TECHNICAL MANUAL

Version 2.0

October 1994
Revised <mark>January 2019</mark>

Department of Veterans Affairs
Office of Enterprise Development
Management, Enrollment and Financial Systems (MEFS)

Revision History

Date	Description	Project Manager (beginning 1/19/05)	Author
10/9/01	Added OBX segment to ORU~Z07 HL7 Message Definition in Appendix A		Karen Stella
10/9/01	Updated OBX segment in ORF~Z11 and ORU~Z11 HL7 Message Definitions in Appendix A		Karen Stella
10/9/01	Updated OBX Segment Table in Appendix B to include NTR data descriptions		Karen Stella
10/9/01	Added VA0052 and VA0053 to Supported/User-Defined Tables section in Appendix B		Karen Stella
10/19/01	Added OBX segment to ORF~Z07 HL7 Message Definition in Appendix A		Karen Stella
10/19/01	Added ORU/ORF~Z10 HL7 Message Definitions in Appendix A		Karen Stella
10/19/01	Added sequences 24 – 26 to ZMT segment table definition in appendix B		Karen Stella
10/19/01	Added sequences to 22 – 23 to ZIC Segment Table Definition in Appendix B		Karen Stella
10/19/01	Added sequences 6 – 13 to ZCD Segment Table Definition in Appendix B		Karen Stella
10/19/01	Added ZIV to Segment Table Definitions in Appendix B		Karen Stella
10/30/01	Added ORU/ORF to HL7 Message Events Table in Appendix A		Karen Stella
12/7/01	Added ORF~Z06 to HL7 Message Definitions in Appendix A		Karen Stella
12/7/01	Updated ZMT Segment Table in Appendix A		Karen Stella
12/7/01	Added Table VA0051 to Supported/User-Defined Tables section in Appendix B		Karen Stella
12/7/01	Updated Table VA15 in Supported/User-Defined Tables section in Appendix B		Karen Stella
12/7/01	Updated Table VA0035 in Supported/User-Defined Tables section in Appendix B		Karen Stella
1/2/2002	Updated Enrollment Trigger Events section in Appendix A		Kevin Louck Bob Shetler
1/10/02	Added ZMH Segment Table to Segment Table Definitions in Appendix B		Brian Morgan
4/18/02	Changed narrative occurrences of HL7 V. 1.5 to reflect V. 1.6		Karen Stella
4/18/02	Corrected descriptions of ORU/ORF~Z10 to reflect that they are communications FROM HEC		Karen Stella
5/22/02	Updated date in footers		Karen Stella
5/23/02	Updated ZEL Segment Table in Appendix B		Karen Stella
5/23/02	Added PD1 Segment Table to Segment Table Definitions in Appendix B		Karen Stella
5/31/02	Updated ZMT Segment Table in Appendix B to reflect new test type		Karen Stella

Date	Description	Project Manager (beginning 1/19/05)	Author
10/1/02	Updated HL7 Message Definitions in Appendix A HL7 to support Address Indexing		Brian Morgan
10/7/02	Updated HL7 Segment Table Definitions in Appendix B to support Geographic Means Test and Address Indexing		Karen Stella
11/4/02	Updated HL7 Appendices B to support Geographic Means Test and Address Indexing		Karen Stella
11/5/02	Updated HL7 Appendices B to support Geographic Means Test and Address Indexing		Karen Stella
11/19/02	Added Sequence 34 to ZEL Segment Table Definitions in Appendix B to support Geographic Means Test and Address Indexing		Karen Stella
11/21/02	Added Appendix D – HL7 Flow Diagram		Karen Stella
2/11/03	Added Table VA0040 to Appendix D to support Enrollment Sub-Priority Group		Karen Stella
2/12/03	Updated Table VA0035 in Appendix D to support Enrollment Sub-Priority Group		Karen Stella
2/14/03	Updated Table VA 0004 in appendix D to include Purple Heart code		Brian Morgan Karen Stella
3/3/03	Updated MSH Segment Table in Appendix B (IVM*2*69)		Eric Gustin Karen Stella
3/4/03	Added FTI Segment Table in Appendix B (IVM*2*69)		Eric Gustin Karen Stella
3/4/03	Updated PID Segment Table in Appendix B (IVM*2*69)		Eric Gustin Karen Stella
3/4/03	Updated PD1 Segment Table in Appendix B (IVM*2*69)		Eric Gustin Karen Stella
3/4/03	Updated ZIC Segment Table in Appendix B (IVM*2*69)		Eric Gustin Karen Stella
3/4/03	Updated ZDP Segment Table in Appendix B (IVM*2*69)		Eric Gustin Karen Stella
3/4/03	Updated ZIR Segment Table in Appendix B (IVM*2*69)		Eric Gustin Karen Stella
3/4/03	Updated ZIV Segment Table in Appendix B (IVM*2*69)		Eric Gustin Karen Stella
3/4/03	Updated ZMT Segment Table in Appendix B (IVM*2*69)		Eric Gustin Karen Stella
3/4/03	Updated HL7 Data Types Table in Appendix B (IVM*2*69)		Eric Gustin Karen Stella
3/4/03	Updated HL7 Message Definitions in Appendix A (IVM*2*69)		Eric Gustin Karen Stella
3/4/03	Updated list of HL7 Segments in Appendix A (IVM*2*69)		Eric Gustin Karen Stella
3/7/03	Updates per team feedback		Pat Wilson Karen Stella
5/13/03	Updated ORF/ORU~Z07, ORF/ORU~Z11 message definitions in Appendix A (IVM*2*75)		Chintan Naik Karen Stella

Date	Description	Project Manager (beginning 1/19/05)	Author
5/13/03	Updated ZEL Segment Table in Appendix B (IVM*2*75)		Chintan Naik Karen Stella
6/19/03	Updated ORU~Z05 message definition in Appendix A (IVMB*2*739)		Stu Kovach Karen Stella
6/19/03	Updated EDB references in Appendix A		Pat Wilson
8/8/03	Updated the VA-Specific Patient Information Segment (ZPD) in Appendix B HL7 Table Segment Definitions (IVM*2*85) to accommodate the additional Date of Death enhancement information (source of notification for date of death, date of last entry or update, and submitter/user information).		Tom Hamilton
8/11/03	Updated ORU~Z05, ORU~Z07, ORF~Z07, ORU~Z11, and ORF~Z11 message definitions in Appendix A (IVMB*2*85)		Tom Hamilton
8/11/03	Updated the VA-Specific Patient Information Segment (ZPD) in Appendix B HL7 Table Segment Definitions (IVM*2*85) 31 and 32 based on team feedback.		Tom Hamilton
3/3/04	Removed the ZPD VA-Specific Patient Info Segment Sequence #s 31 & 32 (IVM*2*85) from the Demographic Data Transmission - ORU~Z05 HL7 message definition in Appendix A.		Tom Hamilton
3/12/04	Added ZMH to the following message definitions in Appendix A: • ORU/ORF~Z07 • ORU/ORF~Z11		Karen Stella (per email from Pat Wilson)
5/20/04	Added ZMT VA-Specific LTC Co-Pay Exemption Test Information segment sequences 1-4,7,9-10,12,16-18,22,25 to the ORF~Z10 message definition in Appendix A (IVM*2*56) Added sequences to segments QRD, QRF, ZIC and ZMT in the ORF~Z10 message definition in Appendix A (IVM*2*56)		Tom Hamilton
5/20/04	Added sequences to segments PID, ZPD, ZIE, ZEL, ZCD and OBX in the ORF~Z11 message definition in Appendix A (IVM*2*56)		Tom Hamilton
5/20/04	Updated the VA-Specific Patient Ineligible Segment (ZIE) table for seq. #s 5, 6 and 7 in Appendix B HL7 Table Segment Definitions (IVM*2*56)		Tom Hamilton
5/20/04	Updated the VA-Specific Military History Segment (ZMH) table for seq. #s 2, 3 and 4 in Appendix B HL7 Table Segment Definitions (IVM*2*56)		Tom Hamilton
5/20/04	Added Table VA038 - Military History Type in Appendix D - Supported/User-Defined VA HL7 Tables (IVM*2*56)		Tom Hamilton

