommended age to begin colorectal cancer screening remains at age 50, but the age may change later.
 - a. Two additional health factors have been added to represent the text change, VA-CRC AVG RISK SET FUTURE USPTF AGE and VA-CRC PROMPT COLONOSCOPY USPTF AGE
4. An option to begin colorectal cancer screening via colonoscopy at the age meeting USPTF guidelines (As of August 2019, it is age 50) has been added to the gap reminder dialog. The dialogs had the option to begin average risk screening at this age in v1. This new option will trigger the VA-CRC FOLLOW UP COLONOSCOPY to become due when the patient meets the age requirement.
5. A DUE IN ADVANCE timeframe of 2 months has been added to the average risk reminder.
6. An option has been added to the gap reminder dialog to make the average risk reminder due now.
7. An option has been added to the gap reminder and average risk reminder dialog to make the average risk reminder due in 6 months.
8. The defer option in the average risk reminder has been changed from a 1 month resolution to 3 months.
9. Standardized temporary resolution for “Waiting for outside results” to 3 months in all applicable definitions.
10. Standardized temporary resolution for “Screening already scheduled or is in process of being scheduled” to 3 months in all applicable definitions.
11. “Waiting for outside results” options have been added to all gap reminder dialogs.
12. Temporary resolution length text has been added to all applicable options in reminder dialogs.
13. Ordering a FIT test from the gap reminder dialog will automatically place the patient on the average risk pathway.
14. Documenting the patient will obtain CRC screening without assistance from the VA in the gap reminder dialog will prompt the provider to document whether the patient is at

average risk or increased/high risk for colorectal cancer. These options will trigger either the average risk or follow up colonoscopy reminder to become due at the appropriate future date.

15. The e-consult option text has been changed from “Recommendation not available” to “Unable to determine recommendations.”
16. Several misspellings corrected, phrasing changes, small logic and dialog corrections.

It will be very important that you follow the install guide carefully during the install.

UPDATE_2_0_94 VA-CRC UPDATE.

The exchange file contains the following components:

REMINDER DIALOGS

VA-CRC COLON SCREENING DOCUMENTATION
VA-CRC PATIENT FOLLOW UP
VA-CRC COLONOSCOPY FOLLOW UP REMINDER

Pre-Install

1. Using the Vista menu, Reminder Managers Menu, inquire about Reminder Definition, do an inquire/print on the following reminders, you will need to use these as references during post-install to confirm the reminder term mapping:
 - a. VA-CRC AVERAGE RISK
 - b. VA-CRC DIAGNOSTIC COLONOSCOPY
 - c. VA-CRC FOLLOW UP COLONOSCOPY
 - d. VA-CRC GAP REMINDER
2. Using the Vista menu, Reminder Dialog Management, Reminder Dialogs, change your view to dialog view and do an inquire/print on the following reminder dialogs; you will need to use these as references during post-install to add back any local modifications that you made:
 - a. VA-CRC COLON SCREENING DOCUMENTATION
 - b. VA-CRC COLONOSCOPY AVG RISK
 - c. VA-CRC COLONOSCOPY DIAGNOSTIC
 - d. VA-CRC COLONOSCOPY FOLLOW UP REMINDER
 - e. VA-CRC WAITING FOR RECOMMEND GAP
3. Make note of local modifications of the GI patient pathology results letter portion of the VA-CRC COLON SCREENING DOCUMENTATION dialog, which is within the VA-CRC LETTER PATH REVIEW group of the dialog. Installing the updated version of this dialog will clear local modifications and they will need to be rebuilt after installation.
4. In CPRS, use the txml template field editor and do a screen cap of the following fields. During installation if you overwrite instead of Skip, you will know what to put back.
 - a. *VA-CRC POC PHONE NUMBER*
 - b. *VA-VAMC NAME*
5. Using the Vista menu, Create/Modify Health Summary Type, screen capture the health summary type settings for the following health summary types. During installation if you overwrite instead of Skip, you will need this as a reference.
 - a. *VAL-CRC FIT;3;3Y*
 - b. *VAL-CRC FOBT;3;3Y*
6. To aid in confirming correct post-installation mapping run a detailed reminder due report for each of the 4 reminder definitions listed in step 1. Run the report for 1-2 clinics for at

least a month of visits prior to installation of the update. After completing post-installation steps run the 4 reminder due reports for the same timeframe and compare the lists. Reviewing discrepancies will help to identify any local findings that are not mapped appropriately. There are instructions in Appendix A on how to run these reports.

