1   Introduction

Patch DG*5.3*940 is being released to support the enhancements for the Enterprise Health Benefits Determination (EHBD) program that focuses on updates for the Enrollment System Modernization (ESM) project, which supports Enrollment System Community Care (ESCC).

DG*5.3*940 is also being released in support of the Enrollment System (ES) 4.7.0 release. Refer to Informational Patch EAS*1*153 (Enrollment Application System) for additional details regarding the ES release.

2   Purpose

These Release Notes cover the changes to the VistA REE system for this patch release.

3   Audience

This document targets users and administrators of the VistA REE system and applies to the changes made between this release and any previous release for this software. Therefore, the users and administrators are deemed competent in using existing applications.

4   This Release

The following sections provide a summary of the new features and functions added, enhancements and modifications to the existing software, and any known issue for VistA REE Patch DG*5.3*940.

The DG*5.3*940 software will be distributed as a PackMan message included with the patch message.

4.1 New Features and Functions Added

There are no new features added to VistA REE.

4.2 Enhancements and Modifications to Existing

The DG*5.3*940 software will add the "Permanent and Total (P&T) Disabled" field to the Patient Inquiry Screens in VistA and to the Computerized Patient Record System (CPRS).

Patch 940 will add a new Enrollment Status of "Closed Application" to VistA and create a new field in VistA, "Reason for Closed Application". The patch will allow VistA to store and display a new Enrollment Status of "Closed Application" and to receive a new field from ES, "Reason for Closed Application" on the Patient Enrollment Screen.

RTC # 788110 – Add Permanent and Total Disabled (P&T) Field to VistA Patient Inquiry
RTC # 773045 – Closed Application (VistA)
RTC # 773046 – View Closed Applications in VistA

List of Updates

This patch makes the following enhancements to the Veterans Health Information Systems and Technology Architecture (VistA):