Date	Description	Project Manager (beginning 1/19/05)	Author
5/24/04	Updated the VA-Specific Emergency Contact Segment (ZCT) table TBL# for SEQ 8 & 9 from VA01 To VA001 in Appendix B HL7 Table Segment Definitions (IVM*2*56)		Tom Hamilton
5/24/04	Updated the VA-Specific Patient Eligibility Segment (ZEL) table TBL# for seq. #s 2, 5, 8, 10, and 14-20 in Appendix B HL7 Table Segment Definitions (IVM*2*56). Also added missing information for seq. 29, Agent Orange Exposure Location, and new seq. #s 36, 37 and 38 in same VA-Specific Patient Eligibility Segment (ZEL) table.		Tom Hamilton
5/27/04	Added ZEL sequences 29, 37 & 38 to the ORU~Z07/ ORF~Z07 message definitions in Appendix A (IVM*2*56)		Tom Hamilton
6/3/04	Added COMBAT VETERAN END DATE (.5295) Enrollment Trigger Event to the *Trigger Events Implemented via Cross-References* table in Appendix A (IVM*2*56)		Tom Hamilton
8/6/04	Added ZEL sequence 22 to the ORF/ORU~Z07 HL7 message definitions and ZEL sequence 38 to the ORF/ORU~Z11 HL7 message definitions in Appendix A. Added sequence 33, Filipino Veteran Proof, to the ZPD (VA Specific Patient Info Segment) HL7 Segment Table Definitions in Appendix B. Added ZPD sequence 33 to the ORF/ORU~Z07 HL7 message definition in Appendix A. Added new Table VA048 - Filipino Veteran Proof in Appendix D. (IVM*2*97)		Debbie Myers
10/19/04	Corrected Sequence 24 in the VA-Specific Patient Eligibility Segment (ZEL) table in Appendix B.		Pat Wilson Tom Hamilton
10/29/04	Updated table of contents to include ZMH segment table and several supported HL7 reference tables.		Karen Stella
11/04/04	Added PID (Patient Identification Segment) sequence 2, PD1 Patient Demographic 1 Segment (SEQ 3), ZMT VA-Specific Means Test Information Segment sequences 22-29, ZMT VA-Specific LTC Test Information Segment (SEQ 1-5,7,9-10,12,16-18,22,25), ZCD VA-Specific Catastrophic Disability Segment sequences 6-13, ZIC VA-Specific Income Segment sequences 22 & 23, and OBX Observation/Result Segment sequence 12 to the ORF/ORU~Z07 HL7 message definitions in Appendix A. Deleted Sequences 5-12 in the Patient Demographic 1 Segment (PD1) table in the HL7 Segment Table Definitions in Appendix B.		Pat Wilson Tom Hamilton

Date	Description	Project Manager (beginning 1/19/05)	Author
11/10/04	Added curly brackets indicating a repeating segment to the ZMH segment in the ORF/ORU~Z07/Z11 HL7 message definitions in Appendix A.		Terry Moore Tom Hamilton
01/04/05	Checked and updated for 508 compliance by adding alt text to graphics.		Tom Hamilton
1/19/05	Updates to ORU~Z05 message definition in Appendix A	Katherine Harris	Karen Stella
1/19/05	Updates to ZPD segment element names in Appendix B	Katherine Harris	Karen Stella
4/22/05	Updated ZPD segment, sequence length of Sequence 33, in Appendix B per email discussion with ESR team members	Katherine Harris	Karen Stella
4/22/05	Added Table 0048 to Appendix C	Katherine Harris	Karen Stella
4/22/05	Added Table 0126 to Appendix C	Katherine Harris	Karen Stella
4/22/05	Updated ORU~Z07 message definition in Appendix A per email from Laurie Sheppard	Katherine Harris	Laurie Sheppard Karen Stella
4/22/05	Added supplemental data tables following the ZMH segment table in Appendix B per email from Pat Wilson	Katherine Harris	Pat Wilson Terry Moore Karen Stella
4/25/05	Added Table 0017 (Transaction Type) to Appendix C	Katherine Harris	Karen Stella
4/25/05	Added Table 0105 (Source of Comment) to Appendix C	Katherine Harris	Karen Stella
4/25/05	Added Table 0005 (Race) to Appendix C	Katherine Harris	Karen Stella
4/25/05	Added Table 0006 (Religion) to Appendix C	Katherine Harris	Karen Stella
4/25/05	Added Table 0189 (Ethnic Group) to Appendix C	Katherine Harris	Karen Stella
4/25/05	Added Table 0136 (Yes/No Indicator) to Appendix C	Katherine Harris	Karen Stella
4/25/05	Added Table 0106 (Query/Response Format Code) to Appendix C	Katherine Harris	Karen Stella
4/25/05	Added Table 0091 (Query Priority) to Appendix C	Katherine Harris	Karen Stella
4/25/05	Added Table 0108 (Query Results Level) to Appendix C	Katherine Harris	Karen Stella
4/25/05	Added Table 0125 (Value Type) to Appendix C	Katherine Harris	Karen Stella
4/25/05	Added Table 0078 (Abnormal Flags) to Appendix C	Katherine Harris	Karen Stella
4/25/05	Added Table 0080 (Nature of Abnormal Testing) to Appendix C	Katherine Harris	Karen Stella
4/25/05	Added Table 0085 (Observation Result Status Codes Interpretation) to Appendix C	Katherine Harris	Karen Stella
4/25/05	Added Table 0283 (Referral Status) to Appendix C	Katherine Harris	Karen Stella
4/25/05	Added Table 0280 (Referral Priority) to Appendix C	Katherine Harris	Karen Stella
4/25/05	Added Table 0281 (Referral Type) to Appendix C	Katherine Harris	Karen Stella
4/25/05	Added Table 0282 (Referral Disposition) to Appendix C	Katherine Harris	Karen Stella

Date	Description	Project Manager (beginning 1/19/05)	Author
4/25/05	Added Table 0283 (Referral Category) to Appendix C	Katherine Harris	Karen Stella
4/25/05	Added Table VA041 (Determination Method) to Appendix D	Katherine Harris	Karen Stella
4/29/05	Added Table VA042 (Affected Extremity) to Appendix D	Katherine Harris	Karen Stella
4/29/05	Added Table VA043 (Condition Codes) to Appendix D	Katherine Harris	Karen Stella
4/29/05	Added Table VA045 (CD Permanent Indicator) to Appendix D	Katherine Harris	Karen Stella
4/29/05	Added Table VA017 (Enrollment Priority) to Appendix D	Katherine Harris	Karen Stella
4/29/05	Added Table VA022 (Radiation Exposure Method) to Appendix D	Katherine Harris	Karen Stella
4/29/05	Added Table VA036 (Military Sexual Trauma Status) to Appendix D	Katherine Harris	Karen Stella
4/29/05	Added placeholder for Table VA010 (Means Test Indicator) to Appendix D	Katherine Harris	Karen Stella
4/29/05	Added placeholder for Table VA060 (Type of Financial Test) to Appendix D	Katherine Harris	Karen Stella
4/29/05	Added Table VA012 (Type of Insurance) to Appendix D	Katherine Harris	Karen Stella
4/29/05	Added placeholder for Table 0176 (Master File Application Identifier) to Appendix C	Katherine Harris	Karen Stella
4/29/05	Added placeholder for Table 0102 (Delayed Acknowledgement Type) to Appendix C	Katherine Harris	Karen Stella
4/29/05	Added Table 0155 (Accept/Application Acknowledgement Conditions) to Appendix C	Katherine Harris	Karen Stella
4/29/05	Added Table 0211 (Alternate Character Sets) to Appendix C	Katherine Harris	Karen Stella
4/29/05	Added Table 0356 (Alternate Character Set Handling Scheme) to Appendix C	Katherine Harris	Karen Stella
4/29/05	Removed Table VA021 (Enrollment Priority) from Appendix D. (Replaced by Table VA017).	Katherine Harris	Karen Stella
4/29/05	Added code column to Table VA033 (Fee Basis Treatment Code Type)	Katherine Harris	Karen Stella
4/29/05	Added code column to Table VA034 (Fee Basis Program)	Katherine Harris	Karen Stella
4/29/05	Changed column heading Value to Code in all tables in Appendices C and D	Katherine Harris	Karen Stella
4/29/05	Added placeholder for Table 0072 (Insurance Plan ID) to Appendix C	Katherine Harris	Karen Stella
4/29/05	Added placeholder for Table 0132 (Transaction Code) to Appendix C	Katherine Harris	Karen Stella
4/29/05	Added placeholder for Table 0024 (Fee Schedule) to Appendix C	Katherine Harris	Karen Stella
4/29/05	Added placeholder for Table 0049 (Department Code) to Appendix C	Katherine Harris	Karen Stella
4/29/05	Added placeholder for Table 0018 (Patient Type) to Appendix C)	Katherine Harris	Karen Stella

Date	Description	Project Manager (beginning 1/19/05)	Author
4/29/05	Added placeholder for Table 0051 (Diagnosis Code) to Appendix C	Katherine Harris	Karen Stella
4/29/05	Added placeholder for Table 0084 (Performed by Code) to Appendix C	Katherine Harris	Karen Stella
4/29/05	Added placeholder for Table 0088 (Procedure Code) to Appendix C	Katherine Harris	Karen Stella
4/29/05	Added Placeholder for Table 0340 (Procedure Code Modifier) to Appendix C	Katherine Harris	Karen Stella
4/29/05	Added placeholder for Table 0296 (Primary Language) to Appendix C	Katherine Harris	Karen Stella
4/29/05	Added placeholder for Table 0171 (Citizenship) to Appendix C	Katherine Harris	Karen Stella
4/29/05	Added placeholder for Table 0172 (Veterans Military Status) to Appendix C	Katherine Harris	Karen Stella
5/4/05	Added Table VA010 (Means Test Indicator) to Appendix D	Katherine Harris	Karen Stella
5/4/05	Added Table 0132 (Transaction Code) to Appendix C	Katherine Harris	Karen Stella
5/4/05	Added Table VA060 (Type of Financial Test) to Appendix D	Katherine Harris	Karen Stella
5/4/05	Removed placeholder for Table 0176 (Master File Application Identifier) in Appendix C; removed references from all segment tables in Appendix B	Katherine Harris	Karen Stella
5/4/05	Added Table 0024 (Fee Schedule) to Appendix C	Katherine Harris	Karen Stella
5/4/05	Added Table 0018 (Patient Type) to Appendix C)	Katherine Harris	Karen Stella
5/4/05	Added Table 0102 (Delayed Acknowledgement Type) to Appendix C	Katherine Harris	Karen Stella
5/4/05	Added Table 0049 (Department Code) to Appendix C	Katherine Harris	Karen Stella
5/4/05	Added Table 0051 (Diagnosis Code) to Appendix C	Katherine Harris	Karen Stella
5/4/05	Removed placeholder for Table 0084 (Performed by Code) in Appendix C; removed references from all segment tables	Katherine Harris	Karen Stella
5/4/05	Added Table 0088 (Procedure Code) to Appendix C	Katherine Harris	Karen Stella
5/4/05	Added Table 0340 (Procedure Code Modifier) to Appendix C	Katherine Harris	Karen Stella
5/4/05	Removed placeholder for Table 0296 (Primary Language) from Appendix C; removed references from all segment tables in Appendix B	Katherine Harris	Karen Stella
5/4/05	Removed placeholder for Table 0171 (Citizenship) to Appendix C; removed references from all segment tables in Appendix B	Katherine Harris	Karen Stella
5/4/05	Added Table 0172 (Veterans Military Status) to Appendix C	Katherine Harris	Karen Stella
5/4/05	Removed placeholder for Table 0072 (Insurance Plan ID) from Appendix C;	Katherine Harris	Karen Stella