Install Details

This update is being distributed as a web host file. The address for the host file is:

http://vista.med.va.gov/reminders/UPDATE_2_0_94.PRD

If your site is unable to use LWH, you will have a vista mail message with subject of UPDATE 94.

The file will be installed using Reminder Exchange, programmer access is not required.

Installation:

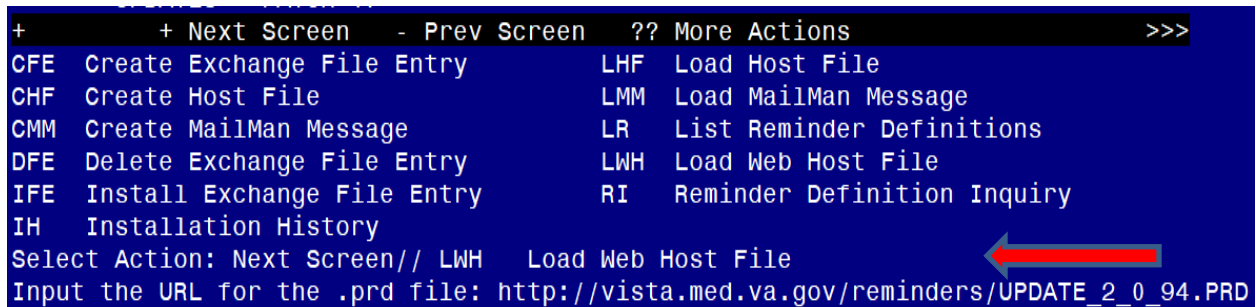

=====

This update can be loaded with users on the system. Installation may take more than an hour to install all of the components.

Install Example

Use ACTION “LWH” to load the web host file and input URL

http://vista.med.va.gov/reminders/UPDATE_2_0_94.PRD

```
+      + Next Screen  - Prev Screen  ?? More Actions  >>>
CFE  Create Exchange File Entry      LHF  Load Host File
CHF  Create Host File                 LMM  Load MailMan Message
CMM  Create MailMan Message           LR   List Reminder Definitions
DFE  Delete Exchange File Entry       LWH  Load Web Host File
IFE  Install Exchange File Entry      RI   Reminder Definition Inquiry
IH   Installation History
Select Action: Next Screen// LWH    Load Web Host File
Input the URL for the .prd file: http://vista.med.va.gov/reminders/UPDATE_2_0_94.PRD
```

You should receive a message that your entry was successfully loaded

Navigate to the exchange entry named UPDATE_2_0_94 VA-CRC UPDATE using SL Action.

After all the dialogs install, you will then be returned to this screen. At the **Select Action** prompt, type **Q**.

Install Complete

Post Installation

Currently used local health factors and orderable items need to be mapped to the appropriate reminder terms below. A description for each new term for v2 is included.

1. Compare the pre-install printout of each of the reminder definitions, review the terms and confirm that any local entries are still mapped to these terms. **If you merged the terms as instructed during the installation process, you should only need to verify that your local items are still there, no new mapping or changes should be needed.**

For a description of each of the following terms, refer to the Clinical Reminders Update 9 VA-Colorectal Cancer Screening Reminders installation guide located in the VistA Documentation Library (VDL). <https://www.va.gov/vdl/application.asp?appid=60>

The following are new terms or terms that have been updated – below are descriptions, you should not need to map any new local items to these terms, if you had existing local health factors mapped, you may add them if you did not choose merge on the install.

VA-CRC BL TESTING WI PAST YEAR

This term is used as branching logic within the VA-CRC WAITING FOR RECOMMEND GAP dialog. It should not be edited at the local level.

VA-CRC AVG RISK 6 M

Use the findings distributed with this reminder term or map any local findings that change the frequency of Average risk CRC screening to 6 months.

This term is distributed mapped to the following health factor:
 VA-CRC AVG RISK 6 M

VA-CRC AVG RISK DUE NOW

Use the findings distributed with this reminder term or map any local findings that changes the status of the VA-CRC AVERAGE RISK reminder to DUE NOW.

This term is distributed mapped to the following health factor:
VA-CRC AVG RISK DUE NOW

VA-CRC AVG RISK DEFER 3M

Use the findings distributed with this reminder term or map any local findings that represent the provider is deferring addressing the average risk reminder for 3 months.

This term is distributed mapped to the following health factor:
VA-CRC AVG RISK DEFER 1M, VA-CRC AVG RISK DEFER 3M

VA-CRC AVG RISK SET FUTURE USPTF AGE

*Term VA-CRC AVG RISK SET FUTURE 50 replaced in v2 with term VA-CRC AVG RISK SET FUTURE USPTF AGE.

Use the findings distributed with this reminder term or map any local findings that set the Average risk CRC screening reminder to become due again when the patient meets USPTG guidelines. As of August 2019, it is age 50.

This term is distributed mapped to the following health factors:
VA-CRC AVG RISK SET FUTURE 50 YEARS OLD,
VA-CRC AVG RISK SET FUTURE USPTF AGE

VA-CRC POSITIVE MT-SDNA HEALTH FACTORS

This term is used to trigger the VA-CRC DIAGNOSTIC COLONOSCOPY reminder to be due. It should contain local health factors that represent a positive multi-target stool DNA test. Map any local findings that meet the intent of this term. DO NOT MAP FIT or FOBT FINDINGS TO THIS TERM.

Do not map lab tests to this term. Lab tests for multi-target stool DNA tests should be mapped to the term VA-CRC POSITIVE MT-SDNA LAB TESTS

This term is mapped to the national health factor VA-CRC AVG RISK MT-SDNA POSITIVE

VA-CRC MT-SDNA LAB TEST POSITIVE

This term is used to trigger the VA-CRC DIAGNOSTIC COLONOSCOPY reminder to be due. It should contain local lab tests that represent the multitarget stool DNA lab tests. Map any local findings that meet the intent of this term. DO NOT MAP FIT or FOBT FINDINGS TO THIS TERM.

This term is deployed empty. Coordinate with local **lab information manager AND Gastroenterology/Primary Care providers** to map appropriate lab tests and set condition

for positive results. This term should be empty if site does not offer multitarget stool DNA lab tests

VA-CRC PROMPT COLONOSCOPY USPTF AGE

Use the findings distributed with this reminder term or map any local findings that set the VA-CRC FOLLOW UP COLONOSCOPY reminder to become due again when the patient meets USPTG guidelines. As of August 2019, it is age 50.

This term is distributed mapped to the following health factors:
VA-CRC PROMPT COLONOSCOPY USPTF AGE

The following are existing reminder terms that have been updated – below are descriptions. If you merged the terms as instructed during the installation process, you should only need to verify that your local items are still there, no new mapping or changes should be needed.

VA-CRC AVG RISK 3 YR

Use the findings distributed with this reminder term or map any local findings that change the frequency of Average risk CRC screening to 3 years.

A new health factor has been added in v2, VA-CRC AVG RISK MT-SDNA NEGATIVE. A negative multi-target stool DNA test will resolve the average risk reminder for 3 years. Map any local findings that meet the intent of this term. DO NOT MAP FIT or FOBT FINDINGS TO THIS TERM.

This term is distributed mapped to the following health factor:
VA-CRC AVG RISK 3 YR, VA-CRC AVG RISK MT-SDNA NEGATIVE

VA-CRC AVG RISK RESET

Use the findings distributed with this reminder term and map any local findings that are used to set a due date for average risk CRC screening.

A new health factor has been added to this term in v2, AVG RISK SET FUTURE USPTF AGE. Map any additional local findings that set the Average risk CRC screening reminder to become due again when the patient meets USPTG guidelines. As of August 2019, it is age 50.

This term is distributed mapped to the following health factors:
VA-CRC AVG RISK 1 YR, VA-CRC AVG RISK 1.5 YR, VA-CRC AVG RISK 2 YR, VA-CRC AVG RISK 2.5 YR, VA-CRC AVG RISK 3 YR, VA-CRC AVG RISK 4 YR, VA-CRC AVG RISK 5 YR, VA-CRC AVG RISK 6 YR, VA-CRC AVG RISK 7 YR, VA-CRC AVG RISK 8 YR, VA-CRC AVG RISK 9 YR, VA-CRC AVG RISK 10 YR, VA-CRC AVG RISK SET FUTURE 50 YEARS OLD, VA-CRC AVG RISK 6 M, VA-CRC AVG RISK SET FUTURE USPTF AGE

This term is used in the cohort logic of the Avg Risk CRC reminder to make the reminder applicable to patients. Custom logic sets an appropriate due date for the most recently documented health factor.