Date	Description	Project Manager (beginning 1/19/05)	Author
	removed references from all segment tables in Appendix B		
5/4/05	Removed references to IV tables from ZIV segment table in Appendix B	Katherine Harris	Karen Stella
5/4/05	Removed Table 0132 (Transaction Code) from Appendix C; removed reference from the FTI segment table in Appendix B	Katherine Harris	Pat Wilson Karen Stella
5/4/05	Updated the FTI segment table in Appendix B based on email from Pat.	Katherine Harris	Pat Wilson Karen Stella
5/4/05	Updated the ZIV segment table in Appendix B based on email from Pat.	Katherine Harris	Pat Wilson Karen Stella
9/20/05	Updated ZPD segment table in Appendix B (IVM*2.0*113)	Katherine Harris	Karen Stella
9/20/05	Updated ORU~Z07, ORF~Z07, ORU~Z11, and ORF~Z11 message definitions in Appendix A (IVM*2.0*113)	Katherine Harris	Karen Stella
9/22/05	Updated Enrolment Trigger Events in Appendix A	Katherine Harris	Karen Stella
10/25/05	IVM Address Change Log File #301.7 added to Files List (IVM*2*108)	Katherine Harris	Tavia Leonard
12/16/05	IVM*2*109 – Enrollment VistA Changes Early Release – updated Table VA004 in Appendix D	Katherine Harris	Karen Stella
12/16/05	IVM*2*109 – Enrollment VistA Changes Early Release – updated Table VA015 in Appendix D	Katherine Harris	Karen Stella
2/9/06	IVM*2*109 – Enrollment VistA Changes Early Release – updated ZEL segment in Appendix B	Katherine Harris	Karen Stella
2/9/06	IVM*2*109 – Enrollment VistA Changes Early Release – modified the ORU~Z07 and ORF~Z07 message definitions in Appendix A	Katherine Harris	Karen Stella
2/9/06	IVM*2*109 – Enrollment VistA Changes Early Release – modified the ORU~Z11 and ORF~Z11 message definitions in Appendix A	Katherine Harris	Karen Stella
3/16/06	IVM*2*114 -Updated ORU~Z07, ORF~Z07, and ORF~Z11 message definitions in Appendix A	Katherine Harris	Tavia Leonard
3/16/06	IVM*2*114 -Added Table VA026 Military Service Component in Appendix D	Katherine Harris	Tavia Leonard
3/18/06	IVM*2*114 -Updated Enrollment Trigger Events in Appendix A	Katherine Harris	Tavia Leonard
3/19/06	IVM*2*114 -Updated ZPD segment table in Appendix B	Katherine Harris	Tavia Leonard
5/22/06	IVM*2*105 – Enrollment VistA Changes Release 1 - Modified the ORU~Z07 and ORF~Z07 message definitions in Appendix A	Laura Prietula	Terry Moore Karen Stella
5/22/06	IVM*2*105 – Enrollment VistA Changes Release 1 – updated the following segments in Appendix B: • RF1 • ZCT	Laura Prietula	Terry Moore Karen Stella

Date	Description	Project Manager (beginning 1/19/05)	Author
	• ZDP • ZEL • ZIO • ZIR • ZMT • ZTA		
5/23/06	IVM*2*105 – Enrollment VistA Changes Release 1 – Added a portion of Table 0115 (Servicing Facility) to Appendix C	Laura Prietula	Terry Moore Karen Stella
7/13/06	IVM*2*21 (released 8/19/99) – National Reenrollment (a.k.a. Enrollment Phase Two) – removed Eligibility Code 21 (Catastrophically Disabled) from Table VA004 in Appendix D	Katherine Harris	Karen Stella (per email from Darlene Morris)
8/30/06	DG*5.3*656 – Add Field Triggers for ORU~Z07s – added enrollment trigger events to Appendix A for multiple fields listed in patch description	Katherine Harris	Karen Stella
9/14/06	Retrofit changes made by Tavia Leonard for IVM*2*114 - Operation Enduring & Iraqi Freedom (Z07 Enhancements) (See Revision History entries for 3/16/06-3/19/06.)	Katherine Harris	Karen Stella
9/12/2006	DG*5.3*656 – Add Field Triggers for ORU~Z07s – removed enrollment trigger events from Appendix A for five fields listed in patch description	Katherine Harris	Karen Stella
9/28/06	IVM*2*105 – Enrollment VistA Changes Release 1 – Additional updates to segment tables in Appendix B	Laura Prietula	Terry Moore Karen Stella
10/19/06	IVM*2*105 – Enrollment VistA Changes Release 1 – Updated footers to reflect correct release month and patch number	Laura Prietula	Karen Stella
7/12/07	IVM*2*105 – Enrollment VistA Changes Release 1 – Updated footers to reflect correct release month and patch number. Removed Draft indicators.	Laura Prietula	Tom Hamilton
10/23/08	IVM*2*115 - Enrollment VistA Changes Release 2 – Changed Environmental Contaminants to SW Asia Conditions. Updated ORU~Z10, ORF~Z10, ORU~Z11 & ORF~Z11 sections. Appendix B – HL7 Segment Table Definition updates.	Laura Prietula	Cory Spielvogle/Tom Hamilton
10/30/08	IVM*2*115 - Enrollment VistA Changes Release 2 – Updated ORU~Z07 & ORF~Z07 sections.	Laura Prietula	Cory Spielvogle/Tom Hamilton
11/4/08	IVM*2*115 - Enrollment VistA Changes Release 2 – Updated footer date to reflect new Release Date. Changed *Austin Automation Center(AAC)* to *Austin Information Technology Center(AITC)*.	Laura Prietula	Tom Hamilton
11/07/08	IVM*2*115 - Enrollment VistA Changes Release 2 – Updated Z06, Z10 & Z11	Laura Prietula	Tom Hamilton

Date	Description	Project Manager (beginning 1/19/05)	Author
	sections per SQA . Removed Draft indicators.		
3/18/09	IVM*2*115 - Enrollment VistA Changes Release 2 – Updated footers to reflect new Release Date.	Laura Prietula	Tom Hamilton
4/10/09	DG*5.3*803 – Relaxed Priority Group 8 Changes – Added Code 8 to Table VA017 in Appendix D. Added sub-categories 'b' and 'd' to Table VA035 in Appendix D.	Lynne Case	Tom Hamilton
9/16/09	IVM*2*121 –Veteran Online Applications Changes- Updated IVM Transmission Error Processing Option. Added IVM Upload Insurance Screen. Added new sequence fields to HL7 messages.	Lynne Case	Tavia Leonard
5/19/10	IVM*2*121 –Veteran Online Applications Changes – Updated ZCT, ZPD sequences of ORU~Z04, ZPD, ZRD, ZDP seq. of ORU~Z07, ZPD, ZEM, ZDP seq. of ORF~Z07, ZDP seq. of ORU~Z10, ZDP seq. of ORF~Z10, ZDP seq. of ORU~Z11 data transmissions.	Brian Morgan	Tom Hamilton
5/27/10	IVM*2*121 –Veteran Online Applications Changes – Enrollment Trigger Events Implemented via File Cross-References were added.	Brian Morgan	Tom Hamilton
8/25/10	IVM*2*121 –Veteran Online Applications Changes – ESR 3.1_CCR10343 - removed PID-24 from the Z05 message. CCR10345 - removed ZPD-6 & ZPD-7 from the Z05 & Z07 messages. CCR10346 - removed ZEM-4 & ZPD-6 from the Z07 messages for the Veteran. Made changes to the ORF~Z07 PID segment to match the ORU~Z07 PID segment.	Brian Morgan	Tom Hamilton
3/7/11 – 3/16/11	IVM*2*TM_PF DG*5.3*838 made changes to Preferred Facility and the Z11 receiver; no associated IVM patch was necessary. Changes ESR 3.5_CR9620 – Added ZEN-14 to the ORF-Z11 and ORU-Z11 messages. Added Preferred Facility to the Triggers Added ZEN 14 to the ZEN HL7 Message Segment	Glenda Miller	Darlene Morris
7/1/11	IVM*2*151 –Add a Person Changes – ESR 3.5 CCR10441 – reversal of code to allow ORU-Z05 ZTA, ZEM and ZCT segments CCR10442 – reversal of code to allow ZPD-6 & ZPD-7 in the Z05 and Z07 messages CCR10443 – reversal of code to allow ZEM-4 & ZPD-6 in the Z07 message	Jennifer Freese	Tom Hamilton