VA-CRC COLONOSCOPY FOLLOW UP

Use the findings distributed with this reminder term AND map any local findings that represent the FOLLOW UP COLONOSCOPY reminder has been set to become due for a future date. Findings in this term make the AVG RISK reminder not applicable.

A new health factor has been added to this term in v2, VA-CRC PROMPT COLONOSCOPY USPTF AGE. Map any additional local findings that set the FOLLOW UP COLONOSCOPY reminder to become due again when the patient meets USPTG guidelines. As of August 2019, it is age 50.

This term is distributed mapped to the following health factors:

VA-CRC PROMPT COLONOSCOPY 3M, VA-CRC PROMPT COLONOSCOPY 6M,
VA-CRC PROMPT COLONOSCOPY 1Y, VA-CRC PROMPT COLONOSCOPY 1.5Y,
VA-CRC PROMPT COLONOSCOPY 2Y, VA-CRC PROMPT COLONOSCOPY 2.5Y
VA-CRC PROMPT COLONOSCOPY 3Y, VA-CRC PROMPT COLONOSCOPY 4Y,
VA-CRC PROMPT COLONOSCOPY 5Y, VA-CRC PROMPT COLONOSCOPY 6Y,
VA-CRC PROMPT COLONOSCOPY 7Y, VA-CRC PROMPT COLONOSCOPY 8Y,
VA-CRC PROMPT COLONOSCOPY 9Y, VA-CRC PROMPT COLONOSCOPY 10Y,
VA-CRC PROMPT COLONOSCOPY USPTF AGE

- 2. Update reminder dialogs** to add your local quick orders, disable elements as needed or add local content. You should use your pre-install inquiry of the dialogs to identify the correct quick orders or if any quick order is needed.

- a) ***Map quick order for ordering FIT or FOBT (as appropriate for local facility) lab test to the following dialog groups. Do not remove national health factor in the finding item field.*** You can use your pre-install inquiry of the dialogs to identify the correct quick order

This group is a local class, so the text displaying in the dialog can be customized to local practices. It can also be used to add additional local FIT/FOBT ordering options instead of using the group as the order.

A. Group Name: **VAL-CRC AVG RISK ORDER FOBT/FIT**

FINDING ITEM: HF VA-CRC AVG RISK ORDER FOBT/FIT

Select ADDITIONAL FINDINGS: **Enter name of local quick order here**

B. Group Name: **VAL-CRC GAP ORDER FOBT/FIT**

FINDING ITEM: HF VA-CRC GAP ORDER FOBT/FIT

Select ADDITIONAL FINDINGS: **Enter name of local quick order here**

- b) ***Map quick order for ordering a colonoscopy to the following element. Do not remove national health factor in the finding item field.*** You can use your pre-install inquiry of the dialogs to identify the correct quick order

This element is a local class, so the text displaying in the dialog can be customized to local practices.

Element Name: **VAL-CRC AVG RISK ORDER COLONOSCOPY**

FINDING ITEM: HF VA-CRC AVG RISK ORDER COLONOSCOPY

Select ADDITIONAL FINDINGS: **Enter name of local quick order here**

- c) ***Map quick order for ordering a colonoscopy to the following element. Do not remove national health factor in the finding item field.*** You can use your pre-install inquiry of the dialogs to identify the correct quick order

This element is a local class, so the text displaying in the dialog can be customized to local practices.

Element Name: **VAL-CRC FUTURE COLONOSCOPY <3M ORDER**

FINDING ITEM: HF VA-CRC AVG RISK ORDER COLONOSCOPY

Select ADDITIONAL FINDINGS: **Enter name of local quick order here**

- d) ***Map quick order for ordering a colonoscopy to the following element. Do not remove national health factor in the finding item field.*** You can use your pre-install inquiry of the dialogs to identify the correct quick order

This element is a local class, so the text displaying in the dialog can be customized to local practices.

Element Name: **VA-CRC FUTURE COLONOSCOPY 6M ORDER**

FINDING ITEM: HF VA-CRC AVG RISK ORDER COLONOSCOPY

Select ADDITIONAL FINDINGS: **Enter name of local quick order here**

- c) ***Map quick order for ordering a future care consult for a colonoscopy to the following element OR disable this element if not appropriate. Do not remove national health factor in the finding item field.*** You can use your pre-install inquiry of the dialogs to identify the correct quick order

This element offers the opportunity to order a future care consult for a colonoscopy in one year of documentation (recommended by VHA GI Field Advisory Committee). It is embedded in the option to reset the colonoscopy reminder for a year. This element

is a local class, so it can be disabled if local site doesn't want to offer it in the option. If the order option is disabled; then also disable the element VAL-CRC FUTURE COLON 1 YR WARNING 1YR.

Element Name: VAL-CRC AVG RISK ORDER COLONOSCOPY 1YR

FINDING ITEM: HF VA-CRC AVG RISK ORDER COLONOSCOPY

Select ADDITIONAL FINDINGS: Enter name of local quick order here

- d) ***Map quick order for ordering a follow-up colonoscopy to the following element. Do not remove national health factor in the finding item field.*** You can use your pre-install inquiry of the dialogs to identify the correct quick order

This element is a local class, so the text displaying in the dialog can be customized to local practices.

Element Name: VAL-CRC FOLLOW UP ORDER COLONOSCOPY

FINDING ITEM: HF VA-CRC FOLLOW UP ORDER COLONOSCOPY

Select ADDITIONAL FINDINGS: Enter name of local quick order here

- e) ***Map quick order for ordering a diagnostic colonoscopy to the following element. Do not remove national health factor in the finding item field.*** You can use your pre-install inquiry of the dialogs to identify the correct quick order

This element is a local class, so the text displaying in the dialog can be customized to local practices.

Element Name: VAL-CRC DIAGNOSTIC ORDER COLONOSCOPY

FINDING ITEM: HF VA-CRC DIAGNOSTIC ORDER COLONOSCOPY

Select ADDITIONAL FINDINGS: Enter name of local quick order here

- f) ***Map quick order for ordering a sigmoidoscopy to the following element. Do not remove national health factor in the finding item field.*** You can use your pre-install inquiry of the dialogs to identify the correct quick order

This element is a local class, so the text displaying in the dialog can be customized to local practices.

Element Name: VAL-CRC AVG RISK ORDER SIGMOIDOSCOPY

FINDING ITEM: HF VA-CRC ORDER SIGMOIDOSCOPY

Select ADDITIONAL FINDINGS: Enter name of local quick order here

- g) ***Map quick order for ordering a CT Colonography to the following four elements and one group. Do not remove national health factor in the finding item field.***

Elements

Element Name: **VA-CRC AVG RISK CTC CONTRAINDICATED**

FINDING ITEM: HF VA-CRC AVG RISK CTC ORDER REASON:
CONTRAINDICATED

Select ADDITIONAL FINDINGS: **Enter name of local quick order here**

Dialog Name: **VA-CRC AVG RISK CTC PT REFUSES**

FINDING ITEM: HF VA-CRC CTC ORDER REASON: PT DECLINED

Select ADDITIONAL FINDINGS: **Enter name of local quick order here**

Dialog Name: **VA-CRC AVG RISK CTC RESEARCH**

FINDING ITEM: HF VA-CRC CTC ORDER REASON: RESEARCH

Select ADDITIONAL FINDINGS: **Enter name of local quick order here**

Dialog Name: **VA-CRC AVG RISK CTC NOT COMPLETE**

FINDING ITEM: HF VA-CRC CTC ORDER REASON: NOT COMPLETED

Select ADDITIONAL FINDINGS: **Enter name of local quick order here**

Group

Dialog Name: **VAL-CRC RECOMMEND CT COLONOGRAPHY**

This group is a local class, so the text displaying in the dialog can be customized to local practices.

FINDING ITEM: HF VA-CRC GAP ORDER CTC

Select ADDITIONAL FINDINGS: **Enter name of local quick order here**

Dialog Name: **VAL-CRC GAP RECOMMEND CT COLONOGRAPHY**

This group is a local class, so the text displaying in the dialog can be customized to local practices.

FINDING ITEM: HF VA-CRC GAP ORDER CTC

Select ADDITIONAL FINDINGS: **Enter name of local quick order here**

- h) ***Map quick order for ordering a CT Colonography prep kit to the following element. Do not remove national health factor in the finding item field.*** You can use your pre-install inquiry of the dialogs to identify the correct quick order

This element is a local class, so local sites can remove it from dialog if needed.