Date	Description	Project Manager (beginning 1/19/05)	Author
10/12/11	IVM*2*151 –Add a Person Changes – ESR 3.5 Removed Draft indicator for final. Updated footer date from July to December.	Jennifer Freese	Tom Hamilton
11/19/2011	IVM*2.0*141 - Updated ZMH tables • Added information to SL, SNL, and SNNL rows • Added MSD service indicators/qualifiers identified for the ZMH segment.	Laurie Sheppard	Jill Headen
11/30/2011	IVM*2.0*141 - Added MSD to the VA038 – Military History Type Table, updated footer dates to new Release Date.	Richard Karbarz	Darlene Morris
12/5/2011	IVM*2.0*141 - TW Review, minor formatting, removed Draft indicator for final review.	Glenda Miller	Tom Hamilton
3/26/2012	IVM*2*150 –VBA Pension Data Sharing Changes – ESR 3.6 New HL7 message segment ZE2 added to patient data exchange table, and to ORU~Z07, ORF~Z07, QRY, ORF~Z11, ORU~Z11 message definitions. Added *Pension Award* trigger events in Appendix A table. Added *VA-Specific Patient Eligibility (Addtl) Segment (ZE2)* table in seg. definition section in Appendix B. Added SEQ. 12&13 *(Class II Dental)* to *VA-Specific Service Period Segment (ZSP)* table seg. definition section in Appendix B. TW Review – updated footers, formatting.	Glenda Miller	Tom Hamilton
7/24/2012	IVM*2.0*152 – Permanent Address Verification Changes – ESR 3.8 Add new Referral Type PHH to RF1 segment	Glenda Miller	Linda Desmond Tom Hamilton
1/8/2013	IVM*2.0*152 – Permanent Address Verification Changes – ESR 3.8 Updated footer date to December 2012 Release date.	Glenda Miller	Tom Hamilton
4/16/2015	IVM*2.0*158 – Catastrophic Disability Descriptor Changes – ES 4.1, ZCD segment changes; added VA440 table	William Wigton	John Innis
5/12/2015	IVM*2.0*160 – Contributed to Spouse and BT Financial Indicator Changes – add Contributed to Spouse Indicator to VA-Specific Income Relation Segment (ZIR) HL7 Segment Table; add BTFI to the VA-Specific Means Test Information Segment (ZMT) HL7 Segment Table; add Contributed to Spouse - ZIR 15 to the ORF-Z07, ORU-Z07, ORF-Z10 and ORU-Z10 messages; add BT Financial Indicator - ZMT 31 sequence to the ORU-Z06, ORF-Z07, ORU-Z07, ORF-Z10 and ORU-Z10 messages.	Louise Rodebush	John Innis

Date	Description	Project Manager (beginning 1/19/05)	Author
	DG*5.3*906 – ACA Preference – add "ACA Preference" to Cancelled/Declined table DG*5.3*871 – Health Benefit Plan – add ZHP to the HL7 Segments; add ZHP segment to the ORF-Z07, ORU-Z07, ORF-Z11 and ORU-Z11 messages; and add VA-Specific Health Benefit Plan Segment (ZHP) to the HL7 Segment Tables.		
11/05/2015	TW review; DG_53_P891	Louise Rodebush	P&A Competency TW
11/23/15	DG*5.3*890 – Added Contributed to Spousal Support (E40822^DGRTRIG) to Trigger Events TW review	Louise Rodebush	Darlene Morris P&A Competency TW
3/21/2016	IVM*2.0*161 – Updated ZEL segment in ORU~Z07, ORF~Z07, ORF~Z11, and ORU~Z11 (Appendix A pp. 23, 25, 30, 31) Added CL-V trigger information (pp. 36-37) Added Camp Lejeune fields to the ZEL segment (p. 48).	Howard Bromwell	Matt Dill
09/06/2017	DG*5.3*940 – Modified the ORU/ORF-Z11 message definitions on pages 30 and 31. Sequence 15 was added to the ZEN segment of these message definitions. Modified Appendix B - VA-Specific Enrollment Segment (ZEN). Added Sequence 15: Reason For Closed Application (Page 50). Modified Appendix D Table VA015 Enrollment Status. Code 24 - Closed Application added to table (page 82). New table VA117 - Reason For Closed Application added to Appendix D (Page 87).	Delwin C. Johnson	D. Eaton
11/06/2017	DG*5.3*935 – Modified the ORU/ORF~Z11 message definitions on pages 30 and 31. Sequence 8 was added to the ZMH segment of these message definitions. Updated ZMH table (Appendix B p. 56) to include Future Discharge Date (Seq 8). IVM*2*167 - Updated ZMH table (Appendix B p. 56) with note that FDD will not occur on the ORU-07 and ORF-Z07.	Delwin C. Johnson	C. Thayer
10/24/2018	DG*5.3*947 – Reason for Early Separation: Modified the ORU/ORF~Z11 message definitions on pages 30 and 31. Sequence 9 was added to the ZMH segment of these message definitions. Updated ZMH table (Appendix B p. 55) to include Reason for Early Separation (Seq 9).	Delwin C. Johnson	Nagaraja Kumar Marri
12/05/2018	DG*5.3*941 - Updated Table 0363 Source of Address to include VET360 code (p. 77). IVM*2.0*164 – Added VA-Specific Address Validation Segment ZAV to HL7 Message Segment Table (p. 18), ORU~Z05 Transmission (p. 20), ORU~Z07	Delwin C. Johnson	J. Innis

Date	Description	Project Manager (beginning 1/19/05)	Author
	Transmission (p. 23), and ORF~Z07 Transmission (p. 25); Updated Enrollment Trigger Events Table to include field RESIDENTIAL ADDR CHANGE DT/TM (#.1158) with the PATIENT(#2) File (p. 32); Updated IVM Trigger Events Table to include Residential Address Cross-References IVM1151 – IVM1157 and IVM11571 – IVM11573 (p. 37); Added VA-Specific Address Validation Segment (ZAV) Table (p. 46).		
01/21/2019	IVM*2.0*175 – Reason for Early Separation Code: Modified the ORU/ORF~Z11 message definitions on pages 30 and 31. Sequence 10 was added to the ZMH segment of these message definitions. Updated ZMH table (Appendix B p. 55) to include Reason for Early Separation Code (Seq 10).	Delwin C. Johnson	John McManamon

Table of Contents

Introduction

Background

Public Law 101-508 permits the Department of Veterans Affairs (VA) to verify income data with the Internal Revenue Service (IRS) and Social Security Administration (SSA) for veterans receiving VA health care services whose eligibility for medical care is based on income. The income verification match process for Veterans Health Administration (VHA) medical facilities is centralized and performed at the Health Eligibility Center (HEC) in Atlanta, Georgia.

Functionality

IVM provides all of the functionality required to complete the eligibility verification process; electronically receive the revised VA Form 10-10F from the HEC; and automatically file the updated test in the **V**$_{IST}$**A** Means Test module.

User Interactive Functions	Noninteractive Functions
- View/verify patient demographic, insurance, and SSN information received from SSA and IRS - Upload verified data - View billing/collection and Means Test activity - Configure, monitor, and purge the IVM system	- Exchange of data, on an ad hoc basis, between your facility and the HEC via electronic transmissions - Scheduled transmission to the HEC of all Means Tests meeting IVM criteria, as well as IVM-related billing and collections activity, via the *IVM Background Job* option *Note: Certain enrollment events, when they occur, are also sent to the HEC via the nightly background job.*

Related Manuals

IVM V. 2.0 User Manual
IVM V. 2.0 Installation Guide
IVM V. 2.0 Release Notes

Integration

IVM V. 2.0 provides functionality that impacts Registration, Medical Care Cost Recovery (MCCR), and Information Resource Management (IRM) staff at your facility. It is highly integrated with the following packages:

Package Name	Integration
Patient Information Management System (PIMS)	• PIMS demographic, Means Test, enrollment, eligibility, and income information is sent to the HEC • Means Test and demographic information verified by the HEC is uploaded into PIMS files
Integrated Billing (IB)	IB provides billing and collections information, for billings resulting from IVM activity, that is transmitted back to the HEC and the Enrollment Database (EDB)
Health Level 7 (HL7)	Provides the foundation for all communications between your facility and the HEC

Implementation and Maintenance

There are three parameters included with the IVM software. These parameters, which can be edited through the IVM Parameter Enter/Edit option, control whether notification messages are sent to the IVM MESSAGES mail group when SSN, demographic, and insurance information is received from the HEC. If no entry is made, the default action is to generate the messages. This option may be used to inactivate the messages.

The background option *IVM Background Job* must be queued to run daily. It is recommended that it is run during non-peak hours. The option will transmit the following information to the HEC: Means Test, patient demographic, eligibility, income test, insurance, enrollment, and IVM-related billing and collections.

All IVM notifications generated by the system are sent to the *IVM Messages* mail group. At a minimum, both the IRM Support Specialist and the IVM systems coordinator should be added as members of this group.

No data in the IVM files should be edited. This data is added and maintained automatically by the module.

Routines

Per VHA Directive 10-93-142 regarding security of software that affects financial systems, most of the IVM routines may not be modified. The third line of routines that may not be modified is so noted. The IVM output routines in the IVMR* namespace are exempt from this requirement.

Callable Routines

The IVM package has no supported callable routines.

Routines to Map

It is recommended that the following routines be mapped.

IVML*
IVMR*
IVMU*

Routine List

Take the following steps to obtain a list of routines in the IVM V. 2.0 software:

1. Programmer Options Menu
2. Routine Tools Menu
3. First Line Routine Print Option
4. Routine Selector: IVM*

Files

Globals to Journal

The IVM global is the only global used with the IVM software and it should be journaled.

File List

Per VHA Directive 10-93-142 regarding security of software that affects financial systems, the IVM Data Dictionaries may not be modified. The file descriptions of these files are so noted.

File Number	File Name	Global
301.5	IVM PATIENT	^IVM(301.5
301.6	IVM TRANSMISSION LOG	^IVM(301.6
301.61	IVM BILLING TRANSMISSION	^IVM(301.61
301.63	IVM EXTRACT MANAGEMENT	^IVM(301.63
301.7	IVM ADDRESS CHANGE LOG	^IVM(301.7
301.9	IVM SITE PARAMETER	^IVM(301.9
301.91*	IVM REASONS FOR NOT UPLOADING INSURANCE	^IVM(301.91
301.92*	IVM DEMOGRAPHIC UPLOAD FIELDS	^IVM(301.92
301.93*	IVM CASE CLOSURE REASON	^IVM(301.93

*File comes with data

Take the following steps to obtain information about the files and templates in the IVM software:

File Flow (Relationships Between Files)

1. VA FileMan Menu
2. Data Dictionary Utilities Menu
3. List File Attributes Option
4. Enter File # or range of File #s
5. Select Listing Format: Standard
6. You will see what files point to the selected file. To see what files the selected file points to, look for fields that say "POINTER TO".

Templates

1. VA FileMan Menu
2. Print File Entries Option
3. Output from what File: Print Template
                                             Sort Template
                                             Input Template
                                             List Template
4. Sort by: Name
5. Start with name: IVM
6. Within name, sort by: <RET>
7. First print field: Name

Exported Options

Take the following are the steps to obtain information about menus, exported protocols, exported options, and exported remote procedures relating to the IVM package.

Menu Diagram

1. Programmers Options
2. Menu Management Menu
3. Display Menus and Options Menu
4. Diagram Menus
5. Select User or Option Name: O.IVM MAIN MENU

Exported Protocols

1. VA FileMan Menu
2. Print File Entries Option
3. Output from what File: PROTOCOL
4. Sort by: Name
5. Start with name: IVM
6. Within name, sort by: <RET>
7. First print field: Name

Exported Options

1. VA FileMan Menu
2. Print File Entries Option
3. Output from what File: OPTION
4. Sort by: Name
5. Start with name: IVM
6. Within name, sort by: <RET>
7. First print field: Name

Exported Remote Procedures

1. VA FileMan Menu
2. Print File Entries Option
3. Output from what File: REMOTE PROCEDURE
4. Sort by: Name
5. Start with name: IVM
6. Within name, sort by: <RET>
7. First print field: Name

Archiving and Purging

Archiving

There are no archiving capabilities included with the IVM software.

Purging

The Purge IVM Transmissions option allows IRM to purge entries from the IVM TRANSMISSION LOG File (#301.6) which are associated with closed cases (entries in the IVM PATIENT File (#301.5)) from the previous Means Test year).

Package-wide Variables

There are no package-wide variables associated with the IVM software package.

SACC Exemptions/Non-Standard Code

There are no SACC Exemptions associated with the IVM software package.

External/Internal Relations

External Relations

The following **V**ₗₛₜ**A** package versions (or higher) MUST be installed PRIOR to loading this version of IVM.

Kernel	V. 7.1
VA FileMan	V. 20.0
PIMS	V. 5.3
Integrated Billing	V. 2.0
OERR	V. 2.5
Vₗₛₜ**A** HL7	V. 1.6

DBIA Agreements

Take the following steps to obtain database integration agreements for the IVM package.

Custodial Package	Subscriber Package
1. FORUM	1. Forum
2. DBA MENU	2. DBA MENU
3. Integration Agreement Menu Custodial Package Menu	3. Integration Agreement Menu
4. Active by Custodial Package Option	4. Subscriber Package Menu
5. Select Package Name: IVM	5. Print Active by Subscriber Package Option
	6. Start with subscriber package: IVM

Internal Relations

All of the IVM V. 2.0 package options have been designed to stand alone.

Security

Security Management

Public Law 101-508 permits the Department of Veterans Affairs (VA) to verify income data with the Internal Revenue Service (IRS) and Social Security Administration (SSA) for veterans receiving VA health care services whose eligibility for medical care is based on income. The IVM process for Veterans Health Administration (VHA) medical facilities is centralized and performed at the HEC in Atlanta, Georgia.

Per VHA Directive 10-93-142 regarding security of software that affects financial systems and central data bases, IVM routines may not be modified with the following exception: IVMR* - IVM Reports. In compliance with this same directive, the IVM Data Dictionaries may not be modified.

Security Keys

Take the following steps to obtain information about the security keys contained in the IVM software:

1. VA FileMan Menu
2. Print File Entries
3. Output From What File: Security Key
4. Sort By: Name
5. Start With Name: First// IVM
6. Go To Name: Last// IVMZ
7. Within Name, Sort By: <RET>
8. First Print Field: Name
9. Then Print Field: Description

VA FileMan Access Codes

The following is a list of recommended VA FileMan access codes for the files in the IVM software.

File Number	File Name	DD Access	RD Access	WR Access	DEL Access	LAYGO Access
301.5	IVM PATIENT	@		@	@	@
301.6	IVM TRANSMISSION LOG	@		@	@	@
301.61	IVM BILLING TRANSMISSION	@		@	@	@
301.63	IVM EXTRACT MANAGEMENT	@		@	@	@
301.7	IVM ADDRESS CHANGE LOG	@		@	@	@
301.9	IVM SITE PARAMETER	@		@	@	@
301.91	IVM REASONS FOR NOT UPLOADING INSURANCE	@		@	@	@
301.92	IVM DEMOGRAPHIC UPLOAD FIELDS	@		@	@	@
301.93	IVM CASE CLOSURE REASON	@		@	@	@

How to Generate On-line Documentation

This section describes some of the various methods by which users may secure IVM technical documentation. On-line technical documentation pertaining to the IVM software, in addition to that which is located in the help prompts, may be generated through utilization of several Kernel options, including those listed in this section. Refer to the V*IST*A Kernel Reference Manual for further information about other utilities which supply on-line technical documentation.

Xindex

This option analyzes the structure of a routine(s) to determine in part if the routine(s) adheres to V*IST*A Programming Standards. The XINDEX output may include the following components: compiled list of errors and warnings, routine listing, local variables, global variables, naked globals, label references, and external references. By running XINDEX for a specified set of routines, the user might discover any deviations from V*IST*A Programming Standards which exist in the selected routine(s) and see how routines interact with one another, that is, which routines call or are called by other routines.

To run XINDEX for the IVM package, specify the IVM namespace at the "routine(s) ?>" prompt. IVM initialization routines which reside in the UCI in which XINDEX is being run, as well as local routines found within the IVM namespace, should be omitted at the "routine(s)?>" prompt. To omit routines from selection, preface the namespace with a minus sign (-).

List File Attributes

This VA FileMan option allows the user to generate documentation pertaining to files and file structure. Using this option via the "Standard" format will yield the following data dictionary information for a specified file(s): file name and description, identifiers, cross-references, files pointed to by the file specified, files which point to the file specified, input templates, print templates, and sort templates. In addition, the following applicable data is supplied for each field in the file: field name, number, title, global location, description, help prompt, cross-reference(s), input transform, date last edited, and notes.

Using the "Global Map" format of this option generates an output which lists all cross-references for the file selected, global location of each field in the file, input templates, print templates, and sort templates, when applicable. For a comprehensive list of IVM files, please refer to the FILES section of this manual.

Glossary

This glossary contains terms and their definitions as they relate to the IVM package.

Category A veteran   A patient who, as a result of Means Testing, is in the mandatory category in regard to eligibility for VA care.

Category C veteran   A patient who, as a result of Means Testing, is in the discretionary category in regard to eligibility for VA care.

Enrollment Database (EDB)   Oracle database physically located at the Austin Information Technology Center (AITC), formerly known as the Austin Automation Center, that will be the central repository for enrollment, eligibility, means test and IVM data.

Full Data Transmission   A complete information profile transmitted to the HEC containing patient demographic, eligibility, Means Test, income, insurance, and enrollment information.

HEC   Health Eligibility Center (formerly IVM Center)

HL7   Health Level 7 is an interface specification designed to standardize the way in which health care information is transferred between systems. IVM utilizes the V$_{IST}$A HL7 package to assist in transporting data using this specification.

IRS   Internal Revenue Service

IVM   Income Verification Match. A program designed to verify income and insurance data reported by the veteran with that received from IRS (Internal Revenue Service), SSA (Social Security Administration), and other sources.

Means Test   Eligibility for VA hospital care and nursing home care is divided into two categories - mandatory and discretionary. An income assessment is made to determine whether a non service-connected veteran, who is not in receipt of VA monetary benefits or otherwise exempt from income assessment, is eligible for cost-free VA medical care. This income assessment is known as "Means Testing". Patients whose income is above the defined income levels must agree to make copayments to VA for outpatient and inpatient care rendered.

SSA   Social Security Administration

Suggested SSN   Patient or spouse SSNs returned from SSA as possible matches based on name, sex, and date of birth. These SSNs will be validated by the HEC before being returned to the field facilities.

Third Party Claim   When a party other than the patient, such as an insurance company, is billed.

Appendix A - IVM Data Transmissions

Basic knowledge of the HL7 protocol is assumed and the information contained in the HL7 protocol will not be repeated *here*. Further information concerning the HL7 protocol may be found in the HL7 Interface Standards V. 2.3.1.

Purpose

This document specifies the purpose of the interface between the **V**$_{IST}$**A** IVM package and the HEC (non- **V**$_{IST}$**A**) system based on the HL7 protocol. It is intended that this interface form the basis for exchange of healthcare information between the **V**$_{IST}$**A** IVM package and the HEC system.

Scope

This document describes the messages that are exchanged between the **V**$_{IST}$**A** IVM package and the HEC (non- **V**$_{IST}$**A**) system for the purpose of exchanging income test, demographic, insurance, and enrollment information.

General

This application uses the abstract message approach and encoding rules specified by HL7. HL7 is used for communicating data associated with various events that occur in healthcare environments. For example, when a Means Test is added in **V**$_{IST}$**A**, the event will trigger a Full Data Transmission message to the HEC.

Communications Protocol

HL7 V. 1.6 of the VA MailMan lower level protocol (LLP) will be used to transmit HL7 messages between the local site and the HEC.

Background Messages

On a daily basis, the data associated with various events that occur in **V**$_{IST}$**A** will be transmitted to the HEC. The IVM Background Job option will be used to transmit a HL7 unsolicited Full Data Transmission (ORU~Z07) for each **V**$_{IST}$**A** event occurring that day.

Batch Messages

All HL7 unsolicited messages sent from the V*IST*A IVM application and received from the HEC (non- V*IST*A) system will be in a batch format. Each batch will contain 1-100 messages/records per batch.

HL7 Message Event Types

IVM V. 2.0 supports the receipt and transmission of the following HL7 message event types (data transmissions).

HL7 Transmission Name	HL7 MESSAGE TYPE	HL7 Event Code
SSN Data Transmission	ORU	Z03
Insurance Data Transmission	ORU	Z04
Follow-up Data Transmission	ORU	Z04
Demographic Data Transmission	ORU	Z05
Means Test Data Transmission	ORF/ORU	Z06
Full Data Transmission	ORF/ORU	Z07
Case Status Data Transmission	ORU	Z08
Billing/Collection Data Transmission	ORU	Z09
Income Test Data Transmission	ORU/ORF	Z10
Enrollment/Eligibility Data Transmission	ORF/ORU	Z11
V*IST*A – Initiated Enrollment/Eligibility Query Transmission	QRY	QRY
IVM – Initiated Query Transmission	QRY	QRY

HL7 Message Segments

IVM V.2.0 utilizes the following HL7 segments to support the exchange of patient data.

Segment ID	Segment Name
BHS	Batch Header Segment
BTS	Batch Trailer Segment
FT1	Financial Segment
IN1	Insurance Segment
LOC	Location Identification Segment
MFA	Master File Acknowledgement
MFE	Master File Entry Segment
MFI	Master File Identification Segment
MSA	Message Acknowledgement
MSH	Message Header
NTE	Notes And Comments Segment
OBX	Observation/Result Segment
PD1	Patient Demographic 1 Screen
PID	Patient Identification Segment
QRD	Query Definition Segment
QRF	Query Filter Segment
RF1	Referral Information Segment
ZAV	VA-Specific Address Validation Segment
ZBT	VA-Specific Beneficiary Travel Segment
ZCD	VA-Specific Catastrophic Disability Segment
ZCT	VA-Specific Emergency Contact Segment
ZDP	VA-Specific Patient Dependent Information Segment
ZEG	VA Specific Enrollment Group Threshold Segment
ZEL	VA-Specific Patient Eligibility Segment
ZE2	VA-Specific Patient Eligibility (Addtl) Segment
ZEM	VA-Specific Employment Information Segment
ZHP	VA-Specific Health Benefit Plan Segment
ZEN	VA-Specific Enrollment Segment
ZFE	VA-Specific Fee Basis Segment
ZGD	VA-Specific Guardian Segment
ZIC	VA-Specific Income Segment
ZIE	VA-Specific Patient Ineligible Segment
ZIO	VA-Specific Inpatient/Outpatient Information Segment
ZIR	VA-Specific Income Relation Segment
ZIV	VA-Specific Message Processing Segment
ZMH	VA-Specific Military History Segment
ZMT	VA-Specific Means Test/Copay Test Information Segment
ZPD	VA-Specific Patient Information Segment
ZRD	VA-Specific Rated Disabilities Segment
ZSP	VA-Specific Service Period Segment
ZTA	VA-Specific Temporary Address Segment

HL7 Message Definitions

In this section, the following elements will be defined for each HL7 message.

- Message Type
- Message Event Code
- Abstract Message Syntax (list of segments used in the message)
- List of Data Fields (sequence numbers used for each segment)

An HL7 message is composed of individual HL7 segments. Each individual segment contains logical groupings of data. The Braces { } indicate one or more repetitions of the enclosed group of segments. The Brackets [ ] indicate that a segment may be optional. For each message, there will be a list of HL7 standard segments or VA-specific "Z" segments used in the message. The data fields (represented by sequence numbers) utilized in each segment will also be specified. The HL7 Transmission/Event Type Codes are annotated beside each message type.

Please note that an ORF transmission contains the MSA and QRD segments, but the ORU transmission does not.

SSN Data Transmission - (ORU~Z03)
The SSN data transmission transmits new veteran or spouse social security numbers to your facility from the HEC.

```
BHS      Batch Header Segment
{MSH            Message Header
PID             Patient Identification Segment (SEQ 1,3,5,7,19)
ZIV             VA-Specific Message Processing Segment (SEQ 1-7,12)
}
BTS      Batch Trailer
```

Insurance Data Transmission - (ORU~Z04)

The insurance data transmission transmits patient insurance information to your facility from HEC.

```
BHS        Batch Header
{MSH            message header
PID             Patient Information Segment (SEQ 1-3,5,7,19)
IN1             Insurance Segment (SEQ 1,4,5,7-9,12,13,15-18,28,36)
ZIV             VA-Specific Message Processing Segment (SEQ 1,9,13)
}
BTS        Batch Trailer
```

Follow-up insurance data transmissions are transmitted from your facility to alert the HEC as to the action taken regarding insurance information acceptance or rejection. The format for the responding transmission follows (message will NOT be batched).

```
MSH        Message Header
PID             Patient Identification Segment (SEQ 1,2,3,5,7,19)
IN1             Insurance Segment (SEQ 1,4, 36)
ZIV             VA-Specific Message Processing Segment (SEQ 1,9-11)
```

Demographic Data Transmission - (ORU~Z05)
Newly identified or updated demographic-type information for a patient transmitted from the HEC to the VAMC.

```
BHS        Batch Header
{MSH            Message Header
PID             Patient Identification Segment (SEQ 1-3, 5,7, 8, 10,11,13, 16-17, 19, 22,24)
ZPD             VA-Specific Patient Info Segment (SEQ 1,6,7,30, 34)
ZTA             VA-Specific Temporary Address Segment (SEQ 1-9)
{ZAV            VA-Specific Address Validation Segment (SEQ 1-3)
}
ZGD             VA-Specific Guardian Segment (SEQ 1)
ZCT             VA-Specific Emergency Contact Segment (SEQ 1-7, 10)
}
ZEM             VA-Specific Employment Info Segment (SEQ 1-7, 9)
}

RF1             Referral Information Segment (SEQ 3,6,7)

BTS        Batch Trailer
```

Date of Death Transmission - (ORU~Z05)
Newly identified or updated date of death-type information for a patient transmitted from the HEC to the VAMC.

```
BHS        Batch Header
{MSH            Message Header
PID             Patient Identification Segment (SEQ 1-3, 5,7, 8,19)
ZPD             VA-Specific Patient Info Segment (SEQ 1, 9, 31,32)
```

ZTA   VA-Specific Temporary Address Segment (*SEQ)*
ZGD   VA-Specific Guardian Segment (*SEQ)*
ZCT   VA-Specific Emergency Contact Segment (*SEQ)*
ZEM   VA-Specific Employment Info Segment (*SEQ)*
RF1   Referral Information Segment (*SEQ)*

BTS Batch Trailer

Guardian Data Transmission - (ORU~Z05)

Newly identified or updated VA Guardian-type information for a patient transmitted from the HEC to the VAMC.

BHS Batch Header
{MSH   Message Header
PID   Patient Identification Segment (*SEQ 1,2, 5,7, 8, 11, 19)*
ZPD   VA-Specific Patient Info Segment (*SEQ 1, 8)*
ZTA   VA-Specific Temporary Address Segment (*SEQ)*
ZGD   VA-Specific Guardian Segment (*SEQ 1-8)*
ZCT   VA-Specific Emergency Contact Segment (*SEQ)*
ZEM   VA-Specific Employment Info Segment (*SEQ)*
RF1   Referral Information Segment (*SEQ)*

BTS Batch Trailer

Means Test Data Transmission – (ORF~Z06) NOTE: This message has been retired.

The means test data transmission returns an observation of the means test signature in response to the site's transmission of a means test image. (HEC to **V**_IST_**A**)

```

Routine Name	API Call (Hook)	Description
		on Screen #9 (Income Screening Data) of the Registration module**.**
DGENCLEA	AUTOUPD^DGENA2	Call to trigger an HL7 Full Data Transmission (ORU~Z07) message to be sent to the HEC for a Veteran when the Veteran's Military Service Episodes are edited and they no longer meet the eligibility qualifications to receive Camp Lejeune benefits.
DGRP6EF	AUTOUPD^DGENA2	Call to trigger an HL7 Full Data Transmission (ORU~Z07) message to be sent to the HEC for a patient when the Camp Lejeune question is answered by the user.

Appendix B - HL7 Segment Table Definitions

For each HL7 segment, the data elements contained in the segment are described in table format. These tables are described in the following sections. The abbreviated column headings contained in the tables and associated HL7 data types are also defined.

HL7 Abbreviated Column Headings

Column Heading	Definition
SEQ	Sequence of data element in segment
LEN	Maximum length of data element
DT	Data Type
R/O	Required/Optional (R = Required, blank = Optional)
RP/#	Repeats/Maximum number of repetitions (Y for repeats)
TBL#	Number of corresponding HL7 user defined/supported table

HL7 Data Types

Data Type	Definition	VA FileMan Data Type
AD	Address	Free Text
CE	Coded Element	Set of Codes or Pointer
CK	Check Digit	No Equivalent
CM	Composite	No Equivalent
CP	Composite Price	Free Text
CX	Extended Composite ID with Check Digit	Set of Codes or Pointer
DLN	Drivers License Number	No Equivalent
DT	Date	Date Only
EI	Entity Identifier	Set of Codes or Pointer
FT	Formatted Text Data	No Equivalent
HD	Hierarchic Designator	No Equivalent
ID	Coded Value	Set of Codes or Pointer
IS	Coded Value for user-defined tables	Set of Codes or Pointer
NM	Numeric	Numeric
PN	Person Name	Free Text
PT	Processing Type	No Equivalent
SI	Sequence ID	Numeric
ST	String	Free Text
TM	Time	Time Only
TN	Telephone Number	Free Text
TS	Time Stamp	Date/Time
TX	Text	Word processing
XCN	Extended Composite ID Number and Name for Persons	No Equivalent
XON	Extended Composite Name and Identification Number for Organizations	No Equivalent
XPN	Extended Person Name	No Equivalent
XTN	Extended Telecommunication Number	No Equivalent
XAD	Extended Address (Complex)	No Equivalent

HL7 Segment Tables

Financial Transaction (FTI)

Notes:
- Deletion of a Test: SEQ 1 indicates the type of test to delete.

    SEQ 2 will be used to indicate which income year test to delete. The income year is the year prior to the date of the means test.
    SEQ 3 = HLQ will indicate that the test should be deleted.

** Deletion of a Hardship Determination:

    SEQ 24 = HLQ will indicate that the hardship determination should be deleted.
    SEQ 2 will be used to indicate for which income year to delete the hardship determination . The income year is the year prior to the date of the means test.

*** Means Test Signature Indicator

    SEQ 27 was added by Patch IVMB*2*600 for the Implement Signed Means Test Strategy project. VAMCs receive and store data from SEQ 27, but do not include this sequence in transmissions to the HEC. VAMCs send means test signature images to the HEC via FAX. HEC staff processes those images using commercial software with updates to the HEC database via custom remote procedure calls (RPCs).

VA-Specific Rated Disabilities Segment (ZRD)

SEQ	LEN	DT	R/O	RP/#	TBL#	Element Name	VistA Element Name PATIENT (#2.3721) Sub-File Field or Expression
1	4	SI	R			Set ID	Sequential Number
2	4	CE				Disability Condition *(See below.)	RATED DISABILITIES (VA) Field (#.01)
3	3	NM				Disability %	DISABILITY % Field (#2)
4	1	IS			VA001	Service Connected Rated Disability	SERVICE CONNECTED Field (#3)

- DISABILITY CONDITION has the coded element data type, which is one of the composite data types. The '~' is always used within the IVM and Enrollment packages as the component separator. The general format for the coded element data type, from the 2.3 version of the HL7 standard, is:

```
<identifier (ST)>~<text (ST)>~<name of coding system (ST)>~<alternate identifier (ST)>~
```

The actual format for the DISABILITY CONDITION is:

```
<4-digit DX CODE from the Disability Condition File (#31)>~<45-character NAME Field from the
Disability Condition File>
```

If the DISABILITY CONDITION Field is included in the segment then both of its components are required.

Here is an example of the ZRD segment： **ZRD^1^5001~BONE DISEASE^30^1**

2	Math error, 3-Not entitled to treatment
4	Other, 5-Previously Paid
6	Exceed monthly dollar limitation
7	Physician's signature missing
8	Patient's signature missing
9	Medication not emergent
A	Pharmacist's certification missing
B	Pharmacist's signature missing
C	Required drug information missing
D	Item not on payable list
E	Veteran information missing
F	Personal items/Private Room
G	Vet refused transfer
H	For recurring or refill medication
I	Payment made for Generic drug
J	Mill Bill Authority

Table 0048 - What Subject Filter

Code	Description
ADV	Advice/diagnosis
ANU	Nursing unit lookup (returns patients in beds, excluding empty beds)
APA	Account number query, return matching visit
APM	Medical record number query, returns visits for a medical record number
APN	Patient name lookup
APP	Physician lookup
ARN	Nursing unit lookup (returns patients in beds, including empty beds)
CAN	Cancel. Used to cancel a query
DEM	Demographics
FIN	Financial
GID	Generate new identifier
GOL	Goals
MRI	Most recent inpatient
MRO	Most recent outpatient
NCK	Network clock
NSC	Network status change
NST	Network statistic
ORD	Order
OTH	Other
PRB	Problems
PRO	Procedure
RAR	Pharmacy administration information
RDR	Pharmacy dispense information
RER	Pharmacy encoded order information
RES	Result
RGR	Pharmacy give information
ROR	Pharmacy prescription information
SAL	All schedule related information, including open slots, booked slots, blocked slots
SBK	Booked slots on the identified schedule
SBL	Blocked slots on the identified schedule
SOF	First open slot on the identified schedule after the start date/time
SOP	Open slots on the identified schedule between the begin and end of the start date/time range
SSA	Time slots available for a single appointment
SSR	Time slots available for a recurring appointment
STA	Status
VXI	Vaccine Information
XID	Get cross-referenced identifiers

Table 0049 - Department Code

Code	Description

253.7	IATROGENIC PITUITARY DIS
253.8	DISEASES OF THYMUS NEC
253.8	DISEASES OF THYMUS NEC
253.9	PITUITARY DISORDER NOS
254.1	ABSCESS OF THYMUS

Table 0076 - Message Type

Code	Description
ADT	ADT MESSAGE
ACK	GENERAL ACKNOWLEDGMENT
MFN	MASTER FILE NOTIFICATION
ORF	OBSERV. RESULT/RECORD RESPONSE
ORU	OBSERV RESULT/UNSOLICITED
QRY	QUERY

Note: This is not the complete table. It contains those message types used by the VISTA/HEC interface.

Table 0078 - Abnormal Flags

Code	Description
<	Below absolute low-off instrument scale
>	Above absolute high-off instrument scale
A	Abnormal (applies to non-numeric results)
AA	Very abnormal (applies to non-numeric units, analogous to panic limits for numeric units)
B	Better--use when direction not relevant
D	Significant change down
H	Above high normal
HH	Above upper panic limits
I	Intermediate. Indicates for microbiology susceptibilities only.
L	Below low normal
LL	Below lower panic limits
MS	Moderately susceptible. Indicates for microbiology susceptibilities only.
N	Normal (applies to non-numeric results)
null	No range defined, or normal ranges don't apply
R	Resistant. Indicates for microbiology susceptibilities only.
S	Susceptible. Indicates for microbiology susceptibilities only.
U	Significant change up
VS	Very susceptible. Indicates for microbiology susceptibilities only.
W	Worse--use when direction not relevant

Table 0080 - Nature of Abnormal Testing

Code	Description
A	An age-based population
B	Breed
N	None - generic normal range
R	A race-based population
S	A sex-based population
SP	Species
ST	Strain

Table 0085 - Observation Result Status Codes Interpretation

Code	Description
C	Record coming over is a correction and thus replaces a final result
D	Deletes the OBX record
F	Final results; Can only be changed with a corrected result.
I	Specimen in lab; results pending
N	Not asked; used to affirmatively document that the observation identified in the OBX was not sought when the universal service ID in OBR-4 implies that it would be sought.
O	Order detail description only (no result)
P	Preliminary results
R	Results entered -- not verified
S	Partial results
U	Results status change to final without retransmitting results already sent as _preliminary._ E.g., radiology changes status from preliminary to final
W	Post original as wrong, e.g., transmitted for wrong patient
X	Results cannot be obtained for this observation

Table 0088 - Procedure Code

Code	Description

5P12	POSTAL CODE (#5.12) File
5P13	COUNTY CODE (#5.13) File

Table 0178 - File Level Event Code

Code	Description
REP	Replace current version of this master file with the version contained in this message
UPD	Change file records as defined in the record level event codes for each record that follows

Table 0179 - Response Level

Code	Description
NE	Never. No application-level response needed
ER	Error/Reject conditions only. Only MFA segments denoting errors must be returned via the application-level acknowledgment for this message
AL	Always. All MFA segments (whether denoting errors or not) must be returned via the application-level acknowledgment message
SU	Success. Only MFA segments denoting success must be returned via the application-level acknowledgment for this message

Table 0180 - Record Level Event Code

Code	Description
MAD	Add record to master file
MDL	Delete record from master file
MUP	Update record for master file
MDC	Deactivate: discontinue using record in master file, but do not delete from database
MAC	Reactivate deactivated record

Table 0189 - Ethnic Group

Code	Description
H	Hispanic or Latino
N	Not Hispanic or Latino
U	Unknown

Table 0211 - Alternate Character Sets

Code	Description
8859/1	The printable characters from the ISO 8859/1 Character set
8859/2	The printable characters from the ISO 8859/2 Character set
8859/3	The printable characters from the ISO 8859/3 Character set
8859/4	The printable characters from the ISO 8859/4 Character set
8859/5	The printable characters from the ISO 8859/5 Character set
8859/6	The printable characters from the ISO 8859/6 Character set
8859/7	The printable characters from the ISO 8859/7 Character set
8859/8	The printable characters from the ISO 8859/8 Character set
8859/9	The printable characters from the ISO 8859/9 Character set
ASCII	The printable 7-bit ASCII character set. (This is the default if this field is omitted)
ISO IR14	Code for Information Exchange (one byte)(JIS X 0201-1976). Note that the code contains a space, i.e. "ISO IR14".
ISO IR159	Code of the supplementary Japanese Graphic Character set for information interchange (JIS X 0212-1990). Note that the code contains a space, i.e. "ISO IR159".
ISO IR87	Code for the Japanese Graphic Character set for information interchange (JIS X 0208-1990), Note that the code contains a space, i.e. "ISO IR87".
UNICODE	The world wide character standard from ISO/IEC 10646-1-19931

O	Outpatient

Table 0340 - Procedure Code Modifier

Code	Description
57	DECISION FOR SURGERY

Table 0356 - Alternate Character Set Handling Scheme

Code	Description
<null>	This is the default, indicating that there is no character set switching occurring in this message.
2.3	The character set switching mode specified in HL7 2.3, sections 2.8.28.6.1, and 2.9.2. Note that the escape sequences used in this mode do not use the ASCII "esc" character. They are "HL7 escape sequences" as defined in HL7 2.3, sec. 2.9 as defined in I
ISO 2022-1994	This standard is titled "Information Technology - Character Code Structure and Extension Technique". This standard specifies an escape sequence from basic one byte character set to specified other character set, and vice versa.

Table 0363 - Source of Address

ADDRESS CHANGE SOURCE Field (#.119) of PATIENT File (#2)

Code	Description
USVAHEC	US VA Health Eligibility Center
USVAMC	US VA Medical Center
USVAHBSC	US VA Health Benefits Service Center
USNCOA	US National Change Of Address
USVABVA	US VA Board of Veteran's Appeals Application
USVAINS	US VA Philadelphia Insurance Center
USPS	US COA electronic file from the US Postal Service with forwarding address generated from enrollment letters
USVA	US Department of Veterans Affairs
VET360	VET360 address validation service

Table VA010 - Means Test Indicator

Code	Description
AN	This Means Test category includes NSC veterans who are required to complete VA Form 10-10F (Financial Worksheet) and those NSC veterans in receipt of VA pension, aid and attendance, housebound allowance, or entitled to State Medicaid.
AS	This Means Test category includes all compensable service-connected (0-100%) veterans and special category veterans.
C	This Means Test category includes those veterans who, based on income and/or net worth, are required to reimburse VA for care rendered.
N	This Means Test category includes only non-veterans receiving treatment at VA facilities.
U	This Means Test category includes only those patients who require a Means Test, and the Means Test has not been done/completed. The Austin Information Technology Center (AITC) will not accept an OPC transaction unless the Means Test has been completed.
X	This Means Test category includes treatment of patients who are not required to complete the Means Test for the care being provided.

13	Oxygen Services
14	Pharmacy
15	State Home

Table VA035 - Enrollment Sub-Group

Enrollment Sub-Group (.12) of Patient Enrollment File (#27.11)

Code	Description
a	Non-compensable zero percent service connected veterans who were in an enrolled status on a specified date and who have remained continuously enrolled thereafter
b	Non-compensable zero percent service connected veterans who apply for enrollment on or after 1/1/2009 AND the current Financial assessment identifies income above the VA MT or GMT threshold (which ever is higher) by 10% or less OR Non-compensable zero percent service connected veterans who submit a 2008 Income Year Means test or later that calculates the income (income minus medical and educational expenses) under the VA MT threshold and income plus assets are greater than or equal to $80K
c	Non-service connected veterans who were in an enrolled status on a specified date and who have remained continuously enrolled thereafter
d	Non-service connected veterans who apply for enrollment on or after 1/1/2009 AND the most current financial assessment identifies income above the VA MT or GMT threshold (which ever is higher) by 10% or less OR Non-service connected veterans who submit a 2008 Income Year Means test or later that calculates the income (income minus medical and educational expenses) under the VA MT threshold and income plus assets are greater than or equal to $80K
e	0% non-compensable service-connected veterans who apply for enrollment on or after the EGT effective date
g	Non-service-connected veterans who apply for enrollment on or after the EGT effective date

Table VA036 - Military Sexual Trauma Status

Code	Description
D	SCREENED, DECLINES TO ANSWER
N	NO, SCREENED DOES NOT REPORT MST
U	UNKNOWN, NOT SCREENED
Y	YES, SCREENED REPORTS MST

Table VA038 - Military History Type

Code	Description
SL	SERVICE LAST EPISODE
SNL	SERVICE SECOND EPISODE
SNNL	SERVICE THIRD EPISODE
MSD	MILITARY SERVICE DATA
POW	PRISONER OF WAR
COMB	COMBAT
VIET	VIETNAM
LEBA	LEBANON
GREN	GRENADA
PANA	PANAMA
GULF	GULF WAR
SOMA	SOMALIA
PH	PURPLE HEART
YUGO	YUGOSLAVIA
OEIF	OPERATION ENDURING/IRAQI FREEDOM

Table VA0040 - Enrollment Group Threshold Type

EGT Type (.04) of Enrollment Group Threshold File (#27.16)

Code	Description
1	ANNUAL FISCAL YEAR
2	STOP NEW ENROLLMENTS DURING CYCLE
3	MID-CYCLE CHANGE
4	ENROLLMENT DECISION

Table VA041 - Determination Method

Code	Description
1	Automated Record Review
2	Medical Record Review
3	Physical Examination

Table VA042 - Affected Extremity

Code	Description
1	RUE (Right Upper Extremity)
2	RLE (Right Lower Extremity)
3	LUE (Left Upper Extremity)
4	LLE (Left Lower Extremity

Table VA043 - Condition Codes

Code	Description
1	KATZ
2	FOLS
3	RUG3
4	FIM
5	GAF

Table VA045 - CD Permanent Indicator

Code	Description
1	Permanent
2	Not permanent
3	Unknown

Table VA048 - Filipino Veteran Proof

Code	Description
PP	US Passport
BC	US Birth Certificate
BA	Report of Birth Abroad of US Citizen
NA	Verification of Naturalization
PR	Verification of Permanent Residency
VA	VA Compensation at Full Dollar Rate
NO	No Proof

Table VA0051 - Means Test Signature Status

Code	Description
1	YES; Means Test image received and signed
0	NO; Means Test image received, but unsigned
9	DELETED; Means Test signature indicator has been deleted

Table VA0052 - NTR Verification Method

Code	Description
S	Qual Military Srvc (Qualifying Military Service)
M	Military Med Rec (Military Medical Record)
N	Not Qualified

Table VA0053 - NTR Qualifiers

Code	Description
1	Received NTR Trmt (Received NTR Treatment)
2	Aviator Pre 1955 (Aviator Prior to 1955)
3	Sub Trainee pre 1965 (Navy Sub Trainee Prior 1965)
4	Dx With Head Neck Cancer (Diagnosed With Head and Neck Cancer)
5	No NTR Trmt (No NTR Treatment)
6	Not Aviator Pre 1955 (Not Aviator Prior to 1955)
7	Not Sub Trainee pre 1965 (Not Navy Sub Trainee Prior 1965)
8	Not Dx With Head Neck Cancer (Not Diagnosed With Head and Neck Cancer)
9	NTR Trmt Unknown (NTR Treatment Unknown)

Table VA060 - Type of Financial Test

Code	Description
1	MEANS TEST
2	CO-PAY EXEMPTION TEST
4	LTC CO-PAY EXEMPTION TEST

Table VA061 - Invalid Address Reason

Code	Description
1	Address Does Not Exist (maps to Code 1 errors)
2	Veteran Does Not Reside at Address (maps to NCOA invalid address and mail returned by USPS due to Forwarding Order Expired, etc.)
3	Missing Required Address Field (maps to HEC Errors/AITC Errors)
4	Death
5	Other

Table VA0115 - Servicing Facility

(Sample listing of possible values)

Code	Description
512 9AC	Perry Point (Nursing Home)

Table VA117 - Reason For Closed Application

(#.13) Field of the PATIENT ENROLLMENT (#27.11) File

Code	Description
1	Abandoned Application

Table VA440 – CD Descriptors

Code	Description
1	QUADRIPLEGIA
2	PARAPLEGIA
3	PERSISTENT VEGETATIVE STATE
4	LEGAL BLINDNESS
5	AMPUTATION, DISARTICULATION, OR DETACHMENT
6	DEFICIENCIES OF PHYSICAL OR MENTAL FUNCTION
7	DEAFNESS