Dialog Name: **VAL-CRC ORDER CTC PREP KIT**

FINDING ITEM: HF VA-CRC ORDER CTC PREP KIT

Select ADDITIONAL FINDINGS: Enter name of local quick order here

- i) ***Map quick order for ordering a Double Contrast Barium Enema to the following groups. Do not remove national health factor in the finding item field.***

Each is a local class, so the text displaying in the dialog can be customized to local practices.

Dialog Name: VAL-CRC RECOMMEND BARIUM ENEMA and
VAL-CRC GAP RECOMMEND BARIUM ENEMA

Select ADDITIONAL FINDINGS: Enter name of local quick order here

- j) ***Map quick order for ordering a Double Contrast Barium Enema prep kit to the following element. Do not remove national health factor in the finding item field.***

Dialog Name: VAL-CRC ORDER DCBE PREP KIT

This element is a local class, so local sites can remove it from dialog if needed.

FINDING ITEM: HF VA-CRC ORDER DCBE PREP KIT

Select ADDITIONAL FINDINGS: Enter name of local quick order here

- k) ***Map quick order for ordering an e-Consult to the GI service to the following group and element. Do not remove national health factor in the finding item field.***

This group is left as local intentionally. It can be disabled at the local level if an option for ordering an e-Consult is not appropriate.

- 8. Compare the following TIU template fields to the settings captured before installation. Make any necessary changes.**
- a. VA-VAMC NAME
 - b. VA-CRC POC PHONE NUMBER

9. Enable the CONFIRM research study group in the VA-CRC COLONOSCOPY AVG RISK dialog and add local content if appropriate.

The VA-CRC COLONOSCOPY AVG RISK dialog has a group named **VAL-CRC AVG RISK CONFIRM** set as a local class embedded in the “Other Options:” section. This is for sites to add a CONFIRM research option if their site is participating in the study and their process requires an option on the Average Risk CRC screen reminder. The group is distributed with a status of disabled, so not to display for most sites. It will need to be enabled and configured to local policies for use.

Below is a screenshot of the “Other Options” section of the Average Risk CRC Screen dialog with the VAL-CRC AVG RISK CONFIRM group enabled. The group will need to be configured locally for use.

Other Options:

- ☒ Establish a new due date for average risk colorectal cancer screening or Colonoscopy reminders (justification required)
- ☐ Request eConsult for assistance or recommendations
- ☒ Placeholder for CONFIRM option if appropriate

```

10. Make the Dialog able to be attached to a Personal/Shared template or to a progress note title.

From the Reminders Manager Menu:

Select Reminder Managers Menu Option: **CP CPRS Reminder Configuration**

CA Add/Edit Reminder Categories

CL CPRS Lookup Categories

CS CPRS Cover Sheet Reminder List

MH Mental Health Dialogs Active

PN Progress Note Headers

RA Reminder GUI Resolution Active

TIU TIU Template Reminder Dialog Parameter

DL Default Outside Location

PT Position Reminder Text at Cursor

Select CPRS Reminder Configuration Option: **TIU TIU Template Reminder Dialog Parameter**

Reminder Dialogs allowed as Templates may be set for the following:

1 User USR [choose from NEW PERSON]

3 Service SRV [choose from SERVICE/SECTION]

4 Division DIV [choose from INSTITUTION]

5 System SYS [NATREM.FO-SLC.MED.VA.GOV]

Enter selection: **5** Choose the appropriate number for your site. Your site may do this by System or other levels. The example below uses SYSTEM level

Setting Reminder Dialogs allowed as Templates for System:

Select Display Sequence: **?**

148 VA-VETERANS CHOICE NOTE

149 VA-TBI SCREENING

*When you type a question mark above, you will see the list of #'s (with dialogs) that are already taken. Choose a number **NOT** on this list. For this example, looking above I see the number 150 is not present, so I will use 150.*

Select Display Sequence: **150**

Are you adding 150 as a new Display Sequence? Yes// **Y YES**

Display Sequence: 150// **<Enter>** 150

Clinical Reminder Dialog: **type in the name of the dialog**

VA-CRC PATIENT FOLLOW UP

then **<enter>** reminder dialog NATIONAL

OK? Yes// **<Enter>** (Yes)

You can set this new reminder dialog up connected to a letter/note title or shared template at your site, we recommend you review with your local PC leadership and GI to see if use of this optional template would be beneficial for your site. All the components are local and can be edited.

NOTE: If you require further technical assistance, if there are any questions or problems during the installation, please notify your local IT support to log a national help desk ticket or contact the VA Service Desk and have them submit a national ticket to:
